postal bulletin

APR 19 1991

Published Since March 4, 1880

PB 21785—March 21, 1991—64 Pages

Reminder: All IRT Sites

Reset IRT Clocks for Daylight Saving Time

The change from standard time to daylight saving time is effective at 2 a.m. on Sunday, April 7, in most parts of the country. All facilities using integrated retail terminals (IRTs) must reset the clock on each IRT forward 1 hour before opening for business on Monday, April 8. It is essential that the clock show the correct time because the system uses the clock time on customer receipts and in verifying Express Mail cutoff times.

Facilities with Unisys IRTs must use menu item #11 (Phase 3) or #12 (Phase 2), Set System Date and Time, from the Control Menu on the Supervisor Disk. Units with MOS IRTs must use menu item #5, Change Fees and Tables, from the main Menu on the Control Disk, then item #5, Set Unit Date and Time, from the Change Fees and Tables Menu.

—Delivery, Distribution, and Transportation Dept., 3-21-91

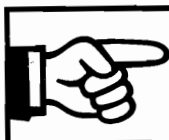

Obsolete CFS-I Items of Supply

The new CFS-II has been fully deployed, replacing the CFS-I. Because of this deployment, certain items of supply used in support of CFS-I are obsolete. These items, listed below, will be issued at no cost on a first-come, first-served basis from the Somerville and Topeka Materiel Distribution Centers (MDCs) until Accounting Period (AP) 9, when they will no longer be available.

Employees must not return surplus quantities of these items to the MDCs but should redistribute them within the division or region or dispose of them in accordance with Handbook AS-701, *Materiel Management*. Do not contact the National Inventory Control Center (NICC) or the MDCs about returning these items because they are not authorized for return.

PSN Number	Item Description
07510	CFS-I Labels
07516	Ribbon, Cassette, CFS

Place orders for these directly with the MDC until AP 9.—Procurement and Supply Dept., 3-21-91

1990 Annual Index in
PB 21784, 3-7-91

DEPOSITORY Labels for Defective Sacks and Pouches

To enhance recognition of contents, the Topeka Label Printing Center now provides new labels for defective sacks and pouches. These new labels are similar in format and content to the current gray labels, but Pantone #805U (fluorescent red) in color.

Although the center will no longer produce the gray labels, installations may use current stock until it is exhausted.

Delivery Sequence Information: Walk-Sequence Rates

Special Postal Bulletin 21781A (1-24-91) contained the new domestic rates and fees that became effective on February 3, 1991. *Domestic Mail Manual* (DMM) 424.772, 424.773, 624.872, and 624.873 require that second- and third-class mailings entered at walk-sequence rates must be based on delivery sequence information updated not more than 6 months before the date of mailing using the address sequencing service in DMM 946 or a Computerized Delivery Sequence (CDS) file product.

In order to allow the Postal Service and its customers sufficient time to make the transition, the 6-month requirement noted in these sections will not take effect until September 15, 1991, for mailings produced from address lists that have been sequenced under 946 or using CDS not more than 1 year before the date of mailing. This transition will allow current walk-sequence mailers time to submit their address lists for resequencing to meet the 6-month requirement effective September 15, 1991.

It is imperative that post offices providing address sequencing service return sequenced address cards within 15 workdays after receipt of a properly prepared request for address sequencing as noted in DMM 946.3.

Performance Evaluation Program

The EAS Performance Evaluation System is designed to provide a structured method for communication of expectations between managers or supervisors and the Executive and Administrative Schedule (EAS) employees for whom they are responsible.

While two-way communication between managers and EAS employees should be an on-going process, formal mid-year performance reviews are a required step to facilitate this communication.

The mid-year review must include a discussion of performance during the previous 6-month period (no adjective rating is to be given at this discussion) and a discussion of expectations for the next 6-month period. The mid-year performance discussion is best if it reviews each factor or objective established at the beginning of the evaluation period. Employees should be prepared to discuss their performance against the established factors or objectives and other work they are doing in addition to (or instead of) the established factors and/or objectives.

Managers and supervisors desiring further information concerning their role as evaluators in this program should contact their Postal Employee Development Center (PEDC) to arrange for viewing training course number 11576-02, EAS Performance Evaluation, Part II.

Correction

29-Cent U.S. Savings Bond Commemorative Stamp

The article 29-Cent U.S. Savings Bond Commemorative Stamp in *Postal Bulletin* 21784, 3-7-91 (page 3), incorrectly identified the stamp's denomination in the first paragraph. The U.S. Savings Bond Commemorative stamp is a 29-cent stamp.

—*Philatelic and Retail Services, 3-21-91*

\$5.80 WOOD DUCK STAMP BOOKLET

The \$5.80 Wood Duck stamp booklet goes on sale April 12 in Columbus, Ohio. This 20-stamp booklet of 29-cent stamps is being printed by two stamp printers: the Bureau of Engraving and Printing (BEP) and KCS Industries, Inc. (KCS). The BEP's booklet features a two-color cover (red and black) and the stamp's lettering, Wood Duck, and its denomination, 29 USA, is printed in black. KCS's booklet features a four-color cover (red, magenta, cyan, and black) and the stamp's lettering, Wood Duck, and its denomination, 29 USA, is printed in black. KCS's booklet will have a letter K on its inside back cover, further distinguishing it from BEP's booklet.

Do Not Place on Sale Before April 13, 1991

Copyright U.S. Postal Service 1991

Issued in two panes of 10 stamps each.
A future issue will include collector information.

Supply—BEP Version. Only those post offices with authorized philatelic centers will receive automatic distributions of **Item 6643**. CAG A-G post offices requiring this booklet in bulk quantities should immediately submit Forms 3356, *Stamp Requisition—Bulk Quantities*, to the BEP. They must submit requisitions in the standard ordering quantity: 1,500 booklets, 3,000 booklets, 4,500 booklets, and multiples 4,500 to the maximum of 270,000 booklets. (Note that the maximum quantity per requisition has been revised.)

Less-Than-Bulk Quantities. All other post offices requiring this booklet should immediately requisition it from their stamp distribution offices on separate Forms 17-A.

Unfilled requisitions currently at the BEP for **Item 6606**, Nondenominated Flower booklet, will be filled with the \$5.80 Wood Duck booklet. The \$5.80 Wood Duck booklet printed by the BEP will be packaged in cardboard trays of 300 booklets.

Supply—KCS. Only those post offices with authorized philatelic centers will receive automatic distributions of **Item 6600**. Stamp distribution of-

fices (SDOs) must immediately submit *separate Forms 17-A with a maximum quantity of 90,000 booklets per requisition* to their regional accountable paper depositories (RAPDs). *KCS will ship the booklets to the RAPDs as fast as production permits.* All other post offices requiring this booklet must immediately submit *separate Forms 17-A with a maximum quantity of 9,000 booklets per requisition to their SDOs.* The \$5.80 Wood Duck booklets printed by KCS will be packaged in transparent plastic cubes. Each cube contains 25 booklets and 12 cubes constitute a full tray of 300 booklets.

Note: Post offices reporting booklet irregularities must use the format on page 4. Booklet irregularities not submitted in this format will be returned to post offices. For those booklets packaged in plastic cubes, *clerks and associate postmasters must verify upon receipt, or before removing the plastic seal, that each cube contains 25 booklets.* Return all sealed cubes containing too many or too few booklets through regular channels to the main stock for replacement. Custodians of the main stock must hold the stock and report discrepancies to the Manager, Stamp Distribution Branch, in the format below. *No adjustments will be made if the plastic cube seal is broken.*

For those booklets packaged in cardboard trays, verification requires opening the packages, except when a unit of 25 or more booklets is missing. Employees must keep intact those cardboard trays with missing units of 25 or more booklets and process them in the same manner as the plastic cubes. They should report cardboard trays with fewer than 25 missing booklets to the main stock with the information on page 4. The custodian of the main stock should submit a consolidated listing using the format on page 4.

—*Philatelic and Retail Services Dept., 3-21-91*

UNIFORM ALLOWANCE FOR MEDICAL PERSONNEL

Effective December 20, 1990, the annual uniform allowance for medical personnel changes as follows:

Nonbargaining Unit Employees

1. An annual uniform allowance of \$235 is established for head nurses, technicians, and therapists.
2. Medical officers will receive an annual allowance for doctor's white coats. The allowance is:
 - Full-time—\$150.
 - Part-time—\$120.

Bargaining Unit Employees. Nurses in the District of Columbia Nurses' Association (DCNA) bargaining unit will receive an annual allowance of \$235 in accordance with Article 26 of the 1990 USPS-DCNA Agreement. Part-time employees are not entitled to receive a uniform reimbursement if they have not worked 1,560 hours in the 12-month period immediately preceding their employment anniversary date as a registered nurse with the U.S. Postal Service.—*Labor Relations Dept., 3-21-91*

Itemize each stamp irregularity. Report Bureau of Engraving and Printing and private contractor irregularities (shortages, overages, and defects) on a separate form. Use a separate line for each tray, cube, or carton affected.

Item No.	Description and value	*Tray packing code no.	Check (✓) description of irregularity—			State quantity of irregularity from each tray/cube
			Shortage	Overage	Defect with description	

* If there are no markings indicate N/A.
 A future *Postal Bulletin* will revise this memo to incorporate sheets and coils.

29-CENT DENOMINATED FLOWER STAMP

The 29-cent Denominated Flower stamp in panes and booklet form goes on sale April 5 in Rochester, New York. The denominated stamp design features a large red tulip on a yellow background with 29 USA in black lettering in the upper left corner. The booklet sells for \$5.80, which contains two panes of 10 stamps each.

Do Not Place on Sale Before April 6, 1991
Copyright U.S. Postal Service 1991

Issued in panes of 100 and booklet of 20 stamps.
 A future issue will include collector information.

Private contractors printed the 29-cent Flower stamp in both formats: the pane of 100 stamps by the U.S. Bank Note Co. and the booklet of 20 stamps by KCS Industries, Inc.

Supply—Panels of 100. Post offices that receive commemorative automatic distributions from the Bureau of Engraving and Printing will receive two automatic shipments from the U.S. Bank Note Co. For the first shipment, those post offices will receive three times their standard automatic distributions based on a 50-subject commemorative with quantities rounded up to the nearest packaging increments for a 100-subject stamp. For the second shipment, post offices will receive two times their standard automatic distributions. The second shipment begins on April 30, 1991. Post offices with authorized philatelic centers will receive automatic distributions. The stamp distribution offices

(SDOs) will not make automatic distributions to their associate offices.

Since the U.S. Bank Note Co. printed this stamp, the Bureau of Engraving and Printing will not honor supplemental requisitions for Item 5534. All other post offices should order sufficient quantities to meet regular window transactions and philatelic demand.

SDOs requiring additional stamps may order them from their regional accountable paper depositories (RAPDs) using separate Forms 17-A, *Accountable Items Requisition From Stamp Distribution Office*. They should submit requisitions in the standard ordering quantities for a 100-subject stamp. All other post offices requiring additional stamps should immediately requisition them from their SDOs on separate Forms 17-A.

Supply—Booklet of 20 Stamps. Post offices with authorized philatelic centers will receive automatic distributions. *Since KCS Industries, Inc., printed this booklet, the Bureau of Engraving and Printing will not honor supplemental requisitions for Item 6641.* SDOs must immediately submit separate Forms 17-A to their RAPDs and KCS will ship the booklets to the RAPDs on a weekly basis. Shipments will be made as fast as production permits. All other post offices requiring this booklet must immediately submit separate Forms 17-A to their SDOs.

Except for meeting philatelic demand, postmasters should deplete their inventory of the 29-cent nondenominated Flower stamp booklets and panes before selling these new items.—Philatelic and Retail Services Dept., 3-21-91

IPA/ISAL Billing

Effective April 6, 1991, the Postal Service will initiate an experimental billing program for International Priority Airmail (IPA) and International Surface Air Lift (ISAL). This program will last at least 6 months and allow mailers using these services to be billed for postage, instead of having funds withdrawn from their advance deposit accounts.

Mailers wishing to participate in this program must submit an application on Form 8122, *International Customer Billing Program Customer Application Form*, and will be subject to a credit check. Only mailers meeting Postal Service credit standards will be authorized to participate in this program. Mailers rejected for credit will have an opportunity to provide additional references to Dun and Bradstreet. If rejected, they would have the opportunity to raise their credit level to their average monthly mailings with the posting of a bond payable to the United States Postal Service.

All field divisions and management sectional centers are receiving information packages, including application forms. Customers interested in this program should contact the local postmaster or Marketing Department for information.

