Audio Cassette Mailer

POSTAL BULLETIN 21638, 9-24-87, introduced the Audio Cassette Mailer, an addition to the Postal Service's retail line of packaging for mailing products. Designed to secure safely an audio cassette tape for mailing, this container is accompanied by a plastic sleeve that provides additional protection for an audio cassette tape. All retail sales employees should know that the mailing container cannot accommodate plastic cases or other containers now provided by manufacturers of audio cassette tapes.—*Office of Consumer Affairs, 12-3-87.*

Payroll Related Forms

The following information supplements information about mailing payroll-related documents to the Minneapolis Postal Data Center for processing in POSTAL BULLETIN (PB), 21601, 1-8-87, "Consolidation of Payroll Processing Functions" (page 13).

The following documents should go directly to:

Manager, Payroll Control Branch
FORM _____ ENCLOSED
Minneapolis Postal Data Center
Twin Cities AMF, MN 55111-9610

1. SF 1153, *Claim for Unpaid Compensation of Deceased Civilian Employee*
2. PS Form 1727, *Award Recommendation/Authorization*
3. PS Form 3074, *Request for Waiver of Claim for Erroneous Payment of Pay*

To speed processing, mailers should endorse the outside of the mailing envelope to indicate the contents (e.g., "PS Form 1727 Enclosed").

1988 Social Security Withholding

The Social Security Administration has announced the following changes in the withholding and the taxable gross wages for 1988:

Taxable Gross Wages for OASDI/Medicare ...	\$45,000
OASDI Contribution Rate.....	6.06%
Maximum OASDI Contributions	\$2,727
Medicare Contribution Rate.....	1.45%
Maximum Medicare Contributions	\$652.50
Maximum OASDI/Medicare Contributions.....	\$3,379.50

Both Medicare and old age, survivors and disability insurance (OASDI) are paid on total wages received. All employees must pay Medicare. In addition, noncareer employees, FERS employees, and Offset (CSRS/FICA) employees must pay the OASDI.

The OASDI contribution rate for 1988 is larger than the 1987 rate. As a result of this increased rate, career employees under FERS or Offset will see a corresponding decrease in their contribution rate to either FERS basic or CSRS. The rate for 1988 and 1989 is 0.94 percent (1.44 percent for postal inspectors), a decrease from the 1.3 percent (1.8 percent for postal inspectors) rate effective in 1987.—*Employee Relations Dept., 12-3-87.*

1987 INTERNAL REVENUE SERVICE TAX PACKAGE

Contractors for the Internal Revenue Service (IRS) began mailing its 1987 tax package in late November. Installations should accept these mailings, which will bear IRS permit imprint No. G-48, if they are prepared correctly for third-class bulk rates (carrier route, five-digit, and basic). Do not deliver the tax packages before December 26, 1987.

Accepting Offices

The IRS contractors will prepare the tax packages for mailing at the third-class carrier route presort rates and must meet the mailing requirements contained in the DOMESTIC MAIL MANUAL (DMM). Offices must verify that the tax package mailings are made up according to current presort regulations at the time of mailing. They must verify weight unless a rates and classification center (RCC) authorizes an optional procedure. This verification will ensure that the piece counts claimed on the mailing statements are accurate and that correct postage is paid.

Bulk Mail Centers

Transfer Pallets. The bulk mail centers (BMC's) will receive pallets labeled to five-digit, three-digit, SCF, and BMC destinations. Dispatch the three-digit, five-digit, and SCF pallets intact to the destination facilities.

Pallet Distribution

Break open the pallets labeled to BMC destinations and distribute cartons as nonmachinable out-sides. The designation on the cartons will resemble a sack label. For example:

Washington DC 20006
3C FLATS CR 18
Florence KY

Dispatch the cartons, packages, and bundles of tax packages to the destination facilities for storage until the scheduled release dates. Return empty Postal Service pallets in accordance with Handbook PO-502, *Container Methods*, section 265.

