Rural Carrier Examinations

In accordance with Article 12 of the 1985 National Agreement between the National Rural Letter Carriers' Association and the U.S. Postal Service, residual full-time rural carrier vacancies are to be filled by the selection of eligibles from a hiring register established as the result of an open competitive rural carrier examination. MSC managers and postmasters are responsible for maintaining adequate registers of eligibles to fill vacancies within their installations. Therefore, installation heads should determine the number of anticipated vacancies and the number of existing vacancies and ensure that registers are or have been established to meet hiring needs. If there is a need to open the examination, announcements should also be posted on official employee bulletin boards to inform all employees, including Rural Carrier Relief employees, of the opportunity to submit applications during the open announcement period.

In order to reduce costs and provide greater employment opportunities for the eligibles, the Area Eligibility Register (AER) concept should be used to the maximum extent feasible. The announcement should be appropriately published in each community covered by the AER.

Note.—Noncompetitive and/or inservice rural carrier examinations cannot be administered to fill full-time carrier vacancies. Residual full-time rural carrier vacancies can only be filled by the selection of eligibles from the appropriate hiring register.—*Employee Relations Dept., 7-18-85.*

CONTENTS

M-38 Revision

Providing Rural Route Relief

New provisions for providing relief to a rural route are listed below. This change to section 823 of Handbook M-38, *Management of Rural Delivery Services*, was effective June 17. The amended section of the M-38 reads as follows:

823 Providing Relief

823.1 General

.11 When providing relief to one or more routes in an office, all rural routes in that unit should not be adjusted simultaneously unless it is in the best interest of the unit operation to do so.

.12 When considering rural route relief in a delivery unit, elimination of relief days for rural routes in the unit should be considered only if obtaining relief carriers is causing operational problems for that unit.

.13 Generally, it is desirable to adjust evaluated routes to as near 48 standard hours per week as practicable, i.e., the route should be adjusted to the 44J/40K option category. However, in some cases this may be impractical. There is no prohibition against reducing a route below 48 hours per week when it is operationally advantageous. However, documentation must be supplied with the route adjustment documentation as to why it is not practical to adjust the route to 48 hours.

There is no change to sections 823.14 to 823.18

This change will be incorporated in future revisions to Handbook M-38.

Management Organization Dues Withholdings and Revocations

It has been brought to Headquarters attention that in many instances when a postmaster or supervisor wishes to either enroll or revoke the dues for one of the management organizations, the action is being taken against the wrong management organization.

The primary reason for this occurring is that the employee does not include the proper alpha code of the organization involved on the SF 1187 *Request for Payroll Deductions for Labor Organization Dues* or the SF 1188 *Cancellation for Payroll Deductions for Labor Organization Dues.*

Any employee who wishes either dues withholdings or revocations for one of the supervisory and managerial organizations must indicate on the appropriate form the alpha code for that organization. The proper codes for the management organizations as found in section 913.3 of the EMPLOYEE AND LABOR RELATIONS MANUAL are as follows:

Supervisory and Managerial Organizations	Alpha Code
National League of Postmasters of the United States..	N
National Association of Postmasters of the United States.	P
National Association of Postal Supervisors	S

                   —Employee & Labor Relations Group, 7-18-85.

Safety Alert—Desk Light

The General Services Administration (GSA) advised that desk lights NSN 6230-00-299-7771 and NSN 6230-00-682-3423, manufactured by Art Specialty, Inc., under Contract Nos. GS-07F-11572 and GS-07F-11982 were not properly grounded.

The Art Specialty lights are identified by the brand name *Flexo* on the base of the lights and the name *Art Specialty* underneath.

The lights in question should be removed from service immediately. Report the quantities on hand via Standard Form 368, *Quality Deficiency Report*, to Ms. Flora Williams, GSA-FSS, Contracts Management Division (5FQC), 230 South Dearborn Street, Room 3476, Chicago, Illinois 60604-1602. Ms. Williams will provide repair/replacement instructions directly to the reporting installation.

Please ensure that the Standard Form 368 clearly states the address and telephone number of the reporting facility and is submitted before August 15, 1985.

NEW INTERNATIONAL MONEY ORDER SERVICE—JAPAN

Effective August 1, 1985, the United States and Japan will introduce new procedures for the exchange of postal money orders. These new procedures will provide purchasers of money orders greater control over the transfer of funds. The money order and receipt will be given to the purchaser who will send the money order to the payee in Japan. The procedures outlined below apply only to postal money order service with Japan. Procedures for handling money orders with other countries are not affected.

The United States will use a new pink international money order form (MP1) which will be sold directly to the purchaser. The form set is similar to the domestic money order (see Exhibit A) and will be prepared on the money order imprinter and tendered to the purchaser. International postal money orders issued in Japan for payment in the United States will be on a pink card (MP1) form (see Exhibit B). Exhibit C is an English translation of the MP1 money order issued by Japan.