—Marketing and Customer Service Group, 3-21-91

Hold Mail

The Customer Satisfaction Index has shown that some USPS customers are having a problem with their hold mail requests.

When customers are going to be out of town or, for some other reason, do not want their mail delivered to their mailboxes for a short period of time, they may request their post offices to hold their mail. *Domestic Mail Manual* 153.19 and 153.145 discuss holding mail.

The problems that some customers have are:

1. The post office will not accept their requests to hold mail.
2. The post office delivers mail during the requested hold period.
3. Customers only receive part of their hold mail after the hold mail period.

The carrier or substitute carrier must not deliver any of the customer's mail during the requested hold mail period. Moreover, employees must be sure to give customers all of the accumulation of hold mail when it is picked up or delivery is restarted.

USPS customers depend on the Postal Service to provide the services they requested. The Postal Service disappoints them when their expectations are not met.—Consumer Affairs, 3-21-91

DMM Notice

LABELING LISTS FOR AUTOMATED SITE MAILINGS

Effective with *Domestic Mail Manual* (DMM) Issue 39 (6-16-91), Exhibit 122.63o, Automated Area Distribution Center (AADC) Labeling List for Automated Site Mailings, will include all three-digit ZIP Code prefixes shown in Exhibit 122.63m, 3-Digit Labeling List for Automated Site Mailings. This addition should facilitate the combined use of Exhibits 122.63m-o.

Many of the three-digit and SCF areas listed in Exhibit 122.63m and Exhibit 122.63n, Sectional Center Facility (SCF) Labeling List for Automated Site Mailings, cannot be further combined into AADCs. For these areas, Exhibit 122.63o will duplicate the same three-digit or SCF labels and corresponding ZIP Codes shown in Exhibits 122.63m or 122.63n.

Postmasters having any of the special cancellation die hubs listed below are authorized to use them for the periods designated. At the end of the period, the postmasters should withdraw the die hubs from use and store them. Postmasters who do not have these special die hubs must not request them without application by the sponsors.

Easter Seals

March 1 to March 30, 1991.

Red Cross

March 1 to March 31, 1991.

Kidney Foundation

March 1 to March 31, 1991.

—Rates and Classification Dept., 3-21-91

American Flags/Yellow Ribbons on Uniforms

Various inquiries have arisen concerning placement of a permanent American flag on the right shoulder of official U.S. Postal Service uniforms. The Joint Labor-Management Uniform Committee has determined that the display of a flag on a uniform is an individual decision and, therefore, should not be made a permanent part of the uniform.

However, due to the current situation in the Middle East, it is understandable that employees may wish to show their support and patriotism by wearing a flag pin or yellow ribbon on authorized postal uniforms. This is authorized as long as the size of the flag pin and/or ribbon is proportionate in size so as not to detract from the uniform's appearance.—Labor Relations Dept., 3-21-91

50-Cent Harriet Quimby Airmail Stamp

The 50-cent Harriet Quimby airmail stamp goes on sale April 27 in Plymouth, Michigan. The stamp design features Harriet Quimby, the first American woman to win a pilot's license. This denomination meets the international air letter rate weighing ½ ounce or less.

Do Not Place on Sale Before April 29, 1991

Copyright U.S. Postal Service 1991

Issued in panes of 50.
A future issue will include collector information.

Supply. Post offices with authorized philatelic centers will receive their standard automatic distribution quantities based on a 200-subject stamp issue. All stamp distribution offices (SDOs) will receive automatic distributions of 500,000 stamps. SDOs will not make automatic distributions to their associate offices. Since a private contractor (Stamp Ventures) printed this stamp issue, the Bureau of Engraving and Printing will not honor supplemental requisitions for **Item 5572**.

SDOs requiring additional stamps must order them from their regional accountable paper depositories (RAPDs) using separate Forms 17-A, *Accountable Items Requisition From Stamp Distribution Office*. All other post offices requiring this stamp should immediately requisition them from their SDOs on separate Forms 17-A.

—*Philatelic and Retail Services Dept., 3-21-91*

38-Cent U.S. Flag Reply Postal Card

The 38-Cent U.S. Flag reply postal card goes on sale March 27 in Washington, DC.

Do Not Sell Before March 28, 1991

Copyright U.S. Postal Service 1991

A future issue will include collector information.

Supply. Post offices will not receive an automatic distribution. All post offices should order sufficient quantities of this postal card to meet the needs of mailers and anticipated local philatelic demand. CAG A-G post offices requiring bulk quantities of the reply postal card should immediately submit Forms 3216, *Requisition for Postal Cards—Bulk Quantities*, to the Government Printing Office using **Item 2282**. Post offices requiring fewer than bulk quantities should immediately order from their stamp distribution offices on a separate Form 17-A, *Accountable Items Requisition From Stamp Distribution Office*.—*Philatelic and Retail Services Dept., 3-21-91*

Privacy Act Reminder

Systems of records retrievable by the name, Social Security number, or other personal identifier of an *individual* fall under the Privacy Act of 1974. Establishing such a system of records or changing an existing, approved Privacy Act system (for example, replacing a manual system with automation or paper records with disk or tape, or developing new uses for the information) requires: (1) formal notification to Congress and the Office of Management and Budget and (2) publication of a *Federal Register* notice in advance, as described in *Administrative Support Manual (ASM)* 353.11 and 353.24.

As more organizations and installations acquire word processors, personal computers, and data terminals linked to data bases, it is imperative that they strictly observe the requirements of the Privacy Act. To help them observe the act, facilities should:

1. Check the ASM appendix for descriptions of Privacy Act systems approved for use.

2. Note especially the approved policies and practices for storing, retrieving, accessing, retaining, and disposing of records in each particular system and adhere to them strictly.

3. Contact the Records Office at Headquarters (PEN 268-4872) before developing a new system; changing an existing one; or issuing a solicitation that calls for the design, development, or operations of a new or revised system of records. The Records Office will also answer questions about the propriety of files, records, or systems presently in use.

The Privacy Act provides criminal penalties for knowing and willful violations (see ASM 353.13).

—*Records Office, 3-21-91*

DMM Notice

Dead Letter Branch Closing— San Juan, PR

Effective with *Domestic Mail Manual* Issue 39 (6-16-91), DMM 159.5, Dead Letter Branches and Service Areas, is revised to show that the New York Dead Letter Branch service area includes all of Puerto Rico and the Virgin Islands. The San Juan Dead Letter Branch closed effective March 9, 1991.

Minneapolis Airmail Facility.	USPS AIRPORT MAIL FACILITY FIRST FLIGHTS MPLS/ST PAUL INTL AIRPORT TWIN CITIES, MN 55111-9998

Postal Operations Manual section 244.63 authorizes official cachet and philatelic treatment for the first flight service described above. Customers must prepare covers to be sent on the flight in accordance with the following instructions:

1. Address all covers with postage affixed at the appropriate airmail rate.
2. Allow a clear space, 2½ by 2½ inches on the lower portion of the envelope and to the left of the address, for the cachet. Provide an additional 1½ inches to the left of the innermost stamp to permit a clear postmark. Each envelope should contain a filler of postal card thickness to ensure good impressions of the cancellations.
3. Place the covers in outer envelopes (addressing them using all capitals and no punctuation, except the hyphen in the ZIP + 4 Code) and mail them to reach the office applying the cachet no later than 3 days before the scheduled date of the flight.
4. The Postal Service will not accept aerogrammes and postal cards. There is a limit of 50 covers per customer per flight. Covers already postmarked and those not prepared in accordance with instructions will not receive cachets or cancellations.—*Philatelic and Retail Services Dept., 3-21-91*

Handbook AS-707A Revision

Contracting for Vehicle Maintenance

To capture information required by the Internal Revenue Service, a change must be made to Handbook AS-707A, *Contracting for Vehicle Maintenance Agreements*.

Specifically, the contractor's taxpayer identification number (TIN) must be added to the format for the Vehicle Maintenance Facility Billing Summary—Commercial Work Orders (Exhibit B, Part 11). Using pen and ink, add a line for the TIN in the upper left-hand corner of the format. The revised part of the format follows:

VMA No.: # _____

Contractor Name and Address:

Contractor TIN: # _____

The next issuance of Handbook AS-707A will include this change.

—*Procurement and Supply Dept., 3-21-91*

Kleen Screen

The General Services Administration (GSA) has alerted its customer supply centers that Kleen Screen (GSA national stock number 6850-01-207-1368), an aerosol cleaning product used to clean video display terminal (VDT) screens and manufactured by Sunshine Chemical Specialties, poses a potential hazard to users.

Recently, a GSA customer sprayed the cleaner on a computer screen and wiped the surface with a paper towel, igniting the screen and setting the towel on fire. A probable cause may have been electrostatic action of the lint content in the paper towel igniting residual flammable or combustible components in the cleaner. The aerosol can does not indicate that the contents are flammable.

Postal employees should check to see if they have this product, and if so, contact the local GSA customer supply center for credit return information.

\$2.90 Flag With Olympic Rings Booklet

The \$2.90 Flag with Olympic Rings booklet goes on sale April 21 in Atlanta, Georgia. This booklet contains one pane of 10 stamps.

Do Not Place on Sale Before April 22, 1991

Copyright U.S. Postal Service 1991

A future issue will include collector information.

Supply. Post offices with authorized philatelic centers will receive automatic distributions. In conjunction with a national coordination of Olympic stamp promotion, post offices in the 49 state capital cities and Washington, DC, will furnish automatic distributions of 54,000 booklets each.

Since a private contractor (KCS Industries, Inc.) printed this booklet, the Bureau of Engraving and Printing will not honor supplemental requisitions for **Item 6638**. Stamp distribution offices (SDOs) must immediately submit separate forms 17-A, *Accountable Items Requisition From Stamp Distribution Office*, to their regional accountable paper depositories (RAPDs). KCS will ship the booklets to the RAPDs on a weekly basis. Shipments will be made as fast as production and distribution permit. All other post offices requiring this booklet must immediately submit separate Forms 17-A to SDOs.

Except for meeting philatelic demand, postmasters shall deplete their inventories of the \$2.90 Nondenominated Flower booklets before selling this new item.

The initial production of these booklets will be packaged in cardboard trays of 300 booklets. Starting in June, these booklets will be packaged in transparent, crisscross plastic cubes of 50 booklets with six cubes constituting a tray of 300 booklets.

Note: Post offices reporting booklet irregularities must use the format on page 4. Booklet irregularities not submitted in this format will be returned to post offices.

—Philatelic and Retail Services Dept., 3-21-91

Misuse of Mail Transport Equipment

Misuse of mail transport equipment (MTE) is a chronic problem. It removes MTE from its primary function of moving mail within the mail processing/delivery systems and denies customers the means to deposit large mailings. The most common misuses include: using 1046 hampers as trash containers, using mail trays as small parts bins, using general purpose mail containers and Eastern region mail containers as storage cases, and using various types of rolling stock as crates to hold unworked sacks.

Supervisors and managers should inspect their work areas for misused MTE. When they identify infractions, they should correct the misuse promptly. When necessary, order the proper storage equipment as soon as possible to free MTE for its intended purpose.

—Delivery, Distribution, and Transportation Dept., 3-21-91

DMM Notice

Commercial Mail Receiving Agents—List Maintenance

Effective with *Domestic Mail Manual* (DMM) 39 (6-16-91), DMM 153.213, concerning delivery of mail to a commercial mail receiving agent (CMRA), is revised to clarify the responsibilities of CMRAs with respect to the annual submission of their lists of clients and the duty to maintain duplicate Forms 1583, *Application for Delivery of Mail Through Agent*. They must submit the annual list by June 1 each year, listing clients in alphabetical order with cross references to the addressee delivery designation assigned by the CMRA.

The CMRA's duty to maintain the duplicate Form 1583 for each client ceases when the agency relationship is terminated, at which time the duplicate form must be endorsed with the termination date and returned to the post office.

153.21 Delivery to Addressee's Agent

* * * * *

153.213 a. No change-of-address order will be filed with the post office when the agency relationship is terminated, and the duplicate copy of Form 1583 will be returned by the CMRA to the post office endorsed with the termination date to maintain current post office files.

* * * * *

153.213 d. The CMRA must provide by June 1 an annual updated list of its clients shown in alphabetical order with cross references to CMRA addressee delivery designations.

—Marketing and Customer Service Group, 3-21-91

Reimbursement for Postal Supervisors—Daily Rate

Form 1164-A. Form 1164-A, *Claim for Reimbursement for Postal Supervisors* (February 1991), was distributed the week of February 25. Additional forms are available from the material distribution centers (MDCs). Use Form 7380, *MDC Supply Requisition*, to order this form from the MDCs.

