## 18-Cent Savings and Loans Commemorative Stamp

**Description.** The 18-cent Savings and Loans commemorative stamp will be first placed on sale at Chicago, IL 60607 on May 8, 1981. The design honors the role this industry plays in making home ownership possible in America.

**Do Not Sell Before May 9, 1981**

Copyright U.S. Postal Service 1981

Size: .75 x 1.44 inches.

Issued in sheets of 50.

Colors: Yellow, red, blue, brown, grey and black.

Marginal markings: ©United States Postal Service 1981. Use correct ZIP Code, and Mr. ZIP®

Designer: Don Hedin.

**Collectors.** First-day cover cancellations may be obtained by one of the following methods:

*a. Customers Affixing Stamps.* Customers are encouraged to purchase stamps at local post offices and affix them to their envelopes. All envelopes must be addressed. Peelable address labels are recommended and a filler card of postal card thickness should be inserted in each cover. Orders must be postmarked by June 23, 1981 and should be addressed to: Customer-Affixed Envelopes, Postmaster, Chicago, IL 60607. No remittance is required.

*b. Postal Service Affixing Stamps.* Request first-day cancellations from:

Savings and Loans Stamp, Postmaster, Chicago, IL 60607 (see POM 244.53). Requests must be postmarked no later than June 23, 1981. Remittance is required for the face value of each stamp.

Selected United States mint stamps will be available at the Philatelic Sales Division, Washington, DC 20265 beginning May 9, 1981.

**Supply.** All post offices under the automatic distribution system will receive a supply of these stamps. However, some post offices will receive less than the normal distribution quantities automatically furnished on a 50-subject commemorative. Since the total quantity of this stamp is being distributed automatically, no supplemental bulk requisitions will be honored at the Bureau of Engraving and Printing for item 496.

All post offices requiring additional stamps in less than bulk quantities, requisition on separate Form 17, *Stamp Requisition*, from stamp distribution office.

**Panels.** A limited number of 8½ by 11¼-inch commemorative series stamp panels will only be available through mail order from the Philatelic Sales Division, Washington, DC 20265. The panels are printed on heavy art paper suitable for mounting.—*Customer Services Dept., 4-16-81.*

## Dead Mail Branch Changes

The discontinuance of the dead letter branch a Dallas, TX, announced in *POSTAL BULLETIN* 21278 (1-1-81), is postponed until May 23, 1981, because of a delay in procuring necessary equipment. On that date, the function will be transferred to Atlanta, GA. Instructions in the original announcement concerning the sending of dead letters to the new location, processing dead letters in transit or on hand, retaining files, and processing inquiries concerning dead letters remain in effect, but must be appropriately amended to reflect the revised effective date.—*Rates & Classification Dept., 4-16-81.*

## International Mail—Iran

The restrictions on mail service to Iran previously announced in *POSTAL BULLETINS* 21244 (5-8-80) and 21251 (6-26-80) have been lifted due to new regulations of the Treasury Department's Office of Foreign Assets Control.

Effective immediately, mailings of merchandise by all individuals and firms may be accepted.

The size, weight, mailing requirements, and the prohibitions/restrictions prescribed for Iran in Appendix B, Publication 42, *International Mail*, remain applicable to all classes of international mail destined to that country.—*Rates & Classification Dept., 4-16-81.*

## Postal Savings System Inquiries

Advise customers to write for information and assistance concerning Postal Savings Accounts and Certificates to the U.S. Treasury Department, Bureau of Government Financial Operations, Division of Financial Management, Claims Review and Settlement Branch, Washington, DC 20226. This information is contained in the *DOMESTIC MAIL MANUAL* (944) and Handbook F-1, *Financial Handbook for Post Offices* (335).—*Finance Dept., 4-16-81.*

## SIZE STANDARDS

*Implementation of Size Standards* in POSTAL BULLETIN 21296 (6-28-79) is revised to eliminate several problems which have been identified during the time the size standards have been enforced. These revised instructions are in effect until further notice. All post offices are to retain and act in accordance with these instructions.

The revised instructions are as follows:

### Size Standards

At the direction of the Postal Service Board of Governors, revised minimum size standards and a surcharge for nonstandard size mail were implemented concurrently on July 15, 1979. Although the revision in size standards was publicized for three years prior to its adoption, some undersize (nonmailable) pieces and nonstandard pieces without the surcharge affixed continue to be placed in the mails by customers. To enforce the new standards, the Postal Service returns to the sender pieces not meeting the minimum sizes and nonstandard pieces which do not bear postage indicating the surcharge was paid. The nonstandard surcharge is currently 9 cents.

