

postal bulletin

PB 21496—January 17, 1985—32 Pages

END OF SALES PROCEDURES FOR 1983-84 SILVER DOLLAR OLYMPIC COINS

All post offices currently selling the 1983-84 One-Dollar Silver Olympic Coins should withhold all remaining coins from sale at close of business January 25, 1985, and take the following actions.

1. Philatelic Centers—Collect all remaining coins from stamp credits and return them to the main stock using the reverse side of Form 17, *Stamp Requisition*, (Return Stamps side).

2. Post Offices—Consolidate all remaining coins in the main stock and return them to your Stamp Distribution Office (SDO) no later than February 1, 1985. Record the quantity and value of the returned stock on AIC 501, *Postage Stock Shipped*, and reduce stamp accountability accordingly. List the quantity and value of the returned stock on reverse of Form 17. Also record the quantities of Items 808 and 809 shipped on the applicable Form 3295, *Daily Record of Stamps, Stamped Paper, and Nonpostal Stamps on Hand*, and send the original Form 17 to the Postal Data Center with the Statement of Account. The name and finance number of the SDO as well as that of the shipping office must be shown on the Form 17. When returning the coins to the SDOs the 1983 and 1984 coins should be packaged separately and the respective item numbers noted on the package with a red marking pencil or crayon.

Stamp Distribution Offices—Upon receipt of the coins at the SDO the supply clerk should verify

the amount of each coin returned from the respective post offices. The accountability of the SDO must then be increased to reflect the shipments returned from post offices.

A reconciliation of the number of coins sold and returned will be made at the national level, accordingly the SDOs should retain the returned Forms 17 as a separate file. Also maintain with that file a record of all requisitions for Items 808 and 809 since the start of the sales program, December 5, 1983, so that any discrepancies in the reconciliation may be resolved if necessary. Stamp Distribution Offices will return all coins to their Regional Accountable Paper Depository no later than February 8, 1985, using the return side of Form 17. SDOs should record the value of the stock they are returning to their APD on the reverse of Form 17. SDOs should reduce their accountability by the total value of coins returned to APDs.

Regional Accountable Paper Depositories—Upon verification of all coins received from Stamp Distribution Offices, Regional Accountable Paper Depositories should increase their accountability for Items 808 and 809 by total value received. Further instruction to the APDs for disposition of the accumulated coins will be forthcoming during the week of February 11.

Follow the normal sales reporting procedures for Accounting Period 4, and include the sales of January 19-25 as separate sales on the same report.

—Customer Services Dept., 1-17-85.

The orange and blue pouch is to be used for Express Mail Service only.

DMM Revisions

Express Mail Preparations and Mailing Requirements

Please correct the second sentence of paragraph 262.1, and paragraph 263.5, that appeared in POSTAL BULLETIN 21486 (11-22-84), page 16. The paragraphs should read as follows (the corrections are italicized):

262 Express Mail Custom Designed Service

262.1 Customers must complete Form 5625, *Express Mail Service Receipt*, and, when appropriate, Form 3877, *Firm Mailing Book* (see 263.5). Place the completed Form 5625 in an EP-13 envelope and affix the EP-13 envelope to the Express Mail pouch.

263 Express Mail Next Day Service

263.5

a. The mailer must prepare Custom Designed Articles as described in 262.1 and Next Day Service articles as described in 263.1.

These changes will be reflected in a future revision of the DOMESTIC MAIL MANUAL.

—Customer Services Dept., 1-17-85.

PASS Program Changes

A new PASS announcement is now available from the National Test Administration Center (NTAC). It is a combined announcement and may be used to announce 1, 2, or all 3 PASS families at one time.

Effective immediately, when any PASS family is reopened, the resulting candidate list supersedes the old list. The new announcement reflects this change.

Also, the following position is added to P-11 Exhibit 530-B and is to be filled through the Written Application procedures:

Supervisor, Maintenance (Detached Unit)
Occupation Code 4704-6034

—Employee Relations Dept., 1-17-85.

POSTAGE STAMPS AND STATIONERY ITEMS FOR RATE CHANGE

General Information

This information pertains to the availability of stamps and postal stationery to be used in connection with postage rate changes which will become effective February 17, 1985. It is imperative that postmasters insure that all sales outlets will have a supply of the new First-Class rate postage stamps and stamped paper by the effective date. The stamps and postal stationery were printed without denomination because of the uncertainty of what the new rates would be and the production and distribution lead time required to implement the proposed postage rate change.

22-Cent D Series, Regular Postage Stamps

Description. A non-denominated postage stamp with a selling value of 22 cents will first be placed on sale at Los Angeles, CA, on February 1, 1985. This stamp is intended for domestic use only; it may not be used for international mail.

Positively Do Not Sell Before February 2, 1985

Copyright: U.S. Postal Service 1981.
 Issued in sheets of 100.
 Coils: 100; 500; 3,000.
 Book of 20.
 Collector information will be found on page 23.

22-Cent D Series Embossed Stamped Envelopes

Description. A non-denominated embossed stamped envelope will be first placed on sale at Los Angeles, CA, on February 1, 1985. This embossed stamped envelope is intended for domestic use only; it may not be used for international mail.

Positively Do Not Sell the Envelopes Before February 2, 1985

Copyright: U.S. Postal Service 1982.
 Collector information will be found on page 23.

Domestic Rate Charles Carroll Single and Reply-Paid Postal Cards

Description. The domestic rate Charles Carroll single and double (reply) postal cards will be first placed on sale at New Carrollton, MD, on February 1, 1985. The selling value has been set at 14 cents. These cards are intended for domestic use only; they may not be used for international mail.

Positively Do Not Sell Cards Before February 2, 1985

Copyright: U.S. Postal Service 1982.
 Collector information will be found on page 25.

Supplies—General

D Series items will arrive at Stamp Distribution Offices (SDOs) in mid-January. Requisitioning and further distribution will be accomplished according to the following information relating to each item. None of the items are to be placed on sale prior to February 2, 1985.

D Series Stamps

All post offices were surveyed in 1982 to develop shipment quantities for nondenominated stamp stock. Those shipments will be made directly to SDOs and those post offices which were receiving 50,000 or more commemorative stamps through automatic distribution at the time of the survey.

As part of that survey, associate postmasters were to partially complete and submit a Form 17, *Stamp Requisition*, to their SDO for the quantity of nondenominated stamps needed to implement a rate change. Those forms were to be retained at the SDO. Upon receipt of the D Series stamps, SDOs are to process those Forms 17 and ship the requested stock quantities to associate offices.