Delivery

Offices should complete delivery on or after December 26, 1987, as soon as possible. Under no circumstances should postmasters, supervisors, or postal employees deliver, or permit delivery, of any tax packages before December 26, 1987, with the following exception:

Treat packages that bear the endorsement, "Postmaster Deliver Immediately," as Bulk Business Mail and deliver them without regard to the December 26 limitation.

Pay particular attention to errors in makeup at the point of delivery. When carrier route presort

errors exceed the 5 percent allowance, use established reporting procedures to report it to the following address:

Official & International Mail Accounting
Division
Attention: IRS Forms Tax Package 1987
Room 8621, USPS Headquarters
Washington, DC 20260-5230

Report other irregularities noted at the time of delivery to the Official Mail Accounting Branch on Form 3749, *Irregularities in the Preparation of Mail Matter*, or by memorandum.

Forwarding and Return

Form 3575 on File. Packages marked Form 1040 and 1040A will again be endorsed "Forwarding and Return Postage Guaranteed." Treat tax packages that are undeliverable-as-addressed (UAA) and endorsed "Forwarding and Return Postage Guaranteed" as specified in DMM 159.151 and Exhibit 159.151d.

No Form 3575 on File. When a tax package Form 1040 or 1040A, endorsed "Forwarding and Return Postage Guaranteed," is UAA and no Form 3575 is on file, return the tax package to the IRS in its entirety, along with the reason for the nondelivery. Do not treat any of these tax packages as waste under any circumstances. Return undeliverable tax packages, as shown in the return address, to one of the following addresses:

Internal Revenue Service
Post Office Box 6940
Florence, KY 41042-6940

or

Internal Revenue Service
Post Office Box 6950
Florence, KY 41042-6950

Note: Tax packages, other than those marked Form 1040 and 1040A, will *not* be endorsed "Forwarding and Return Postage Guaranteed" and should *not* be provided forwarding or return service.

Return Postage Charges

In accordance with DMM 159.152, do not collect postage for tax packages returned to the IRS because the Official & International Mail Accounting Division at USPS Headquarters will collect return postage on a national basis. Do not try to collect a fee from either the IRS or a postal customer.

Distribution and Delivery Work Hours

The Postal Service is committed to delivering the tax package as early as possible on or after December 26, 1987. However, offices must accomplish distribution and delivery without using overtime hours or auxiliary assistance.

DMM Revision

SECOND-, THIRD-, and FOURTH-CLASS PALLET REGULATIONS

Effective with DOMESTIC MAIL MANUAL (DMM) Issue 25, 12-20-87, sections 467, 667, and 767, which govern second-, third-, and fourth-class mail preparation, will be revised to reflect national implementation of new procedures to obtain authorization to palletize and, where appropriate, to make the regulations consistent from class to class.

Two major changes affect mail preparation:

1. an increase in the maximum weight for a fourth-class package or bundle from 20 pounds to 40 pounds; and,
2. the specification of strict criteria for the placement and print size of extraneous information on pallet labels.

Summary of Other Changes

1. New Form. The application procedures in DMM 467.21, 467.31, 667.61, 667.71, 667.81, 767.51, and 767.61 now reflect adoption of a new standardized national form, *Application for Authorization to Palletize*, which replaces the different applications currently in use in each region.

2. TMSC Role. When a mailer's application to palletize is approved, the appropriate Rates and Classification Center (RCC) will notify the Transportation Management Service Center (TMSC) serving the mailer's plant. The TMSC then will work with the division and the mailer to determine transportation and equipment needs associated with the authorization and to select the effective date for authorization, based on Postal Service ability to meet those needs.

3. Greatest Benefit Notes. Certain third-class and fourth-class bound printed matter pieces can meet the requirements for more than one processing category, particularly for flat-size and machineable parcels. The relevant DMM sections now include notes to ensure that mailers prepare their mail in the manner that most benefits the Postal Service.