Notification of Cashing Institutions: Post offices are to notify financial institutions which cash postal money orders in their service area that the MP1 money orders issued by Japan are negotiable. Postal employees must assist customers and financial institutions if cashing problems arise. USPS Headquarters will advise the Federal Reserve Banking system and banking associations that these new MP1 money orders are negotiable.

Issuance of the MP1 Money Order for payment in Japan: The international money order form set is similar to the domestic money order. The set consists of the customer receipt, the money order, and the voucher. The issuing clerk must follow the issuance procedures in DOMESTIC MAIL MANUAL (DMM) 941.13. The voucher is retained by the clerk for end-of-the-day reporting. Accounting for these money orders is the same as for domestic orders except entries for amounts and fees are to AIC 102 and 103, respectively. Voucher copies will be submitted to the Money Order Division as separate groups in the same envelope, package, or box as domestic vouchers. Destroy spoiled forms (Reference national TWX regarding weekly voucher shipments and accounting of spoiled money order forms).

Fees:

Amount of Money Order	Fee
$0.01 to 700.00	$2.00

Spoiled Or Incorrectly Prepared Money Order: Follow the procedures in DMM 941.15.

Money Orders Lost, Damaged, Or Improperly Endorsed: Inquiries or requests for replacement are filed using Form 6401, *Domestic Money Order Inquiry* in accordance with section DMM 941.4, except that replacements will not be made until 5 months after the expiration date of the money order.

Cashing Money Orders Issued in Japan: Money orders issued by Japan on their form MP1 (pink card) are cashed in accordance with INTERNATIONAL MAIL MANUAL (IMM) 493.5 and DMM 941.3. Money orders must not be paid after the expiration of the validity date indicated on the money order. The amount to be paid is shown in U.S. dollars in two places. These amounts must agree and cannot have been altered (see Exhibit B).

Inquiries Regarding Payment: Process on Form 6401 in accordance with 941.4, DMM.

Initial Distribution of Forms: The area supply centers (ASCs) will make a single shipment of a two-year supply of the pink international money order (MP1) form sets to each stamp distribution office (SDO). A minimum shipment of 500 pink international money order (MP1) form sets will be shipped to each SDO. The ASCs will complete Form 6070, *Summary Shipping List of Money Order Forms* for all shipments of the pink international money order (MP1) form sets. The ASC will mail a copy of Form 6070 to the Money Order Division, Postal Data Center and retain the original.

The Money Order Division has already provided the SDOs with a computer listing which prescribes the distribution for the form sets of the *Authorization to Issue an International Money Order.* SDOs will use that computer listing to determine the quantity of pink international money orders (MP1) to send to each authorized post office. The SDOs will ship a one-year supply of the pink international money order (MP1) to only those post offices on the computer list. The SDO will write the shipment date beside the quantity given to the post office on the computer list to verify that a shipment was sent. Post offices will supply their stations and branches a minimum of five pink international money order (MP1) form sets from their main stock.

SDOs cannot use the Accountable Paper Inventory Program (AINV) to control the distribution of the pink international money order (MP1) form sets because AINV is based upon shipments of not less than one package of 100 money orders. Instead, SDOs will complete form 6990, *Invoice—Money Order Forms* in triplicate, listing the first and last serial numbers of the pink international forms shipped. SDOs will write the associate post office finance number on the line for a station or branch. For shipments within the SDO post office, write the name of the station or branch in addition to the SDO finance number. SDOs must send the original Form 6990 to the accountbook unit. Send one copy with the shipment and file one copy. Do not send a copy of Form 6990 to the Money Order Division.

Junipero Serra Airmail Stamp

A 44-Cent airmail stamp honoring Junipero Serra, a Spanish missionary in America, will be issued in San Diego, California, on August 22. The stamp will be available at post offices nationwide the following day. The dedication ceremony will be held at the San Diego Convention Center during STAMPSHOW 85, the 99th annual meeting of the American Philatelic Society.

The 44-Cent denomination represents the airmail letter rate to any destination except Canada, Mexico and some areas of Central and South America, the Caribbean and the Pacific.

Junipero Serra was born on the Spanish island of Mallorca in 1713. In 1750, he traveled to Mexico with a group of Franciscan friars and worked nine years among the Indians of the Sierra Gorda. He later accompanied a Spanish military party to the present site of San Diego and founded a mission there in 1769. Under his leadership, eight more missions were founded during the next 15 years, forming a base for the successful settlement of California. A total of 21 missions were eventually established. Serra died at his headquarters, Mission San Carlos Borromeo, on August 28, 1784.

The stamp, designed by Richard Schlect, features a portrait of Serra centered between an outline of the Southern California coast and Baja Peninsula on the left and the facade of Mission San Gabriel on the right.