Additional supplies of D Series stamps in sheets, books and coils are available from Bureau of Engraving and Printing. Post offices with over 949 revenue units may order supplemental quantities of the stamps, using Form 3356, *Stamp Requisition—Bulk Quantities*. Other offices should requisition the items from their designated SDO.

Before ordering additional D stamps from BEP, post offices must consider the quantities they requested in the 1982 survey.

Item numbers for ordering additional stamps are:

Sheets of 100	096
Books of 20	606
Coils of 100	761
Coils of 500	762
Coils of 3,000	763

There are no SSPC vending machine booklets of D Series stamps.

1-Cent and 2-Cent Stamps

There will not be an automatic distribution of 1-cent and 2-cent stamps. Postmasters were advised by telecommunications (TWX) messages of December 12, 1984, and January 9, 1985, to immediately order supplies of 1-cent and 2-cent stamps needed to implement the rate change. Postmasters who have not ordered supplies of these items should do so immediately. CAG A-G post offices may order the stock in bulk from BEP and other post offices from their SDOs.

	Sheets of 100	Coils of 500	Coils of 3,000
1-cent	Item 006	Item 704	Item 705
2-cent	007	729	730

The maximum quantity per requisition in effect for the above items is waived for this situation; a single requisition may be used to order stamps in proper multiples to any quantity.

D Series Embossed Stamped Envelopes

D Series plain stamped envelopes will be furnished automatically *only* to the SDOs.

Associate post offices which have not already done so will immediately submit a Form 17, *Stamp Requisition*, to the SDO for a 60-day supply of D Series envelopes. The requisitions must be for a minimum 500 envelopes, and additional quantities must be in multiples of 500.

Selling prices and item numbers for the D Series envelopes are shown in Exhibit A, page 5.

There will be no banded D Series envelopes for post office self-service multi-commodity vending machines.

Requisitioning D Series Embossed Stamped Envelopes. Additional supplies of D Series envelopes are not available from the Stamped Envelope Agency. Requisition additional stocks of stamped envelopes as follows: (a) *associate post offices*—requisition from your designated stamp distribution office and (b) *stamp distribution offices*—requisition from your regional accountable paper depository. These requisitioning instructions are effective

until the availability of the new 22-cent embossed stamped envelopes is announced. Postmasters are cautioned not to place requisitions for excessive quantities.

Domestic Rate Charles Carroll Postal Cards

Single Cut Cards. All post offices which were on the automatic distribution program at the Bureau of Engraving and Printing in 1982 will receive a supply of the domestic rate cut single postal card *item 216* directly from the Government Printing Office. The quantity of cards being furnished automatically is equal to the quantity of stamps supplied on a 50-subject commemorative postage stamp. All other post offices should immediately requisition (using Form 17) a 6-week supply of the Charles Carroll cut postal cards directly from their Stamp Distribution Offices.

Sheet and Reply Cards. Charles Carroll postal cards in sheet and reply form are available only at regional accountable paper depositories. However, since only Stamp Distribution Offices may order stock from accountable paper depositories, all post offices requiring Charles Carroll sheet or reply postal cards must order them on Form 17 through their Stamp Distribution Offices, using *item 261* for sheet cards and *item 262* for reply cards. Requisitions for sheet postal cards must be submitted for minimum lots of 10,000 cards and multiples thereof. Requisitions for reply cards must be submitted for quantities of 250; 500; 1,000; 2,000; 5,000; and multiples of 5,000.

Printed Stamped Envelopes

Orders for printed D Series stamped envelopes will not be accepted. The design of a new 22-cent stamped envelope which may be ordered with a printed return address will be announced in a future POSTAL BULLETIN. Shown in Exhibit B are the item numbers and prices of the new 22-cent printed envelopes should a customer wish to order them in advance of the design announcement. Customers should indicate the new item numbers and prices on blank lines of the present Form 3203, *Printed Stamped Envelope Order*, when placing orders. The envelopes will be shipped following the first day of sale, expected in March 1985 (Exhibit B, page 5.)

Supplies for Self-Service Post Offices

The availability of new rate vending machine stamp booklets, banded postal cards, and banded stamped envelopes, for post offices having multi-commodity vending machines will be announced in a future POSTAL BULLETIN.

Official Mail Stamps

Two nondenominated Official Mail postage stamps will be issued on February 4, 1985, in Washington, DC. These items will be used for implementing the rate change until regular denominated Official Mail stamps become available.

22-cent Domestic Letter Rate D Official Mail Stamp

Shown below is the design of the Domestic Letter Rate D Official Mail stamp which is valued at 22-cents. This stamp is available in coils of 100 only.

Issued in sheets of 100.
Collector information will be found in a future POSTAL BULLETIN.

Supply

Only Stamp Distribution Offices authorized to process Official Mail requisitions from government agencies may order these stamps. Those offices should immediately forward Forms 3356, *Stamp Requisition—Bulk Quantities*, to the Bureau of Engraving and Printing, using *item 550* for 14-cent sheet stamps and *item 760* for 22-cent coils of 100 stamps. Requisitions must be submitted for the standard ordering quantities.

—Customer Services Dept. 47-85.

FORWARDING REGULATION CHANGES

In conjunction with the changes in postage rates and fees that will be implemented on February 17, 1985, a number of classification changes affecting the Postal Service's forwarding and return and address correction services will be made. This notice provides an overview of those broad policy changes and the proposed regulation changes which will implement them. A subsequent POSTAL BULLETIN will include the specific DOMESTIC MAIL MANUAL changes that will be made and will outline orientation procedures for delivery and clerical employees.

RETENTION PERIOD FOR CHANGE OF ADDRESS

The Postal Service continues to retain Form 3575, *Change of Address Order*, for a period of eighteen (18) months, for all classes of mail. The additional six months retention of change of address information provides mailers an opportunity to enhance their mailing list maintenance practices. Generally, this is accomplished by providing the mailer with the customer's new address or the reason for nondelivery of most mail matter received at the old address from the beginning of month 13 through month 18. However, this approach will not apply, at the current time, to Express Mail and First-Class Mail. The forwarding period for those classes has been extended to eighteen (18) months for a temporary period, not to exceed three years beginning October 22, 1983, and terminating October 21, 1986. At the end of this period, forwarding of Express Mail and First-Class Mail will automatically revert back to twelve (12) months.

