

postal bulletin

PB 21230—January 31, 1980—12 Pages

1980 Census

A. Background

1. The U.S. Postal Service and the Department of Commerce have an agreement to cooperate in collecting data for the 1980 Decennial Census.

2. In June 1979, city letter carriers (a) checked about 42.4 million census address cards for accuracy and (b) furnished the Census Bureau with about 3.8 million additional city delivery addresses. Census personnel independently developed a mailing list of over 35 million non-city delivery addresses.

B. Census Mailing for Residential Quarters

1. **Addressed Mailing Pieces.** Post offices will receive about 82 million addressed mailing pieces for delivery. The customers will complete the enclosed questionnaires and return them to their district census office in the envelopes provided.

2. **Unaddressed Mailing Pieces.** The Postal Service will deliver in designated areas about 4 million unaddressed mailing pieces (as outlined in Part 122.4 DMM) bearing a one line address *Residential Customer*. Census enumerators will personally visit each customer to pick up the completed questionnaire.

3. **Reminder Cards.** In a few selected areas a census enumerator will canvass an entire territory door-to-door, to (a) update the listing of households and (b) leave a mailing piece at each household for completion. In these areas, post offices will receive and deliver reminder cards instead of mailing pieces.

C. Post Office Procedures

1. Post offices will receive instructions from Management Sectional Center census coordinators in conducting the 1980 census operation. Each postal installation head is responsible for distributing to all subordinate units: (a) census instructions and related supplies and (b) census mailing pieces, except to those where the shipments are made direct to the 5-digit ZIP Code.

2. Before delivery of census mailing pieces, subsequent *POSTAL BULLETIN* notices will provide further instructions on delivery procedures and other census actions.

D. Important Dates

February 7–February 15, 1980. Management Sectional Center census coordinators will send instructions to post offices. Also, the Census Bureau will begin shipping the mailing pieces.

February 27, 1980. All postal installations should have received the addressed mailing pieces and reminder cards (see B-1 and B-3).

March 5, 1980. Case addressed mailing pieces and reminder cards to determine if there is a piece for every household, then pull, and hold for delivery on March 28.

March 19, 1980. Postal installations in designated areas should have received the unaddressed mailing pieces (see B-2).

March 28, 1980. Deliver addressed mailing pieces, unaddressed mailing pieces and reminder cards for certain selected areas.

March 31–April 1, 1980. Completed census questionnaires are due to be placed in the mailstream by customers. Post offices serving census district offices will deliver the completed questionnaires to the Census District offices.

April 4, 1980. Deliver reminder cards (see B-3) in the remaining areas of the update list/leave census operation.

May 1–31, 1980. In areas where unaddressed mailing pieces (see B-2) were received, the Census Bureau will provide address cards and postal personnel will verify the accuracy of the address cards.

E. Summary

Make certain that these important dates are noted for overall planning purposes and add this special notice to the census file established by direction in *POSTAL BULLETIN* 21182, 3-22-79.—*Delivery Services Dept., 1-31-80.*

Revenue Unit, GFY 1979

The value of a revenue unit for Government Fiscal Year 1979 is \$158.56.—*Finance Dept., 1-31-80.*

Customs Remittances

Postmasters are reminded that all remittances for customs collections are to be made as instructed in Part 662 of Handbook F-1, *Financial Handbook for Post Offices*, to:

Regional Commissioner of Customs
Attn: Financial Management Division
6 World Trade Center
New York, NY 10048

Under no circumstances are remittances to be made to the Port-of-Entry office shown on the customs entry form, CF Form 3419.—*Finance Dept., 1-31-80.*

Use correct ZIP Code, and Mr. ZIP.®

Designer: Concept developed by USPS Graphics and Design Division, with Randall McDougall executing the finished work.

Collectors. The Postal Service strongly urges customers to affix the stamps to their covers themselves. This will avoid confusion as to the desired stamp or combination of stamps to be placed on each cover. First-day cover cancellations may be obtained by one of the following methods:

a. Customers Affixing Stamps. Customers are encouraged to purchase their stamps at their local post offices and affix them to their envelopes. All envelopes must be addressed. Peelable address labels are recommended and a filler card of postal card thickness should be inserted in each cover. Orders must be

postmarked by March 21, 1980, and should be addressed to: First Day Cancellations, Postmaster, Washington, DC 20013. No remittance is required.

b. Postal Service Affixing Stamps. The Postal Service will affix pairs of the stamps, or singles from the pairs, to envelopes sent by customers. Pairs will be affixed side by side on the envelopes. The smaller stamps will be affixed as singles only when the customer specifies by color—green, purple, and red/blue—which of the P.S. Write Soon stamps is desired. Singles of the larger stamp should be specified by legend. Pairs also should be specified by legend.

