Arrow Keys

Arrow keys and locks are accountable property and must be controlled by inventory and receipt. Personnel should conduct a physical inventory annually.

The *Postal Operations Manual* (POM), part 640, details the procedures for obtaining, recording, safekeeping, and returning unserviceable keys. The *Administrative Support Manual* (ASM), section 273.4, details additional responsibilities including reporting lost or stolen keys to the Inspector-in-Charge.

Payday for Pay Period 14–92 on July 2

Because Independence Day 1992 occurs on Saturday, July 4, most employees will observe the holiday on Friday, July 3, 1992. Since Friday is also the regular payday for Pay Period (PP) 14–92, the customary procedure is to prepare salary checks for distribution 1 day earlier. Salary checks for PP 14–92 will be dated July 2, 1992.

Postmasters and other installation heads should plan for distribution of salary checks on Thursday, July 2, 1992.

Make a pen and ink correction to the chart 1992 Pay Dates, Organization Dues, and Leave Year in *Postal Bulletin* 21806, 1–9–92 (page 14), to indicate that the payday for PP 14–92 is July 2.

Employee Research Study: Olympic Games

Part four of a voluntary, multipart study among postal employees takes place in quarter 4, Fiscal Year (FY) 1992. The study is to determine the awareness of and attitudes toward the Postal Service sponsorship of the 1992 Olympic Games. It will be conducted quarterly through the end of FY 1992. An independent research firm under contract to Young & Rubicam, the Postal Service's advertising agency, conducts the study for the Communications Department.

A questionnaire will be mailed to the work locations of a random sample of employees from all occupation codes, with instructions to complete the questionnaire on the clock. Supervisors of bargaining unit employees are notified of their employees' selection and asked to provide time for employees who choose to participate to complete the questionnaire on the clock. The questionnaire takes approximately 20–30 minutes to complete.

Work hour costs to complete the questionnaire are borne locally.

Rural carriers who elect to complete the questionnaire are compensated for their time at the rural carrier average consolidated work hour rate. The local office must complete Form 8127, *Rural Carrier Supplemental Payment.* For relief/substitute rural carriers, enter the work hours on Form 1314–A, *Auxiliary Rural Carrier Time Certificate,* using route type A999. Send Form 8127 to the Minneapolis Postal Data Center for payment. Form 1314A will be processed through regular payroll procedures.

Padded Envelopes: Unacceptable for Registered Mail

Padded envelopes are unacceptable for mailing registered articles in the domestic mail system. Even though this regulation has been in effect since 1985 (*Domestic Mail Manual* 911.31), padded envelopes are still improperly accepted into the domestic registered mail system. (Mailers may use them in the *international* registered mail system.)

Padded envelopes are unsuitable for registered mail articles (domestic) because they do not provide adequate security or protection for the contents. In addition, indemnity claims filed for loss or damage of registered mail articles in padded envelopes can be difficult and costly to resolve.

While it is the mailer's responsibility to ensure compliance with the prescribed laws and regulations governing domestic mail, it is also the responsibility of Postal Service window clerks, acceptance employees, and their supervisors to enforce these regulations. Postmasters and supervisors should review the regulations regarding acceptance of domestic registered mail articles with their employees and take any appropriate actions to ensure that articles mailed in the domestic registered mail system are not accepted in padded envelopes.

Printed Education Reference Charts

Effective with *Domestic Mail Manual* (DMM) Issue 44 (9–20–92), DMM 724.1g is amended to include a definition of printed educational reference charts for purposes of special fourth-class rate eligibility.

724 Special Fourth-Class Rates

724.1 General Description

* * * * *

g. Printed Educational Reference Charts. Each chart must be a single printed sheet of information which is primarily designed to be used for educational reference purposes. It must be designed to instruct or train individuals for the purpose of improving or developing their capabilities. The information on the chart, which may be printed on one or both sides of the sheet, must be primarily conveyed by graphs, diagrams, tables, or other non-narrative matter. A chart on which the information is primarily conveyed by textual matter in a narrative form does not qualify as a printed educational reference chart for mailing at the special fourth-class rates even if it includes graphs, diagrams, or tables. An educational reference chart is normally, but not necessarily, devoted to one subject. Examples of qualifying charts include, but are not limited to: maps produced primarily for educational reference purposes; tables of mathematical or scientific equations; noun declensions; verb conjugations used in the study of languages; the periodic table of elements; botanical or zoological tables; and other tables used in the study of science.