ADDRESS CORRECTION

Address correction service is being changed to make address corrections more available and to eliminate the fee whenever possible. The use of separate address correction notices will be eliminated when practical by placement of the new address on the mail piece being returned. When a correction is provided incidental to the return of the mail piece, the address correction fee will no longer be assessed. Only when a separate correction notice is provided will the 30 cent correction fee be charged.

EXPRESS MAIL

The forwarding and return of Express Mail will be the same as First-Class Mail.

FIRST-CLASS MAIL

General

All First-Class Mail (including Priority Mail and postal and post cards) covered by a change of address order (permanent or temporary) will be forwarded at no charge for a total of twelve months from the effective date of the request. (*Exception:* as noted above, during the period of

October 22, 1983 through October 21, 1986, First-Class Mail will be forwarded for 18 months.) After October 21, 1986, First-Class Mail will not be forwarded, but will be returned in months 13 through 18 with the new address or the reason for nondelivery placed on the piece. Currently, heavier weight pieces (Priority Mail) do not receive free forwarding and post and postal cards are not returned.

Authorized Endorsements

1. Address Correction Requested. During months 1-18, the mail piece will not be forwarded at anytime when this is the only endorsement on the piece. It will be returned to the sender at no charge with the new address information or the reason for nondelivery annotated on or attached to the mail piece. First-Class Mail endorsed *Do Not Forward* will be treated as though endorsed *Address Correction Requested*.

2. Forwarding and Address Correction Requested. The mail piece will be forwarded during months one through 12 (after October 21, 1986). The new address information will be provided separately to the mailer and the address correction fee will be charged. During months 13 through 18 (after October 21, 1986), all mail will be returned to the sender at no charge with the new address or the reason for nondelivery placed on the piece.

Temporary Change of Address

All First-Class Mail associated with a temporary change of address order will be forwarded during months one through 12 (after October 21, 1986). At no time will an address correction be provided to the mailer.

SECOND-CLASS MAIL

General

All second-class mail will be forwarded nationwide, at no charge, for 60 days from the effective date of the change of address order. The current distinction between local and non-local forwarding is being eliminated. The second-class transient rate, which was previously applied to pieces that were forwarded non-locally or returned, will be eliminated. The appropriate single piece third- or fourth-class rate will now be charged if second-class mail is returned.

An address correction notice will be issued to the publisher *once* if an issue of the publication bearing the old address is received after the 60-day forwarding period has expired. (*Exception:* Address Change Service (ACS) participants may receive Form 3579 on day one or day 61 of the forwarding period.) The mailer will be charged the address correction fee for the notification. The Postal Service will continue to properly dispose of all subsequent issues received after the expiration of the forwarding period.

Authorized Endorsement

Return Postage Guaranteed. Upon expiration of the 60-day nationwide forwarding period, the entire publication will be returned to the mailer with the new address or the reason for nondelivery attached. The mailer will be charged the applicable third-class or fourth-class rate for return of the publication. No address correction fee will be charged.

Temporary Change of Address

Second-class mail for a temporary change of address will be forwarded up to 60 days from the effective date of the change of address order. Issues received after day 60 will be disposed of as prescribed by the Postal Service. The Postal Service will resume delivery of second-class mail to the customer's permanent address at the end of the temporary forwarding period. At no time will an address correction be provided to the mailer.

THIRD-CLASS MAIL**General**

The obvious value concept will no longer be applied in the treatment of undeliverable-as-addressed third-class mail. Forwarding and return treatment will be the same, whether the item appears to have value or not. Mailer endorsements will generally control the handling of the mail piece. Undeliverable-as-addressed third-class mail will be forwarded or returned solely at the request of the mailer. The addressee will no longer be able to request the forwarding of third-class mail. A mailer who requests forwarding of third-class mail will now pay for the attempted forwarding through a charge that is assessed on those mail pieces which are returned. The Postal Service will no longer attempt to collect forwarding postage from the addressee.

No forwarding or return service will be available for unendorsed bulk business mail (bulk third-class mail). All undeliverable-as-addressed bulk mail pieces will be properly disposed of by the Postal Service. Unendorsed single-piece third-class mail will be returned to the mailer at the single-piece third-class rate and treated as though endorsed *Do Not Forward, Address Correction Requested, Return Postage Guaranteed*.

Authorized Endorsements

1. Do Not Forward, Address Correction Requested, Return Postage Guaranteed. During months one through 18 the new address or the reason for nondelivery will be placed on the mail piece. It is then returned to the sender; forwarding is not attempted. The mailer pays the single-piece third-class rate only. No fee is assessed for the address correction information.

2. Address Correction Requested. The mail piece will not be forwarded. An address correction with the new address or the reason for nondelivery will be provided to the mailer. If the piece is

returned, only the appropriate return postage rate will be charged—the address correction fee is not charged when the correction is incidental to return of the piece. If, due to weight constraints, the piece is not returned, a separate address correction notice will be provided, the address correction fee will be charged and the piece will be properly disposed of by the Postal Service.

3. Forwarding and Return Postage Guaranteed. The mail piece will be forwarded to the recipient at no charge. If the piece is undeliverable, it will be returned to the mailer with the reason for nondelivery attached. The mailer pays the appropriate single-piece third-class rate for the piece multiplied by 2.733. This factor is derived from the ratio of the number of third-class pieces nationwide, endorsed for forwarding and return treatment, that are successfully forwarded to the number of those pieces that cannot be forwarded and are returned. No separate fee would be charged for the address correction provided.

4. Forwarding and Return Postage Guaranteed and Address Correction Requested. The mail piece will be forwarded to the recipient at no charge. If forwardable, a separate address correction notice will be sent to the mailer and the address correction fee will be assessed. If the piece is undeliverable, it will be returned to the mailer with the reason for nondelivery attached. The mailer pays the appropriate single-piece third-class rate for the piece multiplied by the 2.733 factor.

5. No attempt will be made to forward or return bulk third-class mail carrying only the endorsement *Do Not Forward*. It will be properly disposed of by the Postal Service.

Insurance

If the mailer insures a mail piece, but indicates no other endorsement, the piece will be treated as though endorsed: *Forwarding and Return Postage Guaranteed*.

FOURTH-CLASS MAIL**General**

The obvious value distinction will also be eliminated for fourth-class mail. The recipient will continue to be provided free local forwarding for one year. For forwarding purposes, local means within the same single ZIP Coded or multi-ZIP Coded post office. Forwarding outside of the local area will be provided only if the recipient guarantees the postage due upon completion of Form 3575, *Change of Address Order*. If the recipient guarantees forwarding postage, the Postal Service will attempt delivery of each piece of fourth-class mail.