Request first day cancellations from: Letter Writing Stamps, Postmaster, Washington, DC 20013 (see POM 244.53). Requests must be postmarked no later than March 21, 1980. Remittance is required for the face value of each stamp.

Selected United States mint stamps will be available at the Philatelic Sales Branch, Washington, DC 20265 beginning February 25, 1980.

Winter Olympics Souvenir Folder

A new philatelic product, the Winter Olympics Souvenir Folder, Item 941, will be placed on sale at post offices on February 2, 1980. The selling price for this item is \$1.25.

Because this product contains stamps not yet issued it is imperative that it not be placed on sale before February 2, 1980. The product consists of a full color folder, a block of four Winter Olympics commemorative stamps, a 14¢ Olympics Figure Skater postal card, and two acetate mounts to hold the stamps and postal card.

The Winter Olympics Souvenir Folders will be shipped only to Stamp Distribution Offices. There will be no automatic distribution by Stamp Distribution Offices.

Postmasters requiring a supply of this item should immediately requisition it from their designated Stamp Distribution Office on Form 17, *Stamp Requisition*, and have it available for sale on February 2, 1980. A lobby poster (#425) promoting the folder will be distributed to selected offices later this month.—*Customer Services Dept., 1-31-80.*

Wanted Circular Canceled

Destroy the wanted circular issued January 4, 1980, for postal offender **Elton Lee Robertson, Jr.**—*Inspection Service, 1-31-80.*

Supply. All post offices under the automatic distribution system will receive an initial supply of this stamp.

Post offices with 950 or more revenue units requiring additional bulk quantities: immediately requisition, item 527, on Form 3356, *Stamp Requisition—Bulk Quantities*, from the Bureau of Engraving and Printing. Since these stamps are distributed in sheets of 60, order quantities of 6,000; 12,000; 18,000; 24,000; 30,000; 60,000; 90,000; 120,000; 150,000 and multiples of 150,000 to maximum of 6,000,000.

All post offices requiring additional stamps in less than bulk quantities: requisition on separate Form 17, *Stamp Requisition*, from stamp distribution office.—*Customer Services Dept., 1-31-80.*

Injury Compensation Program

Part 546.14 of Subchapter 540 of the EMPLOYEE AND LABOR RELATIONS MANUAL (ELM), as published in SPECIAL POSTAL BULLETIN 21215, 10-22-79, has been modified and will appear in TL4 of the ELM.

.14 Disability Partially Overcome

.141 Current Employees. When an employee has partially overcome a compensable disability, the USPS must make every effort toward assigning the employee to limited duty consistent with the employee's medically defined work limitation tolerances (see 546.32). In assigning such limited duty, the USPS should minimize any adverse or disruptive impact on the employee. The following considerations must be made in effecting such limited duty assignments:

a. To the extent that there is adequate work available within the employee's work limitation tolerances within the employee's craft, in the work facility to which the employee is regularly assigned, and during the hours when the employee regularly works, that work shall constitute the limited duty to which the employee is assigned.

b. If adequate duties are not available within the employee's work limitation tolerances in the craft and work facility to which the employee is regularly assigned, within the employee's regular hours of duty, other work may be assigned within that facility.

c. If adequate work is not available at the facility within the employee's regular hours of duty, work outside the employee's regular schedule may be assigned as limited duty. However, all reasonable efforts shall be made to assign the employee to limited duty within the employee's craft and to keep the hours of limited duty as close as possible to the employee's regular schedule.

d. An employee may be assigned limited duty outside of the work facility to which the employee is normally assigned only if there is not adequate work available within the employee's work limitation tolerances at the employee's facility. In such instances, every effort will be made to assign the employee to work within the employee's craft, within the employee's regular schedule, and as near

Non-Foreign Per Diem Rate Changes

Changes in per diem rates prescribed for official travel in Alaska, Hawaii, the Commonwealth of Puerto Rico, and possessions of the United States effective January 3, 1980 are as follows:

¹ Commercial facilities are not available. This per diem rate covers charges for meals in available facilities plus an additional allowance for incidental expenses and will be increased by the amount paid for Government quarters by the traveler.