4. Labeling Requirements. (a) Sections 467.243d, 467.343d, 667.643d, and 667.743d are amended and a new section 767.533d is added to specify the additional labeling requirements for five-digit pallets that contain only carrier route packages, bundles, or sacks. Such pallets must bear the words "CARRIER ROUTES" on the contents line after the description of the contents.

(b) DMM 767.523a, which required fourth-class bundles (packages) placed on Bulk Mail Center (BMC) pallets to be labeled with a facing slip or optional endorsement line, has been deleted. Such

packages and bundles now must be labeled with a pressure-sensitive label or optional endorsement line.

5. Physical Characteristics. These sections are amended to require double-stacking of top-capped pallets weighing less than 1,000 pounds. The gross weight of double-stacked pallets must not exceed 2,000 pounds.

6. Terminology. Second-, third-, and fourth-class pallet regulations now reflect correct and consistent use of the terms package and bundle. A package is properly defined as a group of pieces secured together as one unit, while a bundle is two or more packages secured together as one unit. Previously, fourth-class pallet regulations used bundle to describe what was actually a package. All references to bundles in DMM 767.5 have been changed to packages.

7. Provision of Pallets. The requirement that mailers provide their own pallets for those pallets in a mailing (within the allowable 10 percent) that contain less than the minimum weight (currently 650 pounds) has been deleted from the regulations governing all classes of palletized mail. The Postal Service will provide all pallets for a palletized mailing.

8. Package-to-Sack Ratios. The package-to-sack ratios, used to determine whether pallets may be prepared instead of sacks, have been deleted from the regulations. Mailers must continue to meet the packaging requirements for palletization, including minimum and maximum package size restrictions.

9. Authorization Review. Sections stating that the Postal Service will grant an initial authorization to palletize for 2 years and then review it every 2 years before extending authorization, have been included in all second-, third-, and fourth-class regulations pertaining to palletization. These sections also state that the Postal Service may cancel an authorization if the mailer does not comply with applicable regulations.

Note: An authorization to commingle third-class mixed level rate mailings will still expire 1 year from the date of authorization.

Offices will receive DMM Issue 25 prior to its effective date of December 20, 1987. Postmasters, managers of commercial accounts and mailing requirements, and acceptance unit and detached mail unit (DMU) employees must fully understand the new regulations and must advise customers currently authorized to palletize of the new requirements.—*Rates & Classification Dept., 12-3-87.*

All Managers/Supervisors Computer Logon ID's

A manager or supervisor of employees with computer logon ID's must ensure that they follow security procedures. The manager or supervisor must report to the affected Computer Systems Security Officer (CSSO) or system administrator any promotion, transfer, suspension, termination, or resignation of such employees that causes reassignment, deletion, or suspension of employees' computer logon ID's.

The manager or supervisor supporting the requested action must approve and submit Form 1357, *Request For Computer Logon ID* (August 1987), and check change or delete. (See Handbook AS-805, *ADP Security*, and Management Instruction AS-870-87-9, *Request for Computer Logon ID*.)

Correction

Postal Quarter I Philatelic Product Reports

The PS Form 1079, *Philatelic Product Physical Inventory Recap*, printed in the POSTAL BULLETIN 21646, 11-19-87, was incorrect and is now obsolete. Use the December 1987 edition that appears in this Bulletin on page 13 to prepare all Postal Quarter I, Fiscal Year 1988 philatelic inventory reports.

By December 28, all associate offices must forward the completed *Philatelic Product Physical Inventory Recap*, in this *Bulletin*, to their Management Sectional Center (MSC) or division office. They will use the forms to prepare a consolidated report using Form 1079-C, *Philatelic Product Physical Inventory and Sales Reporting*, which the New York Postal Data Center (PDC) will send them the week of December 10.

All MSC's and divisions must forward their consolidated Form 1079-C on or before Tuesday, January 5, 1987, to the New York PDC at the following address:

New York Postal Data Center
1250 Broadway
New York, New York 10099-9120

It is imperative that all associate offices and MSC's complete, verify, and forward their reports according to schedule because the final Quarter I report will not include delinquent figures.