Authorized Endorsements

1. Forwarding and Return Postage Guaranteed. The mail piece will be forwarded locally, at no charge, for 12 months. Mail will be forwarded non-locally with postage due charged to the recipient. If the mail piece is not deliverable due to

the lack of a new address or the recipient has not guaranteed or refuses to pay forwarding postage, the mail will be returned to the sender. The new address or the reason for nondelivery will be attached to all return mail when appropriate. No fee will be assessed for the correction information. However, the mailer will be charged both for the return of the mail piece and the attempt made to forward the article.

2. Address Correction Requested. During months one through 12 the new address or the reason for nondelivery is provided to the mailer separately and the mail piece is forwarded, if possible (non-local forwarding postage is charged to the recipient). The address correction fee will be charged for the separate correction notice. If delivery cannot be executed, the mail piece will be returned to the sender with the new address attached and the appropriate return postage will be charged. During months 13 through 18 the mail is returned to the sender with the new address attached. Return postage will be charged to the mailer.

3. Forwarding and Return Postage Guaranteed, Address Correction Requested. The mail piece will be forwarded free locally, for 12 months. Mail is forwarded non-locally with postage due charged to the recipient if the recipient has guaranteed payment. If the mail is forwarded, a separate address correction notice will be sent to the mailer and the address correction fee will be charged. If the forwarded mail piece is not deliverable, it will be returned to the sender who will be charged both for the return of the mail piece and the

attempt made to forward the article. If the piece cannot be forwarded, due to the lack of a new address or the recipient has not guaranteed to pay forwarding postage, it will be returned to sender with the new address or the reason for nondelivery placed on the mail piece. In such a case, no fee will be assessed for the on-piece address correction information provided.

4. Do Not Forward, Address Correction Requested, Return Postage Guaranteed. The mail piece is not forwarded. The new address or the reason for nondelivery will be placed on the mail piece. The article will be returned to the sender and the appropriate return rate will be charged. The address correction fee will not be charged.

5. Unendorsed fourth-class pieces of mail will be treated as though endorsed *Forwarding and Return Postage Guaranteed*. The mailer will be charged the appropriate rate for the service(s) provided.

Insurance

Insured pieces of fourth-class mail, without any other endorsement, will be treated as though endorsed *Forwarding and Return Postage Guaranteed*.

MISCELLANEOUS

Mail which bears an endorsement that is not an authorized endorsement for the appropriate class of mail or that does not clearly indicate the action wished by the mailer will be treated as though endorsed *Do Not Forward, Address Correction Requested, Return Postage Guaranteed*.

—Delivery Services Dept., 1-17-85.

POM, Handbook T-1 Revisions

INTERNATIONAL MAIL DISPATCHING CRITERIA

Current dispatching criteria require that international mail being sent to air exchange offices from service area origins be color-coded as if it were overnight committed mail. This requirement was added as part of the International Mail Service Improvement Program to bring additional processing discipline to international mail, and was summarized in POSTAL BULLETIN 21480 (10-11-84).

The following paragraphs outline the related POSTAL OPERATIONS MANUAL (POM) and Handbook T-1, *International Airmail Exchange Office Procedures*, changes resulting from this international mail dispatching policy.

POM Revisions

Chapter 4—Mail Processing

450 Other Categories of Mail—Distribution, Dispatches and Routing Procedures

451 International Mail (Domestic Handling)

451.1 General

.17 Refer to Handbook T-1, *International Airmail Exchange Office Procedures*, or Handbook T-4, *International Surface Mail*, for specifics regarding exchange office policy and procedures.

451.2 International Airmail

.21 Distribution

.211 General

a. International mails prepared at the airmail rate are identified at domestic processing facilities and dispatched to the appropriate international air exchange office as indicated in the Regional Logistics Directory.

b. International airmail, when in the domestic service, is given the same handling priority as First-Class and Priority Mail over all lower classes of mail in distribution and dispatch.

c. All facilities forwarding outgoing international mail to their appropriate air exchange office must ensure that it arrives in time to be processed and made ready for dispatch on day one (day after postmark/meter date).

d. All residue or geographics forwarded by an air exchange office for further processing or dispatch must be processed and made ready for dispatch at the gateway exchange office on day two (second day following postmark/meter date).

e. To achieve overnight delivery, outgoing international mail may require air transportation from the origin office to the air exchange office.

.212 Letter Class Mail (LC)—Letters, Postcards, Flats, and Aerogrammes.

a. Origin offices are to commingle air LC with surface LC mail into a single separation and dis-

patch such mail to the appropriate air exchange office for precise make-up in accordance with the Regional Logistics Directory. Surface LC mail will be separated from air LC mail at the designated air exchange offices and dispatched to the appropriate surface gateway exchange office.

b. Air exchange offices perform case and rack distribution to provide for city, province/state, country, and geographical separations as shown in the Regional Logistics Directory and any special directions from the General Manager, Regional Logistics Division. Exclusive airmail bundles are made up for all foreign locations except Canada and Mexico. Letter class airmail for Canada and Mexico is commingled with surface mail in case and rack distribution.

c. Use nonstandard facing slips on all international bundles.

d. As far as practicable, process all foreign mail on a single handling case.

.213 AO Mail (Printed Matter, Matter for the Blind, and Small Packets)

a. As directed by the General Manager, Regional Logistics Division, local origins with sufficient volumes will make-up justifiable city, province/state, and country pouches according to the Regional Logistics Directory.

b. For origins with insufficient volumes to warrant direct make-ups, mass AO airmail to the appropriate air exchange office, as shown in the Regional Logistics Directory.

.214 (CP Mail) Parcel Post

Local origins distribute air parcel post in the same manner as air AO mail.

.215 Special Delivery (Express)

a. General

(1) Postal union mail can be sent special delivery to most countries. (See Postal Union mail section of the Individual Country Listings in the INTERNATIONAL MAIL MANUAL (IMM) for exceptions.)

(2) Special delivery service is not available for parcel post.

b. Letter Class (LC)

(1) Special delivery mail is made up in direct city, country, or mixed country special delivery bundles. Do not combine specials with bundles of non-special delivery mail.

(2) Local origins should keep specials separate from ordinary LC mail and dispatch to the air exchange office for volume make-up. Enclose specials in *Speedy bags* when size and density permits.