² Commercial facilities are not available. Only Government owned and contractor operated quarters and mess are available at this locality. This per diem rate is the amount necessary to defray the cost of lodging, meal, and incidental expenses.

³ Indicates new locality or change in maximum rate.

—Finance Dept., 1-31-80.

as possible to the regular work facility to which normally assigned.

.142 Former Employees. When a former employee has partially recovered from a compensable injury or disability the USPS must make every effort toward reemployment con-

sistent with medically defined work limitation tolerances. Such an employee may be returned to any position for which qualified, including a lower grade position than that held when compensation began.—Employee Relations Dept., 1-31-80.

CONTROLLED CIRCULATION UNDELIVERABLE-AS-ADDRESSED

Many publishers of large publications such as *Glamour*, *McCalls*, and *Mechanix Illustrated* have requested and have been granted a change in status from second-class to controlled circulation.

As a result of this action some post office and central markup unit employees are applying incorrect postage due charges to undeliverable-as-addressed copies of these and other such publications. Employees are reminded that undeliverable-as-addressed controlled circulation publications are charged either the third- or fourth-class single piece rate according to weight when forwarded, or if returned to sender when endorsed *Return Postage Guaranteed*. Undeliverable-as-addressed second-class publications are rated postage due at the transient nonsubscriber rate according to weight when forwarded, or if returned to sender when endorsed *Return Postage Guaranteed*.

Employees are asked to carefully check all identification statements in publications which are undeliverable-as-addressed to determine whether they are second-class or controlled circulation mail before applying postage due charges. A conscientious review by postal employees of identification statements in undeliverable-as-addressed publications is necessary to prevent possible revenue losses.

Below is a partial list of publications which have changed their classification status. Postal employees must be sure that correct postage due is collected on undeliverable-as-addressed copies of these publications, based on their current classification status.

International Mail—Customs Declarations

Exchange offices continue to receive outbound Postal Union mail with improper customs declaration forms. Postal employees are reminded that Form 2976, *Customs-Douane CI*, and Form 2976-A, *Customs Declaration*, are used for Postal Union mail.

Form 2976, shown in Exhibit 1, must be affixed to each small packet, each letter containing dutiable mer-

chandise, and each piece of dutiable printed matter.

Form 2976-A, shown in Exhibit 2, is used with Form 2976. If the contents exceed \$120 in value or if the mailer prefers not to describe the contents on the outside wrapper, Form 2976-A must be completed and enclosed in the package. The upper portion of Form 2976 is attached to the outside wrapper.

Bulk Stamp Requisitions

The Bureau of Engraving and Printing reports that many postmasters are submitting Forms 3356, *Stamp Requisition-Bulk Quantities*, which have been altered, mutilated, or have attachments. These requisitions are rejected by data processing equipment, and a duplicate order form must be prepared to process the requisition. The forms cannot be mechanically processed if they are torn, mutilated or folded, attachments are stapled or clipped to the form, or tape is attached to the form to correct mistakes.

Preparing and processing duplicate Forms 3356 increases costs and causes delays in filling stamp requisitions. Therefore, postmasters must make certain that forms submitted are not folded, torn, altered, or otherwise mutilated and that there is nothing attached to the forms.

Refer to Section 523.13, Handbook F-1, *Financial Handbook for Post Offices*, for proper procedures in completing Form 3356.—*Customer Services Dept., 1-31-80.*

Passport Application Forms

A number of passport acceptance facilities have been attempting to requisition 1980 editions of the Passport Application (DSP-11) and the Application for Passport by Mail (DSP-82). The 1980 editions of these forms will probably not be available until April. The area supply centers are currently filling orders with 1979 forms, and an automatic distribution of 1979 passport materials is scheduled for next month, to provide interim supplies until the 1980 editions are available. Offices should not order 1980 forms until their availability is announced in the *Postal Bulletin*. If necessary, post offices may continue to use 1978 editions of the DSP-11 and DSP-82 until they receive the automatic distribution of current materials next month.