Supervisory personnel *must* submit claims for reimbursement for the daily rate, currently \$6 per day, using Form 1164-A, in lieu of the mileage rate, as specified in Part 524.3 of Handbook F-10, *Travel*.

Form 1164. They may also submit claims for reimbursement for the mileage rate, currently 24¢ per mile, using Form 1164, *Claim for Reimbursement for Expenditures on Official Business*, for local payment as long as the Postal Service mileage rate does not exceed the federal standard mileage rate, which is 27.5¢ per mile for Calendar Year 1991. Claims for reimbursement for parking fees and tolls *must* also be submitted using Form 1164 for payment locally.

—Dept. of the Controller, 3-21-91

DMM Notice

CARRIER ROUTE WALK-SEQUENCED MAILINGS FOR SECOND- AND THIRD- CLASS RATES

Effective with *Domestic Mail Manual* (DMM) Issue 39 (6-16-91), certain requirements for the walk-sequencing rates are amended. Mailers may, at their option, begin using these new procedures immediately.

1. *Delivery Stop Information.* DMM 122.44 is revised to show that delivery statistics for all carrier routes and post office box sections are available in the Delivery Statistics File (they are no longer available in the CRIS schemes).

2. *Package Labeling.* The requirement to label each package with a sequential number is replaced with a requirement to indicate that pieces in the package are in walk-sequence. This requirement can be met either by inserting a facing slip or by printing the carrier route package label information on the line above the address (see DMM 424.753 and 624.853).

3. *Sack, Tray, Pallet Labeling.* DMM 424.754 and 624.854 require the addition of the letters WS to the contents line of carrier route sack, tray, or pallet labels and to five-digit carrier routes pallet labels.

4. *Errors in Sequencing.* If a carrier finds that more than 5 percent of the walk-sequenced mail contains errors in sequencing, the carrier notifies the supervisor of the errors and then finishes casing pieces deliverable on the carrier's route. The delivery unit supervisor documents the errors in a manner that specifically describes the types and number of errors for the route(s) (e.g., out of sequence, reverse sequence, misrouted, etc.) and notifies both the mailer and the origin post office. Origin post offices where the mailings were verified and paid for advise these mailers that future mailings to the carrier routes to which pieces were incorrectly sequenced must be accompanied by evidence that sequencing service was performed for those routes within the applicable timeframes, and assess a deficiency if appropriate. If the evidence is not submitted at the time of mailing, those mailings are not eligible for the carrier route walk-sequence rate.

5. *Simplified Address Mail at Walk-Sequence Rates.* Since simplified addressed mail does not bear a specific address, there is no sequencing that can be performed and, therefore, sequencing of this mail is not required to obtain second- and third-class walk-sequence rates. These mailings, however, must be based on accurate delivery stop information obtained through use of the Delivery Statistics File or through post offices. Walk-sequence mailings that bear a simplified address must meet the requirements of 122.41, which includes the requirement that enough pieces must be presented to cover each family or boxholder on each route to which pieces are mailed. Accordingly, the Delivery Sequence information requirements in DMM

424.77 and 624.87, and the mailing statement annotations in DMM 424.785 and 624.884, are revised to reflect the requirements for simplified address mail. These sections are also amended to show the phase-in of the timeliness requirements for updating sequencing information.

6. *Documentation of Density.* The listing requirements in DMM 424.78 and 624.88 are clarified and sample listings of the required documentation are added.

7. *Mailing Statement Annotation—Accuracy of Sequencing.* DMM 424.785 and 624.884 are amended to require that the mailing statements be annotated to show the earliest (oldest) date from one of the four following sources of information that may have been used to prepare any portion of the mailing: Computerized Delivery Sequence (CDS) invoice, date the address cards were sequenced, date of the Delivery Statistics File, or date delivery information was obtained from post offices.

8. *Extra Requirement for First Package to a Route Eliminated.* The requirement that the first package for each route be identified with documentation showing the total number of pieces mailed to the route and the date of the sequencing information used for the route (DMM 424.786, 424.787, and 624.885) is eliminated.

9. *Walk-Sequence Rates for Third-Class Merchandise Samples Mailed With Detached Address Labels.* DMM 624.811 and 629.51 are amended to clarify that merchandise samples mailed with detached address labels are eligible for the saturation walk-sequence rates if they meet the applicable density and preparation requirements.

Mailers that elect to participate in the Customer Advance Notification Distribution and Verification System (CANDVS) must still meet that program's additional conditions for facing slips that require information that is rescinded by these changes.

The following revisions to DMM 424 and DMM 624 are provided as advance notice and reflect regulations that will be implemented June 16, 1991, with DMM Issue 39. Mailers may prepare mailings according to these regulations immediately, or they may continue to prepare their mail according to the requirements contained in DMM Issue 38 until Issue 39 is published.

* * * * *

424.7 Walk-Sequence Rates

* * * * *

424.75 Walk-Sequencing

* * * * *

424.753 Package Labeling. In addition to the labeling requirements in 444.24, each package of walk-sequenced carrier route mail must be labeled to show that the package contains carrier route mail that has been walk-sequenced. Mailers must label packages in one of the following ways:

a. With Facing Slips. Mailers may prepare walk-sequenced carrier route packages by affixing to the top of the package a facing slip that contains the phrase WALK-SEQUENCED CARRIER ROUTE MAIL. The facing slip may be an address label with the required information placed on a sample mailpiece that is the top piece in the package or it may be a separate piece of paper affixed to the top of the package.

b. Without Facing Slips. Mailers may prepare walk-sequenced carrier route packages without facing slips if the letters WS are placed immediately in front of the carrier route information descriptive prefix or its abbreviation required under 444.24b. The following are examples of address formats for walk-sequenced carrier route packages labeled with the WS and descriptive prefixes, when used in accordance with 444.24b:

Note: Mailers who choose to label packages without facing slips must meet the sack, tray, and pallet labeling requirements in 424.754.

424.754 Sack, Tray, or Pallet Labeling

a. Carrier Route Sack, Tray, or Pallet. In addition to the information required by 444.31 for carrier route sack labels, the letters WS must be added to the contents line for carrier route sacks, trays, and pallets. Each walk-sequence carrier route label must be prepared in the following manner:

Line 1: City, two-letter state abbreviation, and five-digit ZIP Code destination.

Line 2: Class (2C or NEWS) followed by the letters WS, the type of route (carrier route, rural route, post office box section, highway contract route, or general delivery unit), and route number. The words POST OFFICE BOX SECTION, HIGHWAY CONTRACT ROUTE, and GENERAL DELIVERY UNIT may be abbreviated as follows: BOX SECT, HWY CONTR RT, GEN DEL UNIT.

Line 3: City and two-letter state abbreviation of the post office of mailing.

Example:

SAN FRANCISCO CA 94133
 2C WS CR 18
 ALEXANDRIA VA

b. Five-Digit Carrier Routes Pallets. In addition to the information required by 444.31b for carrier routes sack labels, the letters WS must be added to the contents line for five-digit carrier routes pallets containing walk-sequenced mail. Each label must be prepared in the following manner:

Line 1: City, two-letter state abbreviation, and five-digit ZIP Code destination.

Line 2: Class (2C or NEWS), followed by the letters WS and the words CARRIER ROUTES. The words CARRIER ROUTES must not be abbreviated.

Line 3: City and two-letter state abbreviation of the post office of mailing.

Example:

TARZANA CA 91356
 2C WS CARRIER ROUTES
 BAKERSFIELD CA

CARRIER ROUTE WALK-SEQUENCED MAILINGS FOR SECOND- AND THIRD-CLASS RATES—Continued

424.763 Pieces in Error

a. If a carrier finds pieces that are not in sequence or not for that route, and when the number of those pieces found in error is 5 percent or more of the estimated total pieces for the route, the carrier must notify the delivery unit supervisor of the errors and then finish casing the mail addressed to the route. The delivery unit supervisor documents the errors in a manner that specifically describes the types and number of errors for the routes) (e.g., out of sequence, reverse sequence, misrouted, etc.) and attempts to notify the mailer or the mailer's representative if the mailing was accompanied by the name and telephone number of either the mailer or the mailer's representative. The delivery unit supervisor must also notify the origin post office (where postage for the mailing was paid) of the errors. The origin post office may be identified from the sack, tray, or pallet label or from the return address on the mailpieces. Even if the mailer or the mailer's representative cannot be contacted, the delivery unit supervisor must still inform the origin post office of the errors.

b. Upon notification of the errors by delivery units, origin post offices must contact the mailer and identify the ZIP Codes and carrier routes where the errors were found and advise the mailer that the errors must be corrected before submission of the next mailing to that ZIP Code area. Upon receipt of the documentation from the delivery units, the origin post offices must assess a postage deficiency for the difference between the walk-sequence rate and the appropriate rate for the mail identified as being in error. The mailer must submit evidence that the errors were corrected before submitting the next walk-sequence carrier route mailing. This may require the mailer to submit the appropriate delivery unit summary reports or a copy of the CDS invoices with the next mailing to assure that the sequencing service was performed for those carrier routes within the identified ZIP Codes. The mail to those routes that were found to be in error do not qualify for the carrier route walk-sequence rate until the mailer submits the delivery unit summary reports or CDS invoices as required.

* * * * *

(Delete 424.764.)

* * * * *

424.77 Delivery Sequence Information

424.771 General. Except for routes to which pieces are prepared with the simplified form of address in 122.41, mailings entered at a walk-sequence rate must be based on delivery sequence information provided by the Postal Service using one of the methods described in 424.772 or 424.773. Pieces to carrier routes prepared with a

simplified form of address in accordance with 122.41 must be based on information described in 424.774.

424.772 CDS File. The Computerized Delivery Sequence (CDS) file is updated quarterly. Walk-sequence rate mailings must incorporate the changes contained in the CDS file updates issued not more than 6 months prior to the date of mailing. Mailings that are prepared using out-of-date walk-sequencing information will not be accepted at the walk-sequence rates, and walk-sequenced mailings subsequently found to be prepared using out-of-date information may be subject to the higher carrier route presort rate.

Note: Until September 15, 1991, mailers who use the CDS service to prepare walk-sequence rate mailings must incorporate the changes contained in the CDS file updates issued not more than 1 year prior to the date of mailing.

424.773 Address Sequencing Service. Mailings entered at the walk-sequence rates may be based on delivery sequence information provided by the Postal Service's address sequencing services (see 946). These services can be used to provide updated information as requested by the customer. Walk-sequence rate mailings must be prepared using address sequence information that was updated not more than 6 months prior to the date of mailing. Mailings prepared using out-of-date walk-sequencing information will not be accepted at the walk-sequence rates.

Note: Until September 15, 1991, mailers who use address sequencing service must prepare walk-sequence rate mailings using address sequence information that was updated not more than 1 year prior to the date of mailing.

424.774 Delivery Statistics File or Information Provided by Postmasters. Mailings prepared with the simplified form of address as prescribed in 122.41 must be based upon delivery stop information provided by either the Delivery Statistics File or by postmasters in accordance with 122.44. The delivery stop information must have been obtained within 6 months of the date of mailing.

Note: Until September 15, 1991, the delivery stop information must have been obtained within 1 year of the date of mailing.

424.78 Documentation

424.781 General. Mailers who prepare mailings claimed at a walk-sequence carrier route rate must provide documentation in accordance with 424.782 through 424.785 substantiating compliance with the requirements and eligibility for the walk-sequence rates. The documentation required by 424.783 and 424.784 must be submitted with each mailing, at the time of mailing.