(3) Air exchange offices make-up specials in city and country ties when volumes warrant. Otherwise, dispatch in mixed special delivery bundles to the appropriate gateway exchange office. Special delivery items tied out in bundles should

bear a facing slip identifying the contents and endorsed: Special Delivery or Exprès. Enclose in *Speedy bag* inserted through neck of pouch for ready identification.

.22 Dispatch and Routing
.221 Pouching and Labeling

a. Letter Class (LC) Mail

(1) Local Origins

(a) Dispatch commingled air with surface LC mail to the appropriate air exchange office where it must arrive in time to be processed and made ready for dispatch on day one (day after postmark/meter date).

(b) All service area mail must be color-coded for arrival at the air exchange office as if it were overnight committed mail. For Saturday dispatches, a white color-coded label must be used to assure arrival at the air exchange office on Sunday.

(c) Service area office operating plans must reflect these dispatching criteria.

(d) Select routings to the air exchange office in the following order of priority: (1) surface; (2) non-stop air flights; (3) direct flights with intermediate stops; (4) intraline transfers; and (5) interline transfers.

(e) Use loose packs and trays, where authorized, to the greatest extent possible.

(f) Use nonstandard facing slips on bundles.

(g) Use orange nylon equipment.

(2) Air Exchange Offices.

(a) All residue or geographics forwarded by an air exchange office to a gateway exchange office for further processing or dispatch must be processed and made ready for dispatch on day two (second day following postmark/meter date). The mail must be color-coded for arrival at the gateway air exchange office as if it were overnight committed mail. For Saturday dispatches, a white color-coded label must be used to assure arrival at the gateway air exchange office on Sunday. Additionally, air exchange office bins and racks must be cleared in order to dispatch as much mail as possible on day one.

(b) Air exchange offices and gateway exchanges must reflect these dispatching criteria in the operating plans.

(c) Make-up exclusive airmail trays, loose packs, or pouches of all foreign mail except Canada and Mexico. Commingle air with surface mail for Canada and Mexico. Where authorized, make-up justifiable city, country, and geographical area trays. Loose packs and pouches must conform to case make-ups.

(l) Use green nylon equipment for dispatch of Mexico mail to appropriate exchange office.

(m) All labels must identify make-up of contents, i.e., city, country, or geographical area.

Note: (n) Delete
 Change *o* and *p* to *n* and *a*.

b. AO and CP Mail

(1) Local Origins

(a) Local origins that make up city, province/state, or country pouches of AO and CP mails must label such pouches to the appropriate exchange office as shown in the Regional Logistics Directory.

(b) Use orange equipment and wide color-coded labels. Address labels to the appropriate air exchange office and describe contents on second line.

(c) Pouches are routed by the most expeditious transportation.

(d) Canadian AO and CP mail must be labeled to the appropriate Canadian customs port as shown in the Regional Logistics Directory.

(e) Use Tag 116-A on all Canadian dispatches.

(f) Low volumes of AO and CP mail may be combined when routing to the air exchange office.

(2) Air exchange office dispatch procedures are contained in Handbook T-1.

Note: Delete *a.* and *b.* and .222, *Dispatch Scheduling.*

Chapter 2—Dispatching International Mail

210 Postal Union Mail—LC/AO and CP

211 General

211.2

.21 All facilities forwarding outgoing international mail to the appropriate air exchange office must ensure that it arrives in time to be processed and made ready for dispatch by the air exchange office on day one (day after postmark/meter date). To achieve this goal, air transportation may be required from the origin office to the air exchange office.

.22 All service area mail must be color-coded for arrival at the air exchange office in the same manner as overnight committed mail. For Saturday dispatches, a white color-coded label must be used to assure arrival at the air exchange office on Sunday.

.23 Operating plans must reflect these criteria. Exchange offices must monitor compliance with these guidelines and report errors to the origin office.

211.3

.31 All residue or geographics forwarded by an air exchange office to a gateway air exchange office for further processing or dispatch must be processed and made ready for dispatch at the gateway exchange office on day two (second day following postmark/meter date).

.32 The mail must be color-coded for arrival at the gateway exchange office in the same manner as overnight committed mail. For Saturday dispatches, a white color-coded label must be used to assure arrival at the gateway air exchange office on Sunday.

.33 Air exchange offices and general mail facilities that perform case and rack distribution of outgoing international mail must complete distribution of all mail received prior to the critical entry time established for outgoing international mail in time to meet principal dispatches to other countries.

.34 Air exchange office operating plans must reflect these criteria. Exchange offices must moni-

tor compliance with these guidelines and report errors to the origin office.

Chapter 3—Handling of Incoming International Mail

310 Receipt of Mail

311 Inbound Criteria

.311.1 Except on Saturdays and the days before holidays, foreign originating airmail arriving at an air exchange office and clearing customs by 5:00 p.m., must be processed in the same manner as originating domestic mail.

.311.2 Opening and culling operation units must be reviewed and monitored to take advantage of foreign make-up. After processing, all incoming foreign mail must be dispatched in the domestic system with the appropriate color code. Operating plans must reflect these criteria.

These changes will be incorporated in future revisions to the POM and Handbook T-1.

INTERNATIONAL PUBLISHERS' PERIODICALS

The Postal Service gives international mail the same priority handling given domestic mail. In view of this policy, preferential international AO surface mail (i.e., publishers' periodicals) will be handled in the surface preferential network in the same manner as domestic second-class mail.

AO mail is comparable to domestic second, third, and special fourth-class mail. The abbreviation AO is defined in French as *Autres Objets*, or other articles, and includes:

- Printed matter:
- regular printed matter, i.e., advertising material, catalogues, and directories;
- books and sheet music;
- publishers' periodicals, i.e., second-class magazines, newspapers, and publications.
- Matter for the blind;
- Small packets (merchandise).

Effective June 1, 1985, preferential international AO surface mail (publishers' periodicals) will be processed in the surface preferential mail network. The period March 1, to June 1, 1985, will serve as a transition period, during which publishers and the Postal Service may make whatever operational changes are needed to implement this policy. Publishers' periodicals will continue to be accepted at bulk mail centers (BMCs) during this transition period. However, managers and supervisors at those postal installations should work closely with their mailers to help them make prompt adjustments to the surface preferential mail network.

The following paragraphs outline the areas most affected by this processing change. The final portion of this bulletin provides the related POSTAL OPERATIONS MANUAL (POM) and Handbook T-4, *International Surface Mail*, changes.