### A. Standards

The following minimum sizes affect all classes of mail and types of service:

1. All mailing pieces must be at least 0.007 of an inch thick.
2. All mailing pieces  $\frac{1}{4}$  inch or less in thickness (except keys and identification devices) must be:
  - a. rectangular in shape,
  - b. at least  $3\frac{1}{2}$  inches high, and
  - c. at least 5 inches long.

Mailing pieces which do not meet these minimum size requirements are prohibited from the mails.

Pieces exceeding  $\frac{1}{4}$  inch in thickness may continue to be accepted even if they are less than  $3\frac{1}{2}$  by 5 inches.

In summary, under the new minimum size standards, pieces which are  $\frac{1}{4}$  inch or less in thickness are nonmailable, unless they are rectangular in shape, at least  $3\frac{1}{2}$  inches high, at least 5 inches long, and at least seven thousandths (.007) of an inch thick.

### B. Nonstandard Surcharge Mail Requirements

All First-Class Mail (including First-Class Presort) and single piece rate third-class mail weighing one ounce or less, is of a nonstandard size and subject to a 9-cent surcharge in addition to the applicable postage and fees, if any of the following size limits are exceeded:

1. height exceeds  $6\frac{1}{8}$  inches, or
2. length exceeds  $11\frac{1}{2}$  inches, or
3. thickness exceeds  $\frac{1}{4}$  inch, or
4. height to length aspect ratio does not fall between 1 to 1.3 and 1 to 2.5 inclusive.

The aspect ratio can be checked by dividing the length of a piece by its height. If the result is between 1.3 and 2.5 inclusive, the piece has a standard size aspect ratio.

It is important to remember that the 9-cent nonstandard surcharge is applicable only to nonstandard size First-Class Mail and nonstandard size single piece rate third-class mail weighing one ounce or less.

### C. Exceptions

1. Matter originally mailed at the bulk third-class rate which is undeliverable as addressed and is forwarded or returned at the single piece third-class rate is exempt from the surcharge if it is of a nonstandard size. Pieces of a bulk third-class mailing returned as part of address correction service are also exempt.

2. Keys and identification devices are exempt from the nonstandard surcharge.

### D. Enforcement

Enforcement of size standards focuses on educating customers to the requirements. Consequently, pieces detected that do not meet the minimum size standards are returned to the sender. Similarly, nonstandard First-Class and single piece rate third-class mail found without the surcharge postage is also returned to the sender.

All bulk mail acceptance personnel are responsible for tactfully refusing mail matter that does not meet the minimum size standards and for collecting the nonstandard surcharge when it is applicable.

Although non-conforming pieces can be found at virtually any point, primary reliance is placed on detecting them during mail preparation

and in primary distribution operations at the office of origin.

1. **Minimum Size Enforcement.** Material which does not meet the minimum size criteria is affixed to a convenience card, Notice 5, *Return to Sender*, with transparent tape and returned to sender. If the return address is found on the back side of a piece, the piece should be affixed to Notice 5 so that the return address is visible. Undersize items not bearing a return address are sent to the dead letter branch.

On side two of the card, the sender is given a full explanation of why the item is being returned, what the new minimum sizes are, and instructions for remailing. By cutting off the top, *Return to Sender* strip, the sender is able to remail the piece. The mailer is not required to affix additional postage. To avoid reuse, Notice 5 must be cancelled when the sender remails the piece. If the sender does not wish to use Notice 5, the mail must be placed in a new envelope of the proper size before it is remailed.

2. **Collection of Nonstandard Surcharge.** Label 100 is used to return nonstandard mail to the sender when it does not have the surcharge paid. Label 100 is affixed directly over the address of pieces being returned. This label informs the sender why the mail is being returned and what the nonstandard sizes are. It also indicates that the customer can remail the item after affixing an additional 9 cents postage and removing the Label 100. The adhesive on the label is a "non-mar" type which allows the customer to remove the label without defacing the address. The sender receives full credit for all postage affixed and only needs to affix the additional postage required for the surcharge. Nonstandard pieces without a surcharge having no return address are processed through the dead letter branch, under present procedures. Notice 5 and Label 100 are available from supply centers.