CARRIER ROUTE WALK-SEQUENCED MAILINGS FOR SECOND- AND THIRD-CLASS RATES—Continued

* * * * *

424.783 Density Requirement

a. Addressed Mail (Except Simplified Address). Mailers must be able to document that they meet the density requirements in 424.743 for each carrier route, rural route, post office box section, highway contract route, or general delivery unit to which mail is sent at a walk-sequence rate. This documentation must show either the total number of active possible residential deliveries and the number and percentage to which mailpieces in the mailing are addressed, or the total number of active possible deliveries and the number and percentage to which mailpieces in the mailing are addressed, depending on whether qualification is based on the 90 percent or 75 percent criterion, respectively. The documentation must be listed five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

Note: Until June 16, 1991, mailers must provide documentation to the post office or detached mail unit (DMU) where the mail is verified to indicate the total number of addressed pieces to each carrier route within each five-digit ZIP Code area. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

b. Simplified Addressed Mail. Mailers must be able to document that they meet the density requirement in 122.41 (100 percent for simplified address) for each carrier route, rural route, post office box section, highway contract route, or general delivery unit. This documentation must show the total number of active possible deliveries and the total number to which mailpieces in the mailing are being addressed. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

Note: Until June 16, 1991, if a simplified address is used, mailers must provide documentation to the post office or detached mail unit (DMU) where the mailing is verified to indicate the total number of addressed pieces for each carrier route, rural route, post office box section, highway contract route, or general delivery unit. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

Sample Listing (424.783a-b):

ZIP Code	Carrier Route	Total Pieces	Total Active Possible Deliveries	Total Active Residential Deliveries	Percentage
13760	CR01	533	710	75
	CR02	630		700	90
	B001	175		175	100

424.784 Combination Rate Mailings

a. Both Walk-Sequence Rates. If a mailing contains pieces qualifying for both walk-sequence rates (125 and saturation), the documentation required by 424.782 and 424.783 can be combined. Entries for pieces at the 125-piece walk-sequence rate must be so annotated on the documentation. For the entire mailing, a summary of the total number of pieces at each rate must be provided.

b. Carrier Route Presort Rate. If a mailing includes pieces qualifying for the walk-sequence carrier route presort level rates and the carrier route presort level rate, in addition to the information required for the walk-sequence rate mail, by 424.782, 424.783 and 424.784a (if applicable), the documentation for the carrier route presort rate mail must show the total number of addressed pieces for each carrier route, rural route, post office box section, highway contract route, or general delivery unit for which pieces are addressed that qualify for each rate. All documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area. Those pieces qualifying for the carrier route presort level rate must be so annotated on the documentation by carrier route. For the entire mailing, a summary by five-digit ZIP Code of the total number of pieces at each rate must be provided. This documentation also satisfies the requirements of 424.84 for the carrier route presort rate pieces included in the mailing.

424.785 Documentation of Accurate Sequencing or Delivery Statistics. To prove that timely information was used to prepare mailings (as required in 424.77), mailers must be able to provide the Postal Service, within a timeframe (usually a few days) specified by the post office where the postage is paid, with a copy of any or all of the following documents for each carrier route to which pieces are mailed at the walk-sequence rate. The mailer must annotate the mailing statement in the Publication No. Block, adjacent to the publication number, with the earliest (oldest) date of any of the following methods used to obtain sequencing or delivery stop information for the mailing. As an alternative to maintaining this information, mailers may submit with the mailing to the post office where postage is paid:

- a.* CDS invoice.
- b.* Copies of the Delivery Unit Summaries that served as the mailer's bills for the address sequencing service charges.
- c.* Copy of the invoice for the Delivery Statistic File.
- d.* Evidence of receipt of information from postmasters (in accordance with 122.44) for simplified address mailings.

* * * * *

624.853 Package Labeling. In addition to the labeling requirements in 641.411, each package of walk-sequenced carrier route mail must be labeled to show that the package contains carrier route mail that has been walk-sequenced. Mailers must label packages in one of the following ways:

a. With Facing Slips. Mailers may prepare walk-sequenced carrier route packages by affixing to the top of the package a facing slip that contains the phrase WALK-SEQUENCED CARRIER ROUTE MAIL. The facing slip may be an address label with the required information placed on a sample mailpiece that is the top piece in the package or it may be a separate piece of paper affixed to the top of the package.

b. Without Facing Slips. Mailers may prepare walk-sequenced carrier route packages without facing slips if the letters WS are placed immediately in front of the carrier route information descriptive prefix or its abbreviation required in 641.411b. The following are examples of address formats for walk-sequenced carrier route packages labeled with the WS and descriptive prefixes, when used in accordance with 641.411b:

Note: Mailers who choose to label packages without facing slips must meet the sack, tray, and pallet labeling requirements in 624.854.

624.854 Sack, Tray, or Pallet Labeling

a. Carrier Route Sack, Tray, or Pallet. In addition to the information required by 641.25 for carrier route sack labels, the letters WS must be added to the contents line for carrier route sacks, trays, and pallets. Each walk-sequence carrier route label must be prepared in the following manner:

Line 1: City, two-letter state abbreviation, and five-digit ZIP Code destination.

Line 2: Class (3C) and processing category, followed by the letters WS, type of route (carrier route, rural route, post office box section, highway contract route, or general delivery unit), and route number. The words POST OFFICE BOX SECTION, HIGHWAY CONTRACT ROUTE, and GENERAL DELIVERY UNIT may be abbreviated as follows: BOX SECT, HWY CONTR RT, GEN DEL UNIT.

Line 3: City and two-letter state abbreviation of the post office of mailing.

Example:

SAN FRANCISCO CA 94133
3C LTRS—WS CR 18
ALEXANDRIA VA

b. Five-Digit Carrier Routes Pallets. In addition to the information required by 641.426 for sack labels for carrier routes sacks, the letters WS must be added to the contents line for five-digit carrier routes pallets containing walk-sequence mail. Each label must be prepared in the following manner:

Line 1: City, two-letter state abbreviation, and five-digit ZIP Code destination.

Line 2: Class (3C) and processing category, followed by the letters WS, and the words CARRIER ROUTES (abbreviated CR-RTS).

Line 3: City and two-letter state abbreviation of the post office of mailing.

Example:

CARRIER ROUTE WALK-SEQUENCED MAILINGS FOR SECOND- AND THIRD-CLASS RATES—Continued

er must notify the delivery unit supervisor of the errors and then finish casing the mail addressed to the route. The delivery unit supervisor documents the errors in a manner that specifically describes the types and number of errors for the routes (e.g., out of sequence, reverse sequence, misrouted, etc.) and attempts to notify the mailer or the mailer's representative if the mailing was accompanied by the name and telephone number of either the mailer or the mailer's representative. The delivery unit supervisor must also notify the origin post office (where postage for the mailing was paid) of the errors. The origin post office may be identified from the sack, tray, or pallet label or from the return address on the mailpieces. Even if the mailer or the mailer's representative cannot be contacted, the delivery unit supervisor must still inform the origin post office of the errors.

b. Upon notification of the errors by delivery units, origin post offices must contact the mailer and identify the ZIP Codes and carrier routes where the errors were found and advise the mailer that the errors must be corrected before submission of the next mailing to that ZIP Code area. Upon receipt of the documentation from the delivery units, the origin post offices must assess a postage deficiency for the difference between the walk-sequence rate and the appropriate rate for the mail identified as being in error. The mailer must submit evidence that the errors were corrected before submitting the next walk sequence carrier route mailing. This may require the mailer to submit the appropriate delivery unit summary reports or a copy of the CDS invoices with the next mailing to assure that the sequencing service was performed for those carrier routes within the identified ZIP Codes. The mail to those routes that were found to be in error do not qualify for the carrier route walk-sequence rate until the mailer submits the delivery unit summary reports or CDS invoices as required.

(Delete Section 624.864.)

* * * * *

624.87 Delivery Sequence Information

624.871 General. Except for routes to which pieces are prepared with the simplified form of address in 122.41, mailings entered at a walk-sequence rate must be based on delivery sequence information provided by the Postal Service using one of the methods described in 624.872 or 624.873. Pieces to carrier routes prepared with a simplified form of address in accordance with 122.41 must be based on information described in 624.874.

624.872 CDS File. The Computerized Delivery Sequence (CDS) file is updated quarterly. Walk-se-

quence rate mailings must incorporate the changes contained in the CDS file updates issued not more than 6 months prior to the date of mailing. Mailings that are prepared using out-of-date walk-sequencing information will not be accepted at the walk-sequence rates, and walk-sequenced mailings subsequently found to be prepared using out-of-date information may be subject to the higher carrier route presort rate.

Note: Until September 15, 1991, mailers who use the CDS service to prepare walk-sequence rate mailings must incorporate the changes contained in the CDS file updates issued not more than 1 year prior to the date of mailing.

624.873 Address Sequencing Service. Mailings entered at the walk-sequence rates may be based on delivery sequence information provided by the Postal Service's address sequencing services (see 946). These services can be used to provide updated information as requested by the customer. Walk-sequence rate mailings must be prepared using address sequence information that was updated not more than 6 months prior to the date of mailing. Mailings prepared using out-of-date walk-sequencing information will not be accepted at the walk-sequence rates.

Note: Until September 15, 1991, mailers who use address sequencing service must prepare walk-sequence rate mailings using address sequence information that was updated not more than 1 year prior to the date of mailing.

624.874 Delivery Statistics File or Information Provided by Postmasters. Mailings prepared with the simplified forms of address as prescribed in 122.41 must be based on delivery stop information provided by either the Delivery Statistics File or by postmasters in accordance with 122.44. The delivery stop information must have been obtained within 6 months of the date of mailing.

Note: Until September 15, 1991, the delivery stop information must have been obtained within 1 year of the date of mailing.

624.88 Documentation

624.881 General. Mailers who prepare mailings claimed at a walk-sequence carrier route rate must provide documentation in accordance with 624.882 through 624.884 that substantiates compliance with the requirements and eligibility for the walk-sequence rates. The documentation required by 624.882 and 624.883 must be submitted with each mailing at the time of mailing.

624.882 Density Requirement

a. **Addressed Mail (Except Simplified Address).** Mailers must be able to document that they meet the density requirements contained in 624.843 for each carrier route, rural route, post office box section, highway contract route, or general delivery unit to

CARRIER ROUTE WALK-SEQUENCED MAILINGS FOR SECOND- AND THIRD-CLASS RATES—Continued

which mail is sent at a walk-sequence rate. This documentation must show either the total number of active possible residential deliveries and the number and percentage to which mailpieces in the mailing are addressed, or the total number of active possible deliveries and the number and percentage to which mailpieces in the mailing are addressed, depending on whether qualification is based on the 90 percent or 75 percent criterion, respectively. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

Note: Until June 16, 1991, mailers must provide documentation to the post office or detached mail unit (DMU) where the mail is verified to indicate the total number of addressed pieces to each carrier route within each five-digit ZIP Code area. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

b. Simplified Addressed Mail. Mailers must be able to document that they meet the density requirement in 122.41 (100 percent for simplified address) for each carrier route, rural route, post office box section, highway contract route, or general delivery unit. This documentation must show the total number of active possible deliveries and the total number to which mailpieces in the mailing are being addressed. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

Note: Until June 16, 1991, if a simplified address is used, mailers must provide documentation to the post office or detached mail unit (DMU) where the mailing is verified to indicate the total number of addressed pieces for each carrier route, rural route, post office box section, highway contract route, or general delivery unit. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area.

Sample Listing (624.882a-b):

ZIP Code	Carrier Route	Total Pieces	Total Active Possible Deliveries	Total Active Residential Deliveries	Percentage
13760	CR01	533	710	75
	CR02	630	700	90
	B001	175	175	100

624.883 Combination Rate Mailings. If a mailing contains pieces qualifying for both the walk-sequence carrier route presort level rate and the carrier route presort level rate, in addition to the information required by 624.882 for the walk-sequence rate mail, the documentation for the carrier route presort rate mail must show the total number of addressed pieces for each carrier route, rural

route, post office box section, highway contract route, or general delivery unit to which pieces are addressed that qualify for each rate. The documentation must be listed by five-digit ZIP Code and by carrier route within the five-digit ZIP Code area. Those pieces qualifying for the carrier route presort level rate must be so annotated on the documentation by carrier route. For the entire mailing, a summary by five-digit ZIP Code of the total number of pieces at each rate must be provided. This documentation also satisfies the requirements of 624.35 for the carrier route presort rate pieces included in the mailing.

624.884. Documentation of Accurate Sequencing or Delivery Statistics. To prove that timely information was used to prepare mailings (as required in 624.87) mailers must be able to provide the Postal Service, within a timeframe (usually a few days) specified by the post office where the postage is paid, with a copy of any or all of the following documents for each carrier route to which pieces are mailed at the walk-sequence rate. The mailer must annotate the mailing statement in the Permit No. Block, adjacent to the permit number, with the earliest (oldest) date of any of the following methods used to obtain sequencing or delivery stop information for the mailing. The mailer must annotate the mailing statement in the Publication No. Block, adjacent to the publication number, with the earliest (oldest) date of any of the following methods used to obtain sequencing or delivery stop information for the mailing. As an alternative to maintaining this information, mailers may submit with the mailing to the post office where the postage is paid.

a. CDS invoice.

b. Copies of the Delivery Unit Summaries that served as the mailer's bills for the address sequencing service charges.

c. Copy of the invoice for the Delivery Statistics File.

d. Evidence of receipt of information from postmasters (in accordance with 122.44) for simplified address mailings.

(Delete 624.885.)