Mail Preparation

Beginning March 1, 1985, publishers' periodicals may be accepted at general mail facilities (GMFs), sectional center facilities (SCFs), and other facilities designated to accept domestic second-class mail. The mailings must have a pink label (residue or geographics sacks), or blue label (direct city/country sacks) affixed with the designation "NEWS" to indicate publications issued weekly or more frequently. To denote other types of publications the designation "2C" must be shown on the contents line. *Effective June 1, 1985, mailers will be required to make up all international publishers' periodicals in accordance with these requirements.* White canvas Number 2 sacks must be used in the dispatch of publishers' periodicals.

Acceptance

Beginning March 1, 1985, and continuing throughout the transition period, publishers' periodicals may be accepted at *general mail facilities* (GMFs), *sectional center facilities* (SCFs) and other

facilities designated to accept domestic second-class mail, provided that mail make-up is in accordance with the current mailing requirements for mail publishers' periodicals. Pink or blue labels, as appropriate, must be used on international publishers' periodicals that enter the surface preferential mail network. Publications that are issued weekly or more frequently must have the designation "NEWS" on the labels contents line, while all other second-class publications must show "2C" in that position. Regions and all field installations must ensure that staffing and space are provided to accommodate the increased volumes resulting from this change. During the transition period, publishers' periodicals that are made up in accordance with existing requirements will continue to be accepted at BMCs.

Mail Processing

After March 1, 1985, all publishers' periodicals that are identified as surface preferential AO mail, and that are labeled "NEWS" or "2C" on the contents line, will be distributed concurrently with domestic First- and second-class mail to meet the distribution and delivery requirements for surface preferential mail. If heavy volumes of publishers' periodicals make it impossible to complete all processing in time to make connections, give preference to publications with more frequent issuance.

Transportation

Regions, transportation management offices (TMOs), and SCFs must ensure that transportation availability, frequency, and scheduling afforded are sufficient to accommodate the additional preferential mail volumes resulting from the induction of publishers' periodicals into the surface preferential mail network.

Manual Changes

To reflect these operational changes, the following revisions are being made to the POM and Handbook T-4.

POM Revisions

Chapter 4—Mail Processing

450 Other Categories of Mail—Distribution, Dispatch and Routing Procedures.

451 International Mail (Domestic Handling).

451.1 General.

* * * * *

.16 Refer to *International Mail Manual (IMM)* for specifics regarding mail services to various countries.

451.3 International Surface Mail.

* * * * *

.31 Distribution.

* * * * *

.312 AO Mail (printed matter, matter for the blind, and small packets).

a. AO mail is composed of two basic distribution categories:

(1) Preferential Items (publishers' periodicals).

(a) Second-class mail issued weekly or more frequently.

(b) Second-class mail issued less frequently than weekly.

(c) Publishers' periodicals are not to be commingled with nonpreferential AO mail in case or rack distribution.

(d) Publishers' periodicals are dispatched in the surface preferential network concurrently with domestic second-class mail.

(2) Nonpreferential items are regular printed matter (advertising material, catalogues, and directories), books and sheet music, matter for the blind, and small packets.

* * * * *

b. Endorsements.

* * * * *

c. Makeup Requirements.

(1) During case and rack distribution, all AO mail must be made up in city, country, and geographical separations. When there is sufficient volume to any particular destination to fill at least one-third of a Number 2 sack, those pieces must then be individually sacked and labeled. Direct bundles must be made up if there are six or more pieces to the same city or country. All bundles must be securely bound to withstand handling without breakage or damage and to prevent injury to postal personnel or damage to mechanized sorting system.

(2) Made-up bundles must be massed to the appropriate international surface exchange office when the volume is less than one-third of a Number 2 sack.

(3) Any residue publishers' periodicals must be dispatched to the appropriate surface international exchange office for further distribution.

(4) Residue nonpreferential AO mails must be dispatched to the appropriate regional concentration center as directed by the General Manager, Regional Logistics Division, for appropriate case and rack make-up.

* * * * *

.32 Dispatch and Routing.

* * * * *

.322

b. Make up publishers' periodicals separately from nonpreferential AO mails.

* * * * *

.325 Labels and Facing Slips.

Chapter 2—Distribution—Outbound

210 General Information.

211 Receipt of Mail from Domestic Offices and Mailers.

211.1 International surface mail must be prepared by post offices and mailers in accordance with instructions set out in the INTERNATIONAL MAIL MANUAL (IMM) and the Regional Logistics Directory. International publishers' periodicals must be distributed through the domestic surface preferential network to the appropriate international surface exchange office. All other AO mail is distributed through the bulk mail system. The rules governing distribution of AO mail are contained in the POM. Exchange offices must maintain current copies of all operational directives, monitor compliance with these instructions, and in the event of error, advise post offices and mailers of the correct make-up and label usage (see 520).

These changes will be incorporated in future revisions to the POM and Handbook T-4.

—Mail Processing Dept., 1-17-85.

UNITED STATES AIR FORCE PENALTY MAIL

The U.S. Air Force has informed the Postal Service that it has ceased using the standard penalty indicia format shown below as a method of mailing.

POSTAGE AND FEES PAID
DEPARTMENT OF THE AIR FORCE
DOD-318

Since the Air Force will no longer pay for standard penalty indicia mail, post offices must refuse to accept mail using this format. Return to sender as unpaid any Air Force standard penalty indicia piece found in the mail.

Exceptions:

Until July 1, 1985, Air Force standard penalty indicia with proper endorsements is acceptable for mailing third-class bulk rate and authorized second-class publications which are prepared and presented with a Form 3602, *Statement of Mailing With Permit Imprints*, or 3541/3541A, *Statement of*

Mailing—Second-Class Pubs Except Requester Publications/Statement of Mailing—Second Class/Requester Publications. The standard penalty indicia is also acceptable for use in sending Express Mail with a completed Label 11 until further notice.

Effective immediately, the only acceptable forms of indicia for Air Force penalty mail, with the above exceptions, are postage meter stamps, permit imprint, postage stamps, embossed stamped envelopes and reply mail. Format and procedures for these acceptable methods are described in DOMESTIC MAIL MANUAL 137.273-137.276.

Post offices serving Air Force bases, recruiting stations and other activities must closely monitor both outgoing and incoming mail for these activities and refuse to accept or return to sender all Air Force penalty mail in the standard penalty format or which does not comply with the requirements for the acceptable methods listed above.