### E. Special Instructions

1. **Official U.S. Government (penalty) mail** which does not meet the minimum sizes is not accepted and if such pieces are found in the mail-stream they are returned to the sender. Official U.S. Government (penalty) mail which is subject to the nonstandard size surcharge is delivered to the addressee.

2. Mail presented for acceptance at bulk acceptance units which does not meet the minimum sizes is refused.

3. Nonstandard size pieces in a presorted First-Class mailing which are subject to the 9-cent surcharge must include the surcharge postage on the pieces when postage is paid

by meter stamps or precancelled stamps.

Pieces in a presorted First-Class mailing that are subject to the non-standard surcharge must bear indication of payment of all applicable postage on each piece. When postage is paid by permit imprint, employees are

to assume that the surcharge on non-standard size pieces was collected at the time of mailing.

4. Business reply pieces subject to the surcharge are delivered to the addressee rather than returned to the sender.—*Rates & Classification Dept., 4-16-81.*

### International First Flight Cachet

On May 24, 1981, Lufthansa Airlines will begin first flight service between Miami, FL and Dusseldorf, Germany, with Flight LH 435.

Official cachet and philatelic treatment are authorized as outlined in **POSTAL OPERATIONS MANUAL 244.63.**

To prepare and send covers for official philatelic treatment for this service, observe the following procedures:

1. Address all covers.
2. Applicable rate of postage per cover is 40 cents per half ounce.
3. Allow a clear space, 2½ by 2½ inches, on the lower portion of the envelope and to the left of the address for the cachet.
4. Provide an additional clear space of 1½ inches to the left of the inner most stamp to permit a clear postmark.
5. Include in each envelope a uniform enclosure of the approximate thickness of a postal card to assure a good impression.
6. Enclose the prepared covers in another envelope and address as follows:

Miami City Post Office  
 Postmaster General Mail Facility  
 2200 NW 72 Avenue  
 Miami, FL 33152

Miami Airport Mail Facility  
 Operations Manager  
 Airport Mail Facility  
 U.S. Postal Service  
 Miami, FL 33159

7. Endorse the lower left corner of the outer envelope containing the covers with the words *First Flight Covers* for easy identification.

8. Mail the covers to reach the office applying the cachet no later than three days prior to the scheduled date of the flight.

9. Aerogrammes and postal cards will not be accepted.

Covers bearing previous postmarks and those not properly prepared in accordance with these instructions

will not receive cachets or cancellations.

There will be a limit of 50 covers per customer.—*Customer Services Dept., 4-16-81.*

### Carrier Route Information

Mailers have asked whether carrier route information may be shown on pieces which are not part of a mailing mailed at the second-class level C per piece rate or at the third-class carrier route presort rate. Carrier route information may be shown as indicated below.

The permissible information consists of a descriptive prefix (or its abbreviation) plus a two-digit route number or four-digit numeric code.

The descriptive prefix "carrier route," "rural route," "highway contract route," "lockbox section" or "general delivery unit" must either be spelled out or abbreviated as follows:

Carrier Route.....	CR
Rural Route.....	RR
Highway Contract Route...	SR
Lockbox Section.....	LS
General Delivery.....	GD

Examples of carrier route information are shown below.

Carrier Route 22
CR 22
Lockbox Section 22
LS 22
RR 1505

Carrier route information may be shown on pieces whether or not the pieces are made up to carrier routes, highway contract routes, lockbox sections, rural routes, or general delivery units. The information must be located so as not to interfere with the address.

The "Carrier Route Presort" endorsement or the acceptable abbreviation may be placed only on pieces which are part of a third-class carrier route presort mailing or a carrier route First-Class mailing.—*Rates & Classification Dept., 4-16-81.*

## RURAL ROUTES—SPECIAL EQUIPMENT MAINTENANCE ALLOWANCE

The February, 1981, national average price per gallon for no-lead regular gasoline, which was released by the Bureau of Labor Statistics on March 24, 1981, was \$1.382. Therefore, in accordance with the provisions of Article 30.1.G.3, of the *USPS-NRLCA 1978 National Agreement*, the rural letter carrier equipment maintenance allowance is increased from 28¢ to 29¢ per mile, or

major fraction of a mile scheduled per day, or \$11.60 per day, whichever is greater.