Passport acceptance offices are reminded that all passport materials must be ordered from the appropriate area supply center in accordance with established procedures. Orders sent to the Passport Office are returned to the ordering offices for resubmission, resulting in unnecessary delays.—*Delivery Services Dept. 1-31-80.*

Revised Forms

The recently revised forms listed below are now available for distribution at the Eastern and Western Area Supply Centers.

These forms have been modified to meet new functional requirements and/or to comply with the provisions of the Privacy Act of 1974.

Form No.	Form title	Issue dates
1311.....	Carrier Transportation Agreement.....	5/77
1700.....	Vehicle Accident Investigation Worksheet.....	4/77
3601-A.....	Application for a Postage Meter License.....	8/78
4232.....	Customer's Name and Address.....	8/77
4232-A.....	Customer's Name and Address (Card).....	8/77
4240.....	Rural Carrier Trip Report.....	11/77
4582-A.....	Summary of Driving Record.....	4/77

Forms with the edition dates shown above or subsequent editions comply with the provisions of the Privacy Act of 1974 and should not be replaced. If on-hand quantities of these forms bear edition dates earlier than those shown, the revised forms should be requisitioned.

Requisitions for the forms should be directed to your area supply center in accordance with established procedures. Upon receipt of the forms requisitioned, destroy stock of the previous edition.—*Delivery Services Department, 1-31-80.*

Plastic Stamp Dispensers

Postmasters must keep plastic stamp dispensers in sufficient quantity to meet customer demand.

All CAG A-L post offices may order stamp dispensers from their stamp distribution office when ordering less-than-bulk quantity stamps during the scheduled requisitioning cycle. See Section 524, Handbook F-1, *Financial Handbook for Post Offices.*

Plastic stamp dispensers are available in boxes of 100 or cartons of 1,000. Post offices requiring less than 100 dispensers must order a minimum quantity of 10. See Figure 5-4, in Handbook F-1.

Stamp distribution offices may requisition full cartons of 1,000 dispensers from their accountable paper depository during the regular requisitioning cycle.—*Customer Services Dept., 1-31-80.*

International Mail—Articles Mailed Abroad

Subchapter 660, Publication 42, *International Mail*, pertains to the mailing of articles abroad by or on behalf of senders in the United States. Its provisions are based upon Article 20 of the Universal Postal Union Convention, which states, in part, that

a member country shall not be bound to forward or deliver to the addressee letter-post items which senders resident in its territory post or cause to be posted in a foreign country with the object of profiting by the lower charges in force there; the same shall apply to such items posted in large quantities whether or not such postings are made with a view to benefiting from lower charges.

Existing USPS regulations specify that such articles are subject to the payment of United States postage under the following circumstances:

(a) When 200 or more pieces are mailed within a 30-day period and the foreign postage rate is lower than the U.S. domestic rate.

(b) When 5000 or more pieces are mailed within a 30-day period, irrespective of the differential in postage rates.

Some U.S. mailers and mailing services have been attempting to circumvent the intent of these regulations. Usually the sender or his representative mails just under 200 pieces from a foreign country to ad-

dréesees in the U.S. Through this arrangement, the mailer seeks to avoid payment of U.S. postage, profiting from the lower postage rate in effect in the foreign country.

To prevent the loss of postal revenues from misuse of these regulations by certain domestic mailers, 661 of Publication 42 has been amended to read:

661 SCOPE AND APPLICABILITY

661.1 Mailings Affected. The special conditions described in this subchapter apply to items of mail posted in foreign countries by or on behalf of persons or firms whose residence or place of business is in the United States.

661.2 Postage Payment Requirement. Payment of United States postage is required to secure delivery of items of mail described in 661.1 under the following circumstances:

(a) When the foreign rate of postage applied to such items is lower than the comparable United States domestic rate of postage.

(b) When 1000 or more such items are mailed, regardless of whether the foreign postage rate is lower than the comparable United States domestic rate.