Advise Air Force personnel having questions on this matter to contact their Command Headquarters. Post office employees having questions or noting continued violations of the requirements should contact their mail classification center (MCC).—Dept. of the Controller, 1-17-85.

11-Cent Alden Partridge Regular Stamp

The 11-cent Alden Partridge regular stamp will be placed on sale February 12, 1985, in Northfield, VT. Alden Partridge, U.S. military educator, pioneered the advancement of a military-oriented education in civilian colleges and universities.

Do Not Sell Before February 13, 1985

Copyright U.S. Postal Service 1984

Issued in panes of 100.

Collector information is on page 21.

Supply. An automatic distribution will be made to post offices with authorized philatelic centers only. Those post offices should requisition additional stamps for their regular window transactions. All other post offices are encouraged to order sufficient quantities to meet philatelic demand.

Bulk Quantities. Post offices with 950 or more revenue units requiring 50,000 or more stamps should immediately submit Forms 3356, *Stamp Requisition-Bulk Quantities*, to the Bureau of Engraving and Printing, using *item No. 033*. Requisitions must be submitted in the standard ordering quantities for a 100-subject stamp to the maximum of 2.5 million stamps per requisition.

Less-Than-Bulk Quantities. All other post offices requiring these stamps should immediately requisition them on a separate Form 17, *Stamp Requisition*, from their designated Stamp Distribution Office.—Customer Services Dept., 1-17-85.

DMM Revisions

Official Mail

Special POSTAL BULLETIN 21475 (9-7-84), published a revision of DOMESTIC MAIL MANUAL (DMM) 137, Official Mail, in its entirety. Sections of 137 pertaining to post office operating procedures which have appeared in prior printings of the DMM were deleted in this revised printing and will be published in a Penalty Mail handbook within the next several months. Until the handbook is published and distributed, post offices must follow the procedures published in PB 21475, Section C, *Operating Procedures*, pages 24-31.

Note the following changes or additions to sections of the revised printing of Official Mail regulations in PB 21475.

1. Section C 8-4, *Meter Setting Records*, conflicts with Section C 2c. Section C 2c is correct. Delete the words "3610 and" from Section 8-4 (page 29). Only the Form 3612, *Quarterly Report of Official Mail Meter Settings*, should be forwarded to the regional Accounting and Revenue Protection Division.

2. Substitute the name *Official Mail Accounting Branch* where the name *Government Revenue and Examination Branch* appears. The name of the branch has been changed.

3. Section 137.252, *Agency Authorization Codes*, should be revised as indicated.

a. Change: Cooperative Extension Service—Agriculture Sampling Number to 105 instead of 101.

b. Add: National Institutes of Health—HHS, Sampling Number—396, Permit Imprint Number—291.

c. Add: National Technical Information Service—Commerce Permit Imprint Number—292.

These changes will be incorporated in a future revision to the DMM.

—Dept. of the Controller, 1-17-85.

Alden Partridge Regular Stamp

Alden Partridge, U.S. military educator and founder of Norwich University in Northfield, Vermont, is the subject of the latest stamp in the Great Americans Series. The 11-cent stamp will be issued in Northfield, Vermont, on February 12.

Often considered to be the *spiritual father* of the Reserve Officers' Training Corps, Partridge pioneered the advancement of a military-oriented education in civilian colleges and universities.

Upon graduation from West Point in 1806, Partridge remained there as an instructor for a decade and later served as acting superintendent for more than a year. In 1819, he founded the American Literary, Scientific and Military Academy, which became Norwich University in 1834.

Today, Norwich University, which was one of the first engineering-oriented schools in the United States, continues to offer a diverse curriculum intended to produce what Partridge referred to as *Citizen Soldiers*.

In addition to founding Norwich and at least seven other similar institutions, Partridge served as the surveyor general of Vermont and was elected to the state legislature for four terms. He died in Norwich, Vermont, in 1854.

Procedures for ordering first day cancellations are as follows:

Customers are urged to buy stamps and affix them to their own covers. Covers bearing customer-affixed stamps will be given preferential service.

Customers are reminded that additional postage must be affixed to envelopes to meet at least the minimum First-Class rate (20 cents for envelopes and 14 cents for post cards). Uncanceled stamps issued prior to February 12 may be affixed for this purpose. Orders containing envelopes to which stamps issued after February 12 are affixed will be returned unserviced.

All covers must be addressed on the right side at least $\frac{3}{8}$ of an inch up from the bottom. Insert a filler in each envelope and mail covers by March 14 to Customer-Affixed Envelopes, Postmaster, Northfield, VT 05663-9991, where they will be serviced. However, the first day of issue cancellation will read "Norwich Univ., VT 05663." No remittance is required.

The Postal Service will affix stamps when requested to do so. Mail orders by March 14 to Alden Partridge Stamp, Postmaster, Northfield, VT 05663-9992. The Postal Service will affix the nine-cent Freedom to Assemble stamp to meet the minimum First-Class mailing rate. The cost is 20 cents for each cover. Personal checks in the exact amount will be accepted for orders up to the limit of 50 covers. Do not send cash. Postage stamps are unacceptable as payment.

After local stocks of the item are depleted, they will be available from all Philatelic Centers and by mail order from the Philatelic Sales Division for approximately one year after the date of issue. A *Philatelic Catalog*, listing all available stamps and other philatelic items, is available here or from the Philatelic Sales Division, Washington, D.C. 20265-9997.

"D" Stamp and Embossed Envelope

The nondenominated "D" postage stamps in pane, booklet and coil formats, and the nondenominated "D" envelope will be placed on sale February 1, 1985, in Los Angeles, California. No first day of issue ceremony is planned.

The value of the stamp and envelope is 22 cents, which reflects the new First-Class postage rate effective February 17. The "D" postage items are intended for domestic use only.

Procedures for ordering first day covers are as follows:

Customers are urged to buy stamps and affix them to their own covers and/or purchase and send their own embossed envelopes. All covers must be addressed on the right side at least $\frac{5}{8}$ of an inch up from the bottom. Insert a filler in each envelope and mail them to Customer-Affixed Envelopes, Postmaster, Los Angeles, CA 90052-9991 by April 2. Because of the timing of the announcement and to encourage self-affixing of stamps by customers, this is an extension of 30 days beyond the usual deadline, a total of 60 days. No remittance is required. Uncanceled postage stamps issued *prior* to the date of issuance of the "D" items also may be affixed to covers. However, covers bearing stamps issued *after* February 1, will be returned unserved.