Auxiliary Rural Assistants (Des. 78) and Auxiliary Rural Carriers (Des. 77) shall be paid an equipment maintenance allowance (EMA) of 29¢ per mile or a minimum of \$3.50 per hour, whichever is greater, but not to exceed the amount provided by

the special chart for the route stops and miles.

The EMA Schedule on pages 5 and 6 of this *POSTAL BULLETIN* supersedes all previously published EMA Schedules. The aforementioned changes in the EMA are effective April 18, 1981 (pp. 10-81).—*Office of Organizational Requirements, 4-16-81.*

## Travel Voucher Alterations

Handbook M-9, *Travel* (814.2) states that all erasures and alterations in totals on face of the travel voucher, Form 1012, must be initialed by the traveler or the appropriate approving official. The coding strip on the bottom of Form 1012, Blocks 2 through 67, should *not* be initialed or altered since this area is used for keypunch and may be misread by the keypunch operator.

This will be incorporated in a future revision to M-9.—*Finance Dept., 4-16-81.*

*DMM Revision*

**Postage Meter Ad Plates**

Effective immediately, DOMESTIC MAIL MANUAL (DMM) 144.492 is revised, as follows, to include the term *Carrier-Route Presort* as an authorized postage marking: 144.49 Ad Plates

\* \* \* \* \*

.492 The following postal markings relating to the class of mail are permissible: FIRST CLASS: PRE-SORTED FIRST CLASS: THIRD CLASS: BLK. RT.: NONPROFIT ORG. CARRIER ROUTE PRE-SORT. FOURTH CLASS: and PRIORITY MAIL. If a postal marking is to appear in the ad plate area, no other matter is to be printed. The marking must fill the entire ad plate area to the extent practicable. All words must be in bold, capital letters which are at least 1/4 of an inch in height or 18-point type and legible at two feet. Exceptions for small ad plates that will not accommodate any of the above markings will not be considered.

This change will be included in a future revision to the DMM.—*Rates & Classification Dept., 4-16-81.*

**Use of "Confidential"**

Many offices have been using the term *confidential* in an attempt to designate information or documents that require some type of control or restricted access. *Confidential* is inappropriate and should not be used for this purpose.

If such a designation is necessary, the term *restricted* or *restricted information* should be used.—*Records Officer, 4-16-81.*

**Domestic Orders**

False Representation. Enforced by postmasters at cities listed.

**EXPEDITE SERVICE—  
SAVE MONEY—PROCESS  
MAILBAGS FREQUENTLY**

**Vehicle Safety Check**

Currently it is required that vehicle engines be started daily as instructed on Notice 76, Expanded Vehicle Safety Check. This will now be required only when the temperature is 15 degrees Fahrenheit or lower. It is expected that this energy conservation measure will result in significant gasoline savings. Notice 76 and Handbook M-41, City Delivery Carriers Duties and Responsibilities will be amended accordingly.—*Delivery Services Dept., 4-16-81.*

**Interest Rate—  
Contract Claims**

Section 1-313(h) of Publication 41, *Postal Contracting Manual*, which implements the Contract Disputes Act of 1978, provides that the rate at which interest is payable will be published in the POSTAL BULLETIN. The interest rate effective for the period January 1, 1981, through June 30, 1981 is 14 5/8 (14.625) percent.—*Procurement & Supply Dept., 4-16-81.*

**Holders for Labels**

Recent reviews of supply inventories have indicated limited use of item 07506.

Item 07506, box holders for pressure sensitive labels, A, C, D, S and 3, is available to all postal facilities for use in mail processing operations where pressure sensitive labels are required.

Form 7380, *Requisition for Supplies*, should be used to order these box holders during regular requisitioning cycles.—*Mail Processing Dept., 4-16-81.*

VACANT REGULAR RURAL ROUTES LIST 81-16

The vacant rural routes listed below will be posted for bid in accordance with the USPS-NRLCA 1978 National Agreement, Article 30.5, nine calendar days after the date of this POSTAL BULLETIN. Those rural carriers having special bidding rights as defined in the USPS-NRLCA 1978 National Agreement, Article 30.1.D, may apply for vacant rural routes by submitting their bids to the post office where the vacancy occurs on or prior to the closing date of the posting. Rural carriers with special bidding rights may request additional information from the post office where the vacancy occurs.