These changes will be reflected in a revision to Publication 42.—*Rates & Classification Dept., 1-31-80.*

Uniform Allowance

The ADMINISTRATIVE SUPPORT MANUAL (ASM) states in page 5 of Exhibit 351.31, Item 6-19 that Uniform Allowance Payment Case files should be disposed of after 6 months. The disposal of these files should be 4 years instead of 6 months as stated in the 6-1-79 edition of the ASM. This change will be made in a future ASM revision.—*Finance Dept., 1-31-80.*

Contracting for Vehicle Hire

Correct Exhibit 1 on page 7 of POSTAL BULLETIN 21226, 1-3-80. The approximate storage capacity for ¼-ton vehicles is listed as 75 cubic feet. Change this to 50 cubic feet.—*Procurement & Supply Dept., 1-31-80.*

Inspection Service Appointments

The following appointments were effective January 12, 1980.

Richard J. Klentz, Regional Chief Inspector, Western Region.

John E. Dobbins, Inspector in Charge, Cincinnati Division.—*Inspection Service, 1-31-80.*

All Post Offices

Printed Matter Bulk Mailings

The notice on *Preparation of Bulk Mailings* in Postal Bulletin 21214, 10-18-79, indicated Part 763 of the DOMESTIC MAIL MANUAL will be replaced by Part 767, effective February 3, 1980. The provisions for using detached address labels on bound printed matter mailings were unintentionally omitted. The regulations on detached address labels continue in effect and will be in new section 767.6.

767.6 Optional Handling of Bulk Mailings. At the option of the mailer, address labels and unaddressed pieces weighing in excess of 2 pounds, which are addressed for delivery only in the mailer's local parcel post zones, may be mailed separately for local delivery at the office of mailing, subject to all of the following conditions:

a. The address labels, which may not measure less than 3½ by 5 inches, must show the full name, address, and ZIP Code of the sender and addressee and must be sorted by the mailer to the fourth and fifth digit of the ZIP Code.

b. Postage must be paid by permit imprints for each label, including labels returned as undeliverable. The imprint may be placed on the pieces or on the label (see 145).

c. The mailer must submit a completed Form 3605, *Statement of Mail-*

ing-Bulk Zone Rates, with each mailing.

d. The total weight of pieces placed in a sack, carton, crate, or any other type of container must not exceed 70 pounds.

e. The mailer must send the address labels to the postmaster at the delivery office.

f. Address labels bearing incorrect, nonexistent, or otherwise undeliverable addresses are corrected or endorsed to show why they are undeliverable and returned to the mailer. Each envelope is rated with postage due at the address correction fee (see 712.2) for each address label contained in the envelope. At the request of the mailer, the postmaster will notify the mailer (at the mailer's expense and by any reasonable means specified by the mailer and approved by the postmaster) of the number of address labels being returned. The request for notification must accompany the labels. Correctly addressed labels will be held awaiting arrival of the pieces.

g. The mail pieces must be deposited at the acceptance point designated representative or agent, of the number of pieces deposited is less than the number of address labels provided, the postmaster must immediately notify the sender, or a des-

Stamp Poster

USPS Stamp Poster 80-6, which contains information about cancellations being made available at Lake Placid during the 1980 Winter Olympic Games, is being printed and distributed. The poster has two pages instead of the customary one page, and care should be taken that both pages are displayed for the information of customers.—*Customer Services Dept., 1-31-80.*

ignated representative or agent of the number of pieces required to complete the delivery. If the additional pieces are not delivered to the post office within 15 days, the excess address labels will be returned to the mailer at the third-class single piece rate (see 611.1). If the number of pieces deposited exceeds the number of address labels provided, the postmaster must notify the sender of the number of excess pieces. However, delivery will not be delayed. As soon as deliveries are completed, the postmaster will notify the sender of the number of any excess pieces remaining. The mailer may call for the excess pieces without charge. Any excess pieces not called for within 15 days will be returned to sender with postage due at the single piece bound printed matter rate.—*Rates & Classification Dept., 1-31-80.*

VACANT REGULAR RURAL ROUTES LISTING NO. 80-8

The vacant rural routes listed below will be posted for bid in accordance with the USPS-NRLCA 1978 National Agreement, Article 30.5, nine calendar days after the date of this POSTAL BULLETIN. Those rural carriers having special bidding rights as defined in the USPS-NRLCA 1978 National Agreement, Article 30.1.D, may apply for vacant rural routes by submitting their bids to the post office where the vacancy occurs on or prior to the closing date of the posting. Rural carriers with special bidding rights may request additional information from the post office where the vacancy occurs.