The Postal Service will affix stamps when requested to do so. Mail orders by April 2 to "D" Stamps, Postmaster, Los Angeles, CA 90052-9992. The cost is 22 cents for each stamp to be affixed to covers, and orders must clearly indicate whether pane stamps, coil stamps or full booklet panes (only full booklet panes of 10 stamps removed from booklets will be affixed) are desired. Personal checks in the exact amount will be accepted for orders up to the limit of 50 covers. Postage stamps and cash are unacceptable as payment.

Requests for envelopes should be addressed to "D" Envelopes, Postmaster, Los Angeles, CA 90052-9992, and must be postmarked by April 2. The cost is 27 cents per envelope (22 cents for postage and five cents for the envelope) and the remittance procedures described above should be followed. Both sizes of regular envelopes may be ordered, but the Number 6 $\frac{3}{4}$ envelope will be provided unless the Number 10 envelope is requested. Window envelopes will not be provided.

To eliminate the requirement for Postal Service personnel to apply return addresses and to expedite processing of orders, customers are requested to send gummed, self-addressed return labels with their orders.

After local stocks of the item are depleted, they will be available from all Philatelic Centers and by mail order from the Philatelic Sales Division for approximately one year after the date of issue.

"D" Stamp and Embossed Envelope

The Postal Service will allow stamps when re-
 quired to do so. Mail orders by April 2 in "D"
 Stamp Postmaster, Los Angeles, CA 90052-
 9902. The cost is 27 cents for each stamp to be
 affixed to covers, and orders must clearly indicate
 whether pane stamps, coil stamps or full booklet
 panes (only full booklet panes of 10 stamps re-
 manded from booklets will be allowed) are desired.
 Payment checks in the exact amount will be ac-
 cepted for orders up to the limit of 50 covers.
 Foreign stamps and cash are unacceptable as pay-
 ment.

Requests for envelopes should be addressed to
 "D" Envelopes, Postmaster, Los Angeles, CA
 90052-9902, and must be postmarked by April 2.
 The cost is 27 cents per envelope (27 cents for
 postage and five cents for the envelope) and the
 remaining procedures described above should be
 followed. Both sizes of regular envelopes may be
 ordered, but the Number 10 envelope is re-
 quired unless the Number 10 envelope is re-
 quired. Window envelopes will not be provided.
 To minimize the requirement for Postal Service
 accounts to apply return addresses and to expedite
 the processing of orders, customers are request-
 ed to send stamped, self-addressed return labels
 with their orders.

The non-denominated "D" postage stamps in
 pane, booklet and coil formats, and the non-deno-
 minated "D" envelope will be placed on sale Feb-
 ruary 1, 1982, in Los Angeles, California. No for-
 eign or non-denominated stamps are permitted.
 The value of the stamp and envelope is 27
 cents which reflects the new First-Class postage
 rate effective February 17. The "D" postage
 stamps are intended for domestic use only.
 Postmaster or retailer first day covers are ac-
 cepted.
 Customers are urged to buy stamps and affix
 them to their own covers and/or purchase and
 affix their own embossed envelopes. All covers
 must be addressed on the right side at least 2 1/2
 inches up from the bottom. Insert a letter in each
 envelope and mail them to Customer Service En-
 velopes, Postmaster, Los Angeles, CA 90052-
 9902 by April 2. Because of the timing of the
 announcement and to encourage self-affixing of
 stamps by customers, this is an extension of 30
 days beyond the usual deadline, a total of 60
 days. The requirement is required. Unaffixed panes
 of stamps issued prior to the date of issuance of
 the "D" stamps will not be affixed to covers.
 However, covers bearing stamps issued after Feb-
 ruary 1 will be returned unaffixed.

Nondenominated Charles Carroll Postal Card

Charles Carroll, patriot and signer of the Declaration of Independence, is the subject of the latest postal card in the Patriots Series. The card, which bears no denomination, will be issued in New Carrollton, Maryland, on February 1. The value of the card is 14 cents, corresponding to the new post card rate effective February 17. The nondenominated card will be succeeded by another Charles Carroll card bearing the 14-cent denomination.

Before and after the American Revolution, Charles Carroll was a patriot leader. From 1776 to 1779, he served in the Continental Congress, rendering important services as a member of the Board of War and signing the Declaration of Independence. In 1776, with his cousin, the Reverend John Carroll, and with Samuel Chase and Benjamin Franklin, he was sent by the Continental Congress to Canada in an effort to persuade the Canadians to join the cause of the 13 colonies. From 1777 to 1800, he was a member of the Maryland senate, and from 1789 to 1792, he served as a member of the U.S. Senate.

Carroll exercised powerful influence and used it to secure the independence of the colonies and to establish a stable central government. He died in 1832, outliving all other signers of the Declaration of Independence.

Procedures for ordering first day cancellations are as follows:

Customers are urged to purchase postal cards at local post offices and mail their orders no later than April 2 to Customer-Provided Stationery, Postmaster, New Carrollton, MD 20784-9991. Because of the timing of the announcement, this is an extension of 30 days beyond the usual deadline, a total of 60 days. All postal cards must be addressed on the right side at least ⅝ of an inch up from the bottom, and peelable return address labels are recommended for this purpose. No remittance is required.

The Postal Service will provide cards when requested to do so. Mail orders by April 2 to Charles Carroll Postal Card, Postmaster, New Carrollton, MD 20784-9992. The cost is 14 cents per postal card. Personal checks in the exact amount will be accepted as payment for orders up to the limit of 50 covers. Please do not send cash. Postage stamps are unacceptable as payment.

To eliminate the requirement for Postal Service personnel to apply return addresses and to expedite processing of orders, customers are requested to send gummed, self-addressed return address labels with their orders.

After local stocks of the item are depleted, they will be available from all Philatelic Centers and by mail order from the Philatelic Sales Division for approximately one year after the date of issue. A *Philatelic Catalog*, listing all available stamps and other philatelic items, is available here or from the Philatelic Sales Division, Washington, D.C. 20265-9997.

INVALID EXPRESS MAIL CORPORATE ACCOUNT NUMBERS

To be posted and used by retail/acceptance clerks. This supersedes all previous notices. Destroy PB 21494 listing. Retail/acceptance clerks must not accept Express Mail shipments bearing any of the invalid numbers (listed below) in the "customer number" or "agreement number" section of the label or form.

Note: The first 6-digits of a 9-digit Custom Designed Service and Next Day Pickup Service Agreement make up the Corporate Account Number.