* * * * *

629.5 Detached Address Labels for Merchandise Samples

629.51 General

* * * * *

629.514 Walk-Sequence Reduction. Mailings prepared under 624.5 may qualify for the saturation walk-sequence rates if the detached address cards are prepared to meet the requirements of 624.8. Addressed mailings must meet the density requirements in 624.84. Simplified address mailings must meet the density requirements in 122.41.

CODING REQUIREMENTS ON OWCP FORMS

In compliance with the Office of Workers' Compensation Programs (OWCP), Department of Labor, regulations, all federal agencies must code specific information on OWCP forms. The Occupational Safety and Health Administration (OSHA) uses the data generated by the forms for many purposes, including analysis of employee injury/illness cases and deciding on offices to be included in OSHA's programs targeted for inspection.

All injury compensation offices must code items on Forms CA-1, CA-2, and CA-6 before their submission to OWCP. Coding blocks for the OSHA-related items are provided on the revised Forms CA-1, *Federal Employees' Notice of Traumatic Injury and Claim for Continuation of Pay/Compensation*, and CA-2, *Notice of Occupational Disease and Claim for Compensation*. Both these forms were revised in 1986. On Form CA-6, *Official Superior's Report of Employee's Death*, the codes are to be added to information required by the block title.

Exhibit A, Summary of OSHA Items Agencies Must Code on Compensation Forms (see below), summarizes where to place the codes on these forms. Guidelines for coding items on Forms CA-1, CA-2, and CA-6 follow.

For postal employees, the occupation code should be identified by PS followed by the first four numbers of the occupational code. The type and source codes, shown in Exhibit B, Injury/Illness Codes (see below), describe how the accident occurred. For example, if a dog bites a letter carrier, the type code is 440 (bitten by) and source code is 0911 (dog).

The OWCP agency code is a four-digit or four-digit plus two letter code used to identify the employee's agency. The OSHA site code is only needed when the OWCP code and the duty station Zip Code do not sufficiently identify the agency.

Employees should pay particular attention to properly completing item 18 on CA-1 and item 20 on CA-2, which request the employee's official

duty station. The Zip Code of the reporting office responsible for processing the OWCP forms should not be entered in these blocks unless it is also the employee's duty station.

On Form CA-6, these codes must be added to information required by the block title identified in Exhibit A.

Personnel should direct any questions concerning this matter to Richard H. Bauer at PEN 268-3678, (202) 268-3678 commercial, or to the Regional Injury Compensation Program Administrator.

Exhibit A—Summary of OSHA Items Agencies Must Code on Compensation Forms

Item	Form CA-1 (Rev. 1986)	Form CA-2 (Rev. 1986)	Form CA-6
Occupation Code.	Shaded box "a" Occupation code.	Shaded box "a" Occupation code.	Block 13. Was employee in performance of duty when injury occurred?
Type of Injury Illness Code.	Shaded box "b" Type Code.	Shaded box "b" Type Code.	Block 12. Describe how injury occurred.
OWCP Agency Code.	Block 17. OWCP Agency Code.	Block 19. OWCP Agency Code.	Block 6. Bureau or Office.
OSHA Site Code.	Block 17. OSHA Site Code (as necessary).	Block 19. OSHA Site Code (as necessary).	
Duty Station Zip Code.	Block 18. Duty Station.	Block 20. Duty Station.	Block 5. Department or Agency.

Stamps per Coil: 100, 500, and 3,000

Flag Over Mt. Rushmore Stamp

The American flag waving proudly above Mt. Rushmore is depicted on a 29-cent coil stamp to be issued March 29 in Mt. Rushmore, South Dakota. The Mount Rushmore National Memorial celebrates its 50th anniversary this year on July 4.

Procedures for ordering first-day postmarks follow.

Customers Affixing Stamps. The Postal Service encourages customers to purchase the Flag Over Mt. Rushmore stamps and affix them to their envelopes. Covers bearing stamps receive preferential service. Customers must affix stamps approximately $\frac{1}{4}$ inch from the top and right edges, address envelopes (to themselves or others) on the right side at least $\frac{5}{8}$ inch from the bottom, insert a card of postcard thickness for sturdiness and tuck in the flap, place

the envelopes in a larger envelope addressed (using all capitals and no punctuation, except the hyphen in the ZIP+4 Code): CUSTOMER AFFIXED ENVELOPES, FLAG OVER MT RUSHMORE STAMP, POSTMASTER, PO BOX 9998, KEYSTONE SD 57751-9991. Requests must be postmarked by April 28. Once the first day of issue postmark is applied, the postcards and envelopes will be returned through the mail. There is no charge for the postmark.

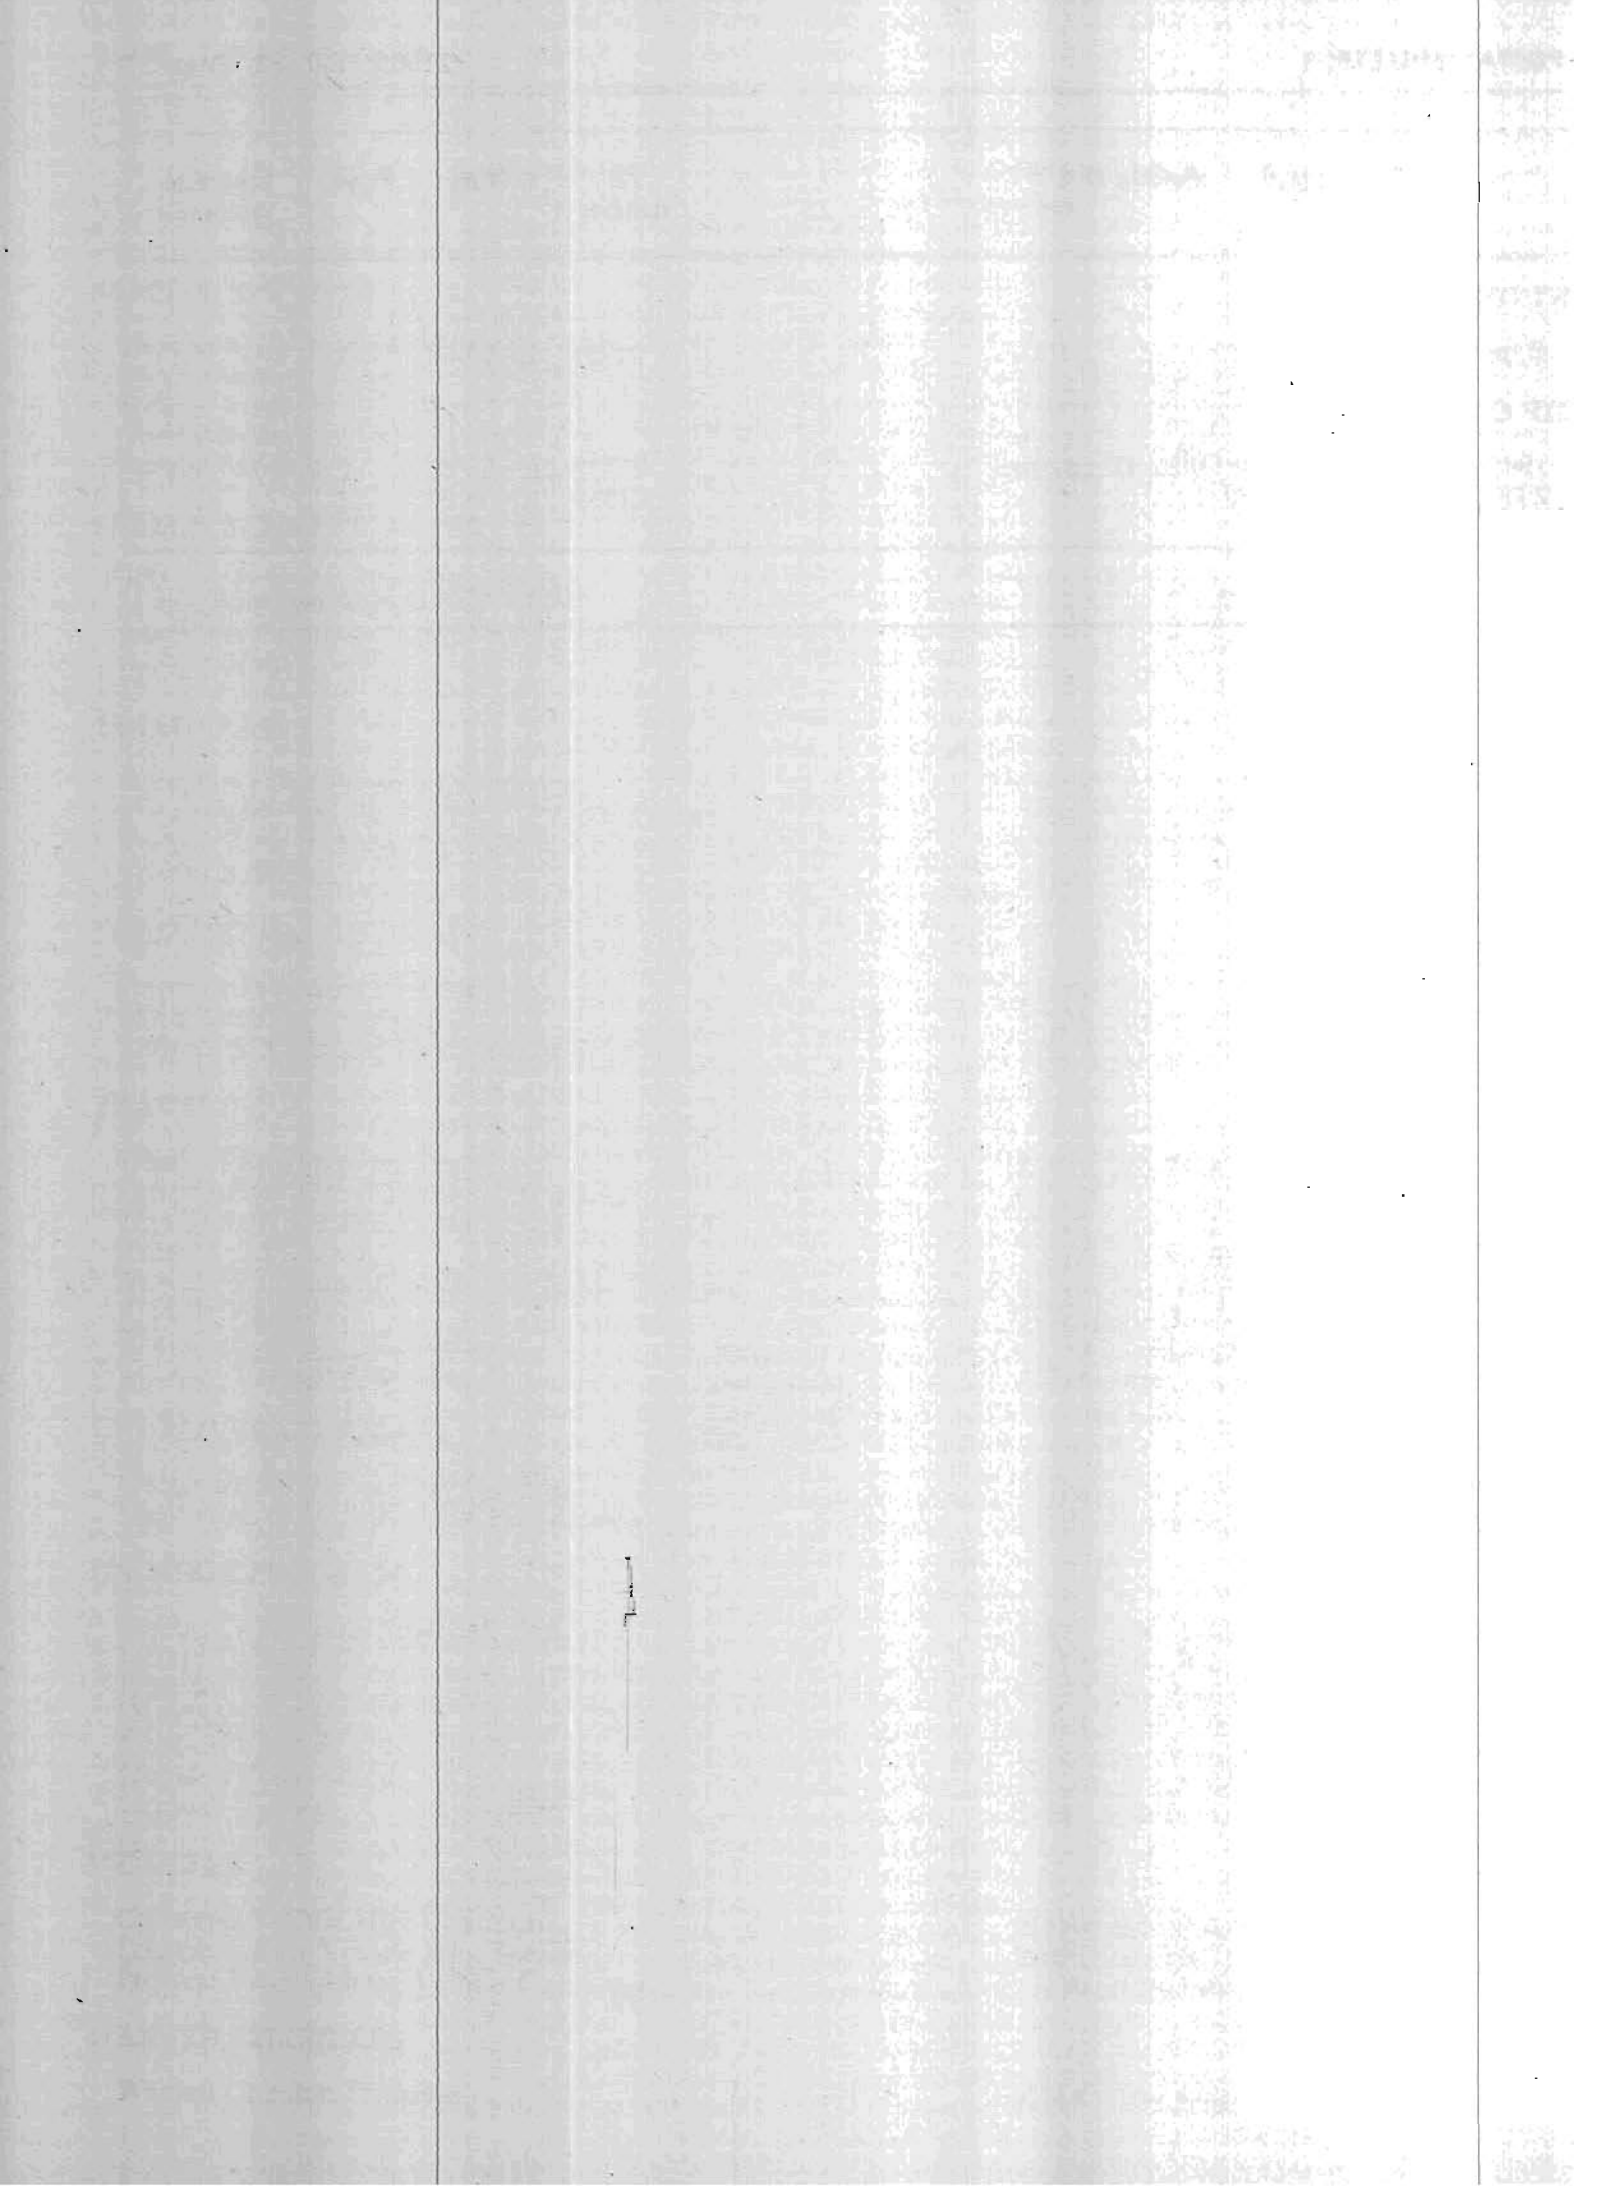

Postal Service Affixing Stamps. The price is 29 cents per stamp. The Postal Service accepts checks and money orders in the exact amount up to the limit of 50 customer-supplied self-addressed envelopes. Customers should not send cash or postage stamps. Orders must be postmarked by April 28 and addressed: FLAG OVER MT RUSHMORE STAMP, POSTMASTER, PO BOX 9998, KEYSTONE SD 57751-9992.

A *Philatelic Catalog*, listing all available stamps and other philatelic items, is available here or from the PHILATELIC SALES DIVISION, PO BOX 449997, KANSAS CITY MO 64144-9997.

Carnegie Hall Postal Card

The Postal Service honors the 100th anniversary of Carnegie Hall with a 19-cent Historic Preservation Series postal card to be issued April 1 in New York City. It features an exterior view of the world-famous music hall with the American flag and the Carnegie Hall centennial banner flying from the marquee.

Procedures for ordering first-day postmarks follow.

Customers Affixing Stamps. The Postal Service encourages customers to purchase the Carnegie Hall postal cards and prepare them for postmarking. Customer-prepared postal cards receive preferential service. Customers must address postal cards (to themselves or others) on the right side at least 5/8 inch from the bottom, place the postal cards in an envelope addressed (using all capitals and no

punctuation, except the hyphen in the ZIP+4 Code): CUSTOMER PREPARED POSTAL CARDS, CARNEGIE HALL POSTAL CARD, POSTMASTER, JAMES A FARLEY BLDG, NEW YORK NY 10199-9991. Requests must be postmarked by May 1. Once the first day of issue postmark is applied, the postal cards will be returned through the mail. There is no charge for the postmark.

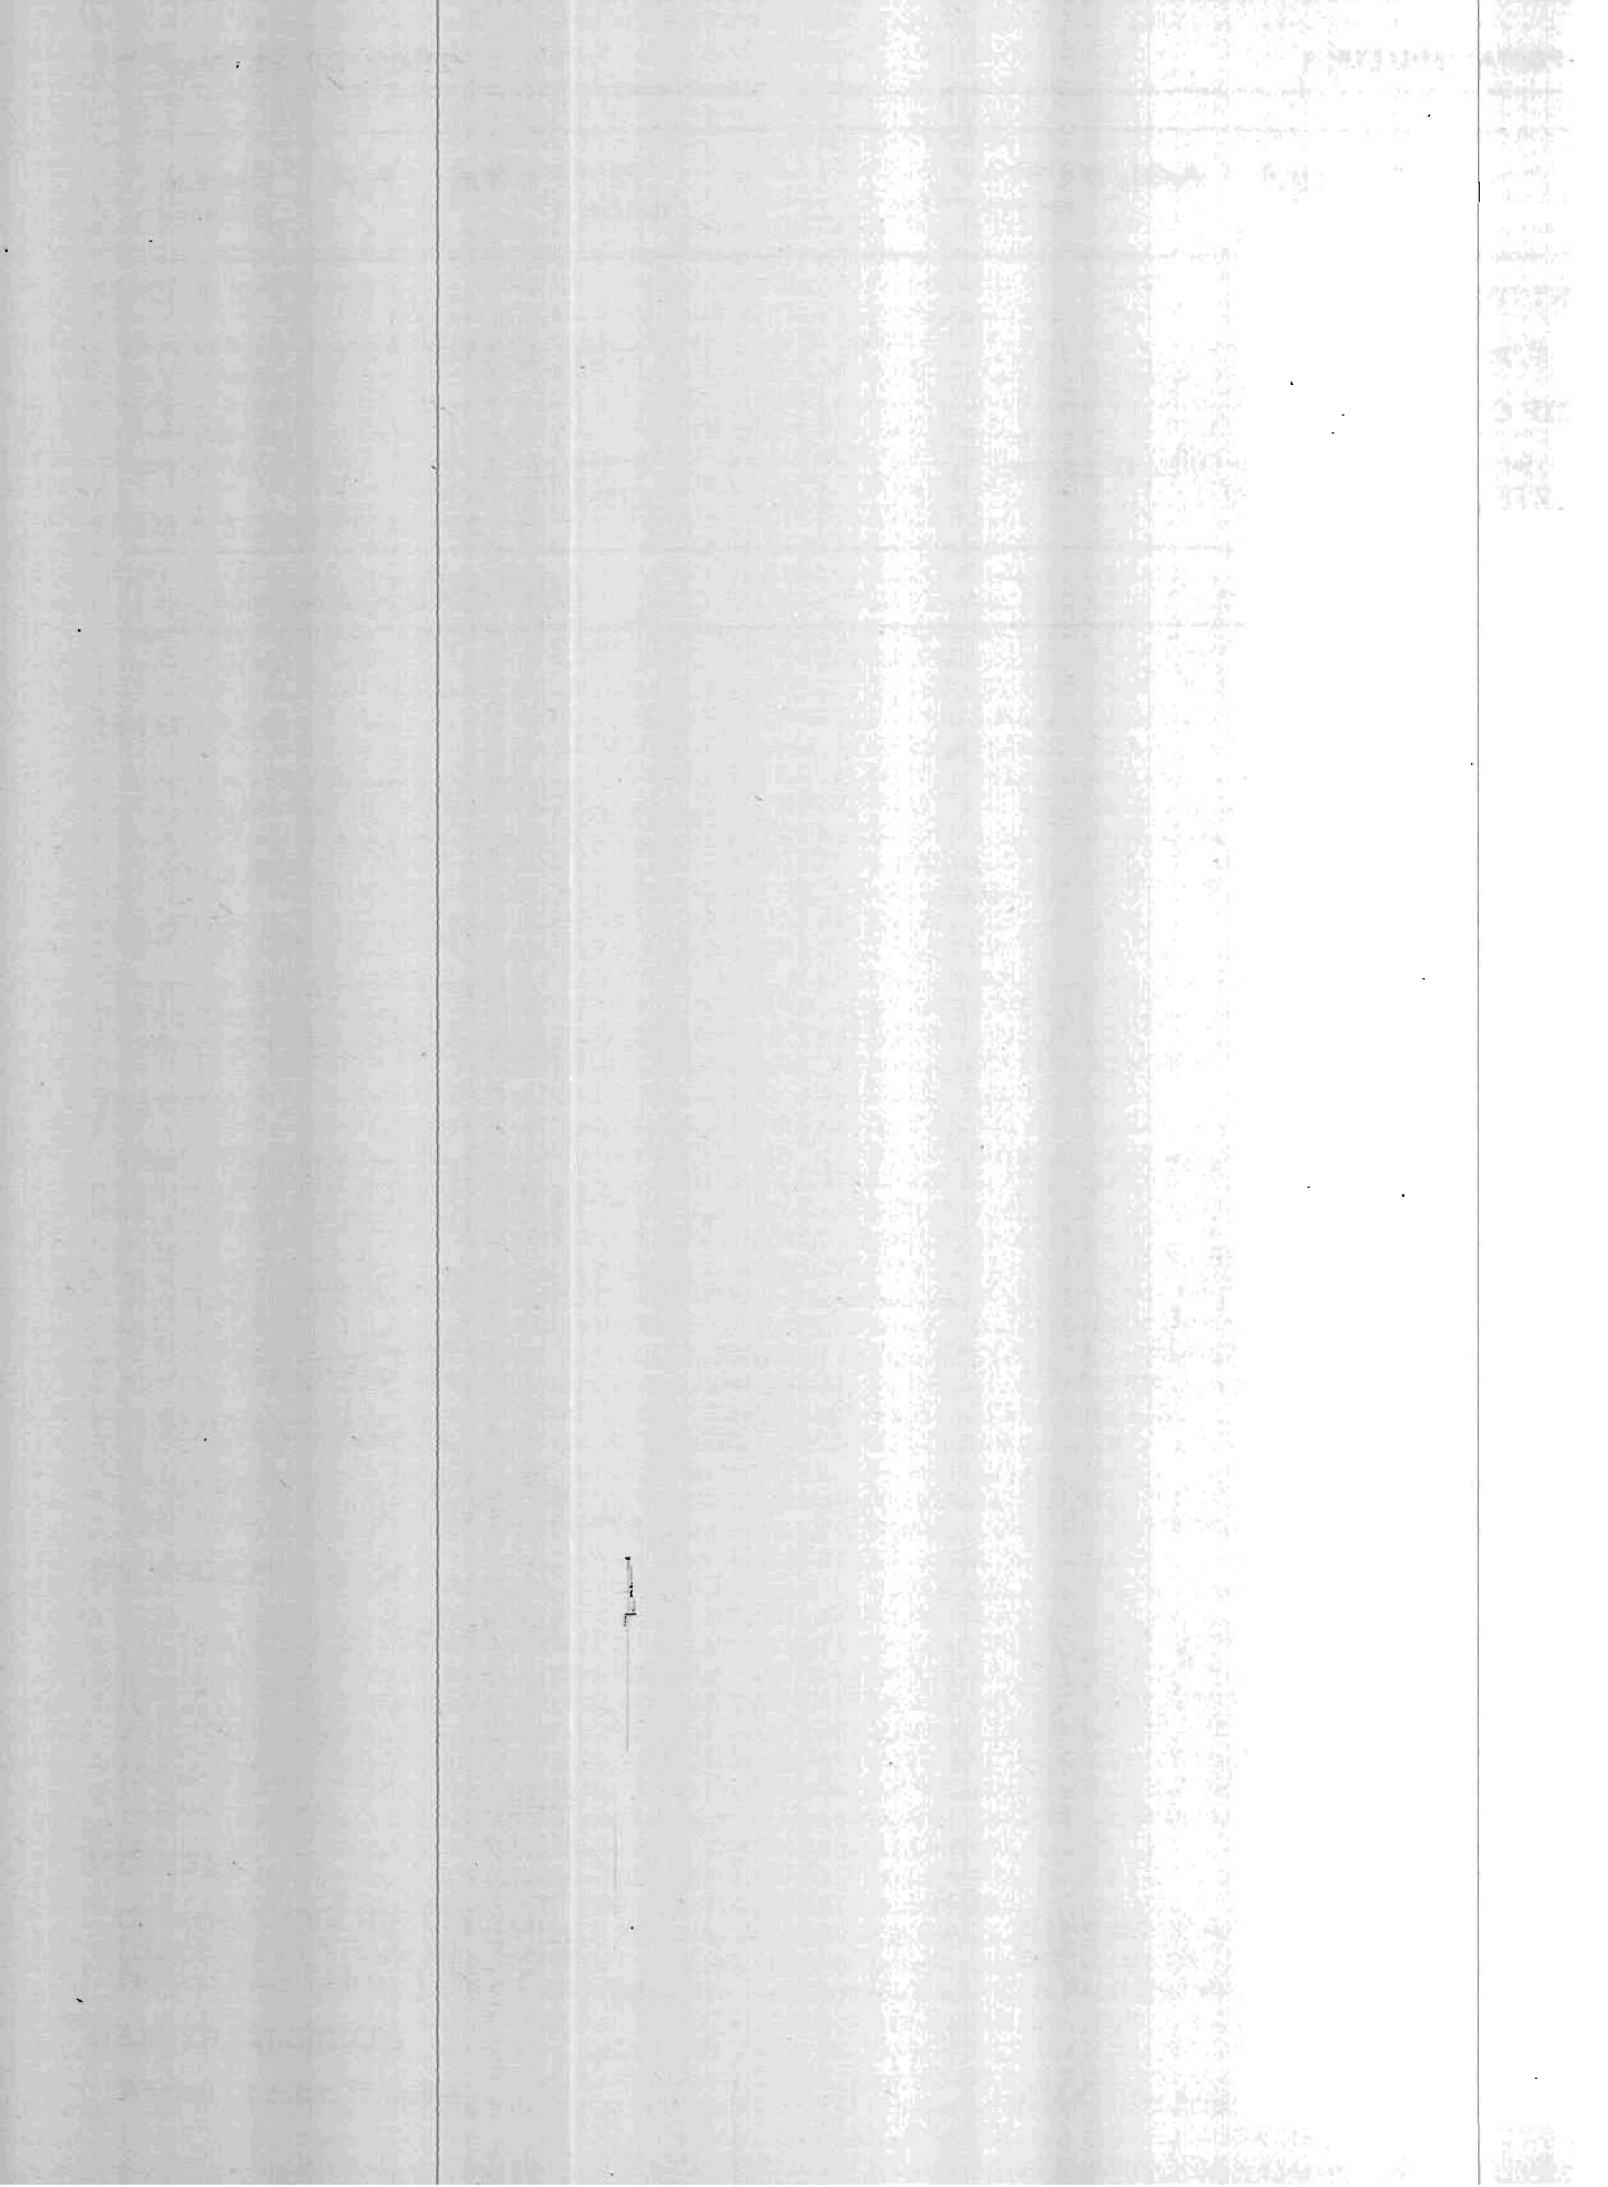

Postal Service Prepared Postal Cards. The price is 19 cents per postal card. The Postal Service accepts checks and money orders in the exact amount up to the limit of 50 postal cards. Customers should not send cash or postage stamps. Customers also must provide pressure-sensitive, self-addressed labels for each postal card for return mailing. Orders must be postmarked by May 1 and addressed: CARNEGIE HALL POSTAL CARD, POSTMASTER, JAMES A FARLEY BLDG, NEW YORK NY 10199-9992.

A *Philatelic Catalog*, listing all available stamps and other philatelic items, is available here or from the PHILATELIC SALES DIVISION, PO BOX 449997, KANSAS CITY MO 64144-9997.

Dennis Chavez Stamp

The Postal Service will issue the 35-cent Dennis Chavez stamp April 3 in Albuquerque, New Mexico, as part of the Great Americans Series of stamps. Chavez, who represented New Mexico, was the first American-born Hispanic elected to the United States Senate.

Procedures for ordering first-day postmarks follow.

Customers Affixing Stamps. The Postal Service encourages customers to purchase the Dennis Chavez stamps and affix them to their envelopes. Covers bearing stamps receive preferential service. Customers must affix stamps approximately $\frac{1}{4}$ inch from the top and right edges, address envelopes (to themselves or others) on the right side at least $\frac{5}{8}$ inch from the bottom, insert a card of postcard thickness for sturdiness and tuck in the flap, place

the envelopes in a larger envelope addressed (using all capitals and no punctuation, except the hyphen in the ZIP+4 Code): CUSTOMER AFFIXED ENVELOPES, DENNIS CHAVEZ STAMP, POSTMASTER, 1135 BROADWAY BLVD NE, ALBUQUERQUE NM 87101-9991. Requests must be postmarked by May 3. Once the first day of issue postmark is applied, the postcards and envelopes will be returned through the mail. There is no charge for the postmark.

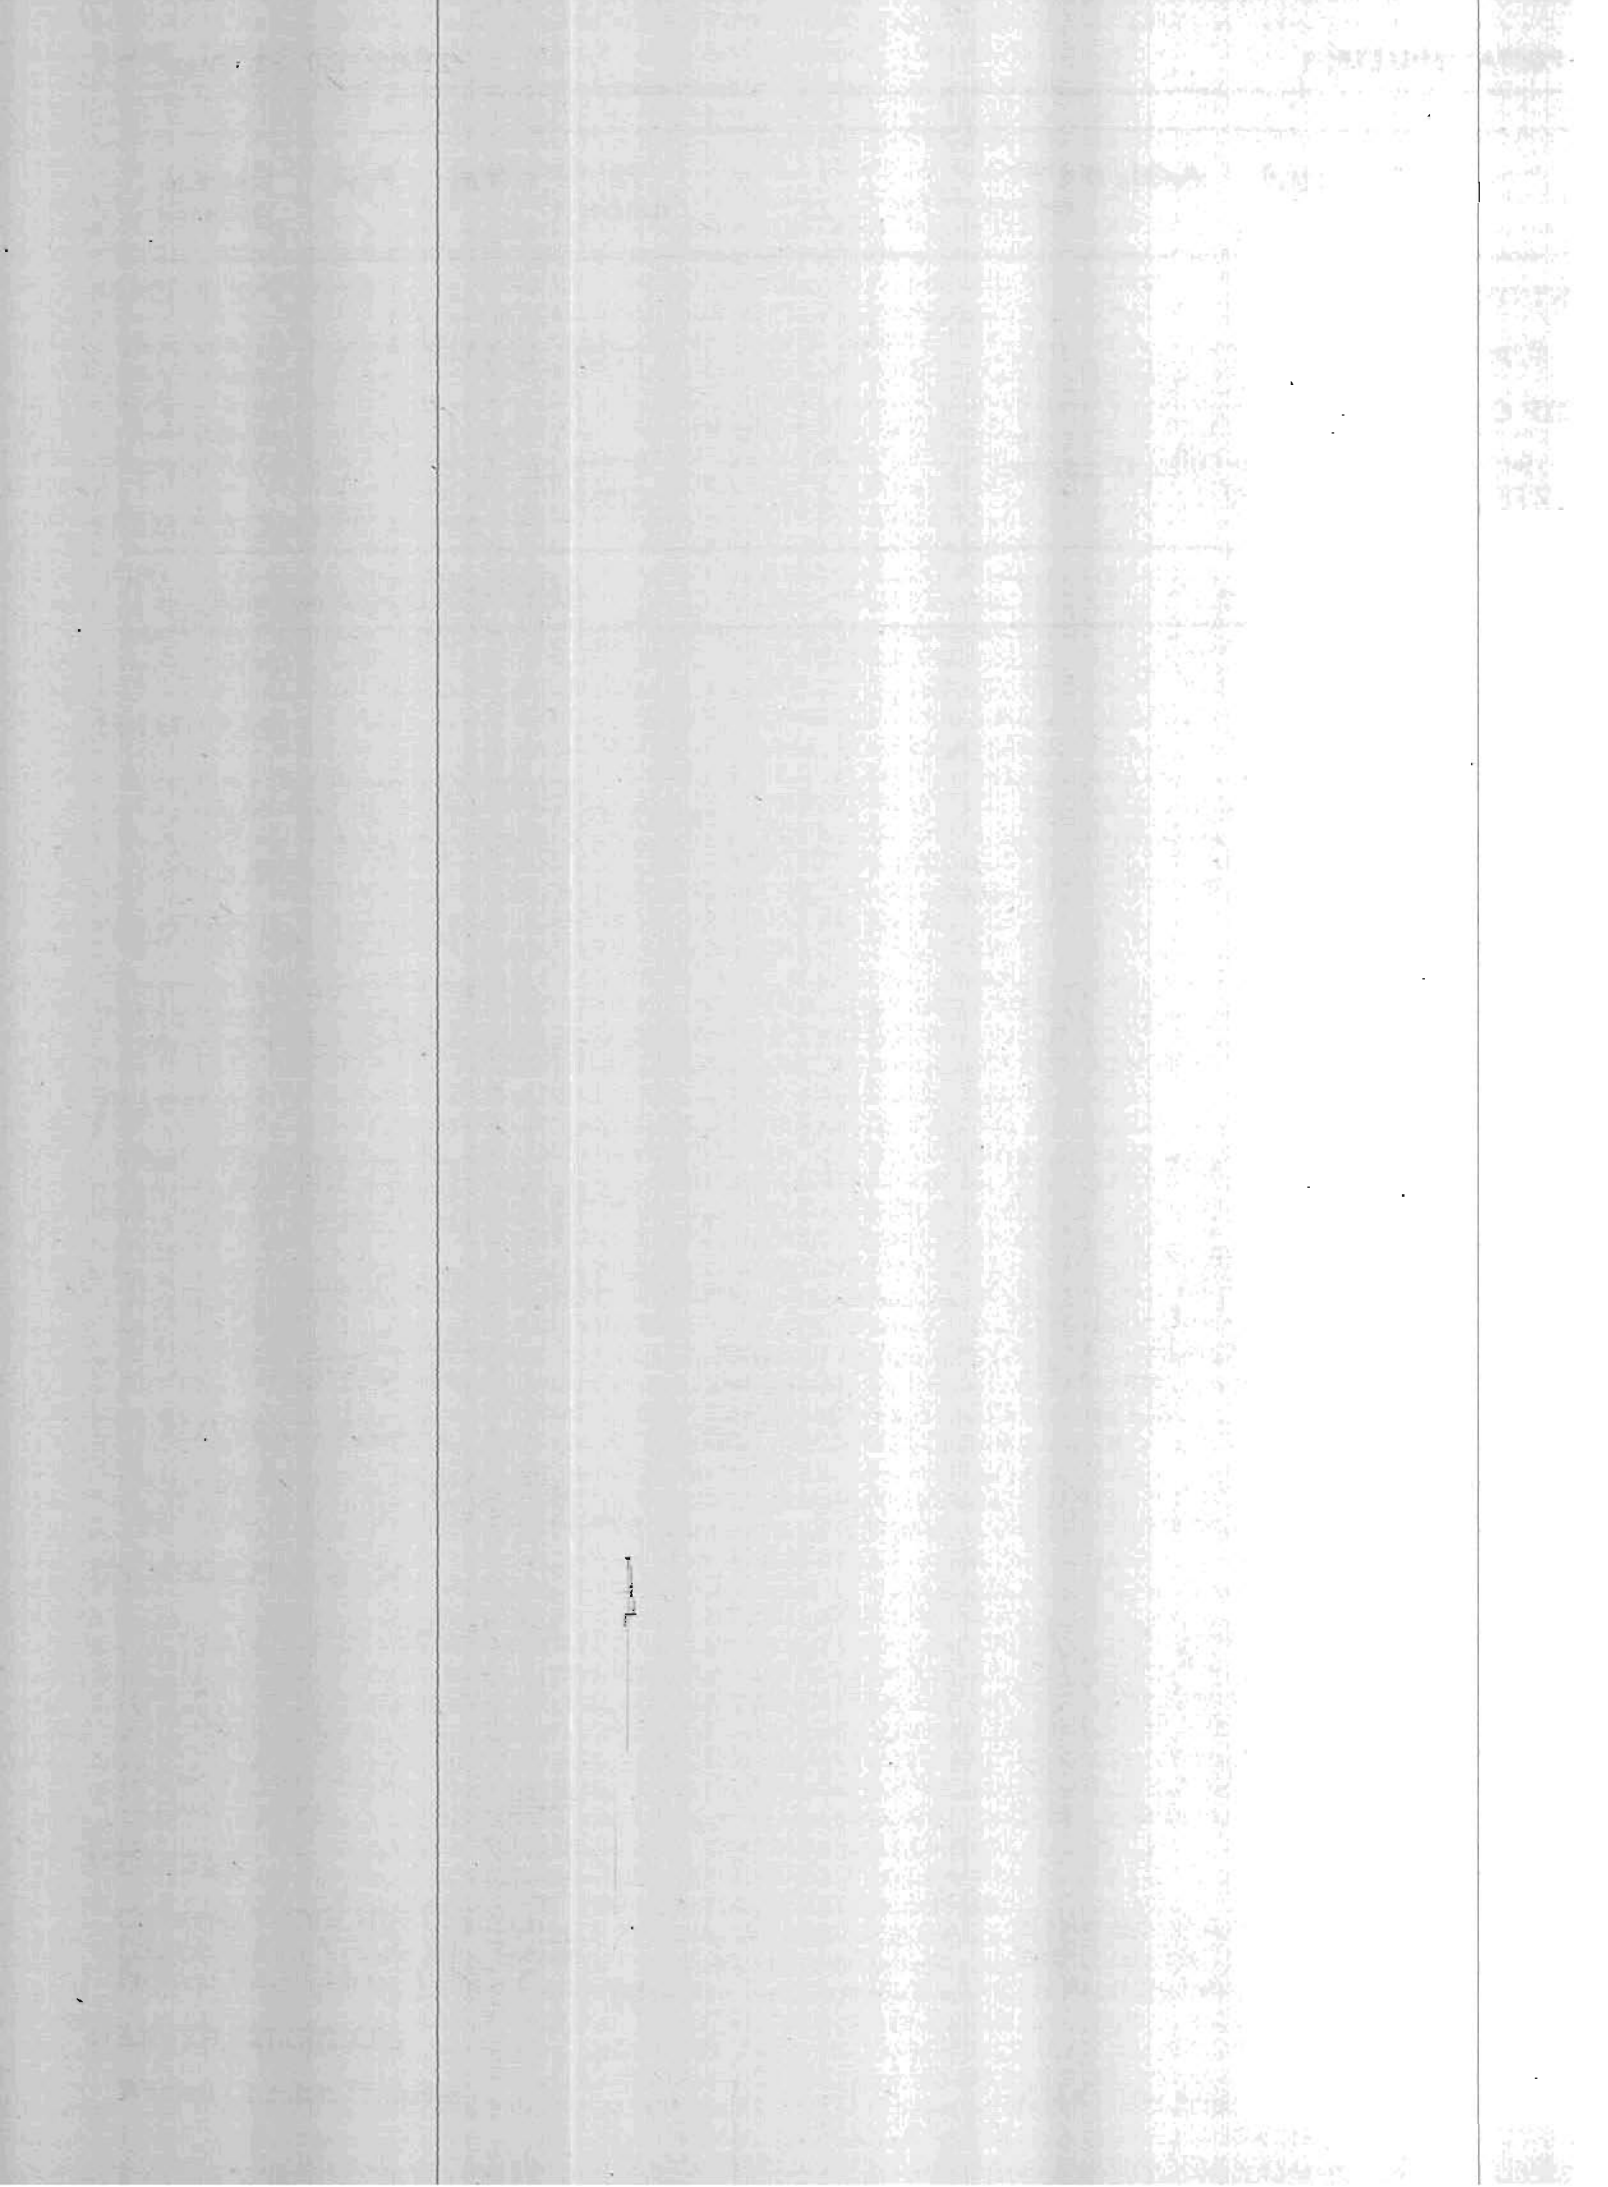

Postal Service Affixing Stamps. The price is 35 cents per stamp. The Postal Service accepts checks and money orders in the exact amount up to the limit of 50 customer-supplied self-addressed envelopes. Customers should not send cash or postage stamps. Orders must be postmarked by May 3 and addressed: DENNIS CHAVEZ STAMP, POSTMASTER, 1135 BROADWAY BLVD NE, ALBUQUERQUE NM 87101-9992.

A *Philatelic Catalog*, listing all available stamps and other philatelic items, is available here or from the PHILATELIC SALES DIVISION, PO BOX 449997, KANSAS CITY MO 64144-9997.

Missing Children Poster Display Instructions

Please display this poster prominently on bulletin boards in retail lobbies of main post offices, classified stations and branches. Please remove and discard previous versions. At their option, operators of contract postal units may display this poster.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by the National Center for Missing and Exploited Children. For policy and information on Postal Service support in efforts to recover missing children, see POSTAL BULLETIN 21536, page 1, October 17, 1985.

Missing Children Posters are available from the U.S. Postal Service *only* through periodic issues of the POSTAL BULLETIN.

DMM Notice

DISTRIBUTION LABELING LIST EXHIBIT CHANGES

Effective with *Domestic Mail Manual* (DMM) Issue 39 (6-16-91), Exhibits 122.63b-r are revised to reflect changes in mail processing operations (see below). Although mailers are encouraged to label according to the revised exhibits immediately, they must comply with these changes beginning June 16, 1991.

Reuse accountable paper mailing cartons only after obliterating registry or other postal endorsements.

POM Revision

POSTER 75, YOUR FEDERAL LAWMAKERS

Poster 75, *Your Federal Lawmakers*, is a required posting in all post offices, classified stations, and branches. The names of the Members of Congress are updated every 2 years following congressional elections. Normally, this update is completed in February or early March of an odd-numbered year after the issuance of a congressionally printed Official List of Members. All post offices can expect to receive updated posters by mid-April. Postmasters who have not received Poster 75 by April 15 should contact their field division Director of Marketing and Communications.

Postal Operations Manual (POM) section 221.527 discusses Poster 75. Portions of section 221.527 will be revised as follows in a future edition of the POM:

Section 221.527

d. Format and Size Restrictions. Poster 75 is a standard size notice available from the field division Di-

rector of Marketing and Communications. Other notices may not contain any partisan political messages or symbols designed to influence the outcome of an election including, but not limited to, photographs or other likenesses of incumbents or candidates for any public office. The notices must be no larger than 8½ by 11 inches. Names and addresses of federal legislators may not appear larger than ¼ (18 point type) inch type.

* * * * *

g. Distribution. Poster 75 will be updated by the Government Relations Department. Camera copy material for each state poster will be distributed to the field division Directors of Marketing and Communications, who are responsible for reproduction and distribution to all associate offices and classified units under their respective administrative jurisdictions. Information concerning Type A notices will be published periodically in the *Postal Bulletin*.—*Government Relations Dept., 3-21-91*

IS YOUR POST OFFICE AN EASY TARGET?

- Make sure all safes are locked
- Make sure all windows and doors are equipped with proper locks
- Make sure alarms are working and turned on
- Advise police of office hours

If you have any questions contact your Postal Inspector in charge

Box R	= Retired military personnel
FPO	= Fleet Post Office
DMM	= <i>Domestic Mail Manual</i>
MOM	= Military Ordinary Mail
MPO	= Military Post Office
PAL	= Parcel Airlift
PSC	= Postal Service Center
SAM	= Space Available Mail
USDA	= United States Department of Agriculture

Note: Mail order catalogs are prohibited as SAM or PAL mail.

A. Securities, currency, or precious metals in their raw, unmanufactured state are prohibited. Official shipments are exempt from this restriction.

B. Form 2966-A is required. Prepaid mail from a contractor addressed to a military organization for official use need not bear a customs declaration, but must be endorsed "Contents For Official Use--Exempt from Customs Requirement." Official mail from government agencies does not require a customs declaration or an exemption endorsement.

B1. Form 2966-B is required. Articles are liable for customs duty and/or purchase tax unless they are bona fide gifts intended for use by military personnel or their dependents. When the contents of a parcel meet these requirements, the mailer must endorse the customs form, "Certified to be a bona fide gift, personal effects, or items for personal use of military personnel and dependents," under the heading, Description of Contents.

B2. Form 2966-A is required except on official mail, which does not require customs declaration or exemption endorsement. The AAFES will furnish a computer listing of all items mailed from its activities to Philippine APOs. Other major order companies must either use Form 2966-A on each item or provide computer lists. Computer listings must include a description of the items, the dollar value of the items, a complete address including the PSC box number and APO of the addressee, the date of mailing, the insurance or registry number, if applicable, and the serial number of any item over \$25 in value and any electrical item with a plug over \$15 in value.

B3. Form 2966-A is required for mailing between MPOs. Prepaid mail from contractors addressed to a military organization for official use need not bear customs declaration, but must be endorsed, "Contents for Official Use--Exempt from Customs Requirement." Official mail from government agencies does not require customs declaration or exemption endorsement.

C. Cigarettes and other tobacco products are prohibited.

D. Coffee is prohibited.

E1. Medicines or vaccines not conforming to French laws are prohibited.

E2. Any matter containing religious materials contrary to Islamic faith or depicting nude or seminude persons, pornographic or sexual items, or nonauthorized political materials are prohibited.

E3. Radio transceivers or cordless telephones are prohibited.

F. Firearms of any type are prohibited in all classes of mail. See definition of firearms in DMM 124.5. This restriction does not apply to firearms mailed to or by official U.S. government

agencies.

F1. Privately owned weapons addressed to an individual are prohibited in any class of mail.

F2. Importation of firearms is restricted to one shotgun and one single shot .22 caliber rifle per individual.

G. Only First-Class letters, second- and third-class mail is authorized.

H. Meats, including preserved meats, whether hermetically sealed or not, are prohibited.

H1. Pork and/or pork by-products are prohibited.

I. Mail of all classes may not exceed the following dimensions:

Length	72" length and girth combined.
42".....	24" girth
over 42" to 44".....	20" girth
over 44" to 46".....	16" girth
over 46" to 48".....	Maximum length 48"

11. This restriction does not apply to registered mail.

12. This restriction does not apply to official government mail marked MOM.

K. Mail which includes in the address the words, "Dependent Mail Section," may consist only of letter mail, newspapers, magazines and books. No parcel of any class containing any other matter may be mailed to the Dependent Mail Section. This restriction does not apply if the address does not include the words "Dependent Mail Section."

L. All official mail is prohibited.

M. Fruits, animals, and living plants are prohibited.

N. Registered mail is prohibited.

O. Personal mail addressed to vessels using this number is limited to unregistered First-Class Mail and certified mail. Other classes of mail are prohibited.

P. APO is used for the receipt and dispatch of official mail only.

Q. Mail may not exceed 66 pounds, and size is limited to 42 inches maximum length and 72 inches maximum length and girth combined.

R. All alcoholic beverages, including those mailable under DMM part 124.42 are prohibited.

T. Mailings of case lots of food and supplemental household shipments must be approved by the sender's parent agency prior to mailing.

U. Parcels must weigh less than 16 ounces when addressed to Box R. This restriction does not apply to mail endorsed "Free Matter for the Blind or Handicapped."

U1. Mail is limited to First-Class Mail weighing 12 ounces or less when addressed to Box R. This restriction does not apply to mail endorsed "Free Matter for the Blind or Handicapped." Video tapes are prohibited when addressed to Box R regardless of weight.

U2. Mail is limited to First-Class letters only when addressed to Box R.

U3. Mail is limited to First-Class correspondence (including voice and video cassettes); newspapers, magazines, photographs, not exceeding 16 ounces, when addressed to Box R.

W. Meat products, such as dried beef, salami, and sausage may be mailed, provided they remain in their original, hermetically sealed packages and bear USDA certification. Other meats, bones, skin, hair, feathers, horns or hoofs of hoofed animals, wool samples, tobacco leaves, including chewing and pipe tobacco, snuff, cigars, and cigarettes, or obscene material, including obscene drawings, photographs, films, and carvings are prohibited. Exception: 200 grams of tobacco per parcel are permitted duty free.

X. Personal mail is limited to First-Class Mail (to include audio cassettes and voice tapes) weighing 11 ounces or less. This limitation does not apply to official mail.

MISSING CANADIAN MONEY ORDER FORMS--DO NOT CASH

To be posted and used by retail window employees. As directed, destroy previous notices. Any interim notices should be destroyed when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first nine digits. The 10th digit is a check digit only. Destroy PB 21784 listing. In addition to this listing, do not cash: (1) all card type orders, and (2) new style money orders 000.000.001 to 564.000.000. Advise holders to send invalid money orders to Canada Post Corporation, Ottawa, Canada K1A 0B1.