Fueling Policy at Commercial Retail Outlets

The policy for refueling USPS vehicles at commercial retail outlets requires all postal employees to use self-service pumps when fueling postal-owned or leased vehicles. The only exemptions to this policy are in communities without self-service pumps, or in states that prohibit them. However, should self-service pumps become available, or if a state changes its laws, postal personnel must immediately change to the self-service pumps. All managers must enforce this national policy.

Local postal managers must also establish a program ensuring that personnel check oil, water, and other fluids at least weekly, and replenish as needed.

When postal personnel use credit cards for payment at commercial retail outlets, they must ensure that total gallons pumped and the amount paid appear on the sales receipt. Failure to do so can result in excessive state sales tax charged to the Postal Service.

Fourth-Class Bound Printed Matter

Effective with *Domestic Mail Manual* (DMM) Issue 44 (9–20–92), DMM 723.1 is revised to state that a mailpiece may contain more than one bound printed matter piece to meet the minimum 1-pound weight required for mailing at the bound printed matter rates of postage. For example, a mailpiece containing a bound catalog weighing over 1 pound, a mailpiece containing two bound catalogs weighing 8 ounces each, or one containing four bound directories each weighing 4 ounces would all be mailable at the bound printed matter rates. DMM 723.1 is revised to read as follows:

723 Bound Printed Matter Rates

723.1 Description. Bound printed matter is fourth-class mail weighing at least 1 pound but not more than 10 pounds. A mailpiece containing two or more bound printed matter pieces, each weighing less than 1 pound but having a total weight of at least 1 pound, is mailable at the bound printed matter rates of postage (see 611.12 and 611.244 for bound printed matter rates applied to pieces weighing less than 1 pound). Bound printed matter must have the following characteristics:

DMM Notice

PENDING SECOND-CLASS ACCOUNTS

Effective with *Domestic Mail Manual* (DMM) Issue 44 (9–20–92), accounting procedures will be revised for publications mailed while a second-class application is pending. The Postal Service will deduct postage charged at the applicable second-class rates on copies mailed while an application for second-class mail privileges or for news agent registry is pending from the advance deposit account and post it to the second-class Account Identifier Code (AIC) 135, Second-Class and Requester Publication Postage. If the application is approved, the amount of the refund is the amount remaining in the advance deposit account.

If the application is denied, the amount due at the applicable third or fourth-class rates or at the regular printed matter international rates will be computed. Next, the difference in postage between the amount due at those rates and the amount charged at the second-class rates will be deducted from the advance deposit account and posted to new AIC 122, Pending Second-Class Denied. Any remainder in the advance deposit account should be refunded.

When Form 3503, *Record of Deposits Made While Second-Class Application Is Pending,* is closed upon receipt of an authorization for second-class mail privileges, any remaining balance in the advance deposit account for conditional mailings can be refunded to the mailer or transferred to AIC 051, Second-Class Advance Deposit. If the office uses the BRAVIS system, the AIC 051 credit should be entered into BRAVIS and the AIC 460, Conditional Permit, debit should be entered on the manual Form 3083, *Trust Accounts Receipts and Withdrawals.* Separate columns on Form 3083 must be kept for the pending and approved second-class trust balances, although withdrawals from each column will be posted to AIC 135. When a Form 3503 is closed upon receipt of the denial of an application for second-class mail privileges, the remaining postage due should be credited to AIC 122 and any remaining balance should be refunded to the mailer.

These changes are strictly for accounting purposes and do not affect the granting of second-class mail privileges. Those privileges will still not become effective until authorized by the general manager of the rates and classification center.

In instances when second-class applications are still pending on September 20, 1992, the following procedures will be followed with respect to Form 3503. All second-class revenues for mailings made prior to September 20, 1992, will be posted to AIC 135 on the next business day. The difference between the second-class rates and the postage at the (higher) third-class or other rates actually deposited for those mailings will remain in the advance deposit account. Mailings made on or after September 20, 1992, will be accounted for under the new procedures outlined above.

Form 3503 has been revised to incorporate the new manner of accounting for postage when an application filed for second-class mail privileges is pending. Those forms may be obtained from the materiel distribution centers.

DMM 423.152, 423.232, 423.331, 423.442, 423.532, and 423.632 are amended to revise accounting procedures for second-class mail while an application is pending. Those sections will read as follows:

A record of deposits and mailings made while an application to mail at second-class rates is pending must be maintained on Form 3503. The amount that would be charged at the applicable second-class rates on the mailings must be calculated and posted as revenue to the second-class AIC at the time each mailing is made. The remainder of the postage deposited (the difference between the second-class rate and the applicable third- or fourth-class rates or regular printed matter international rates) must be held in an advance deposit account until final action has been taken on the application. This allocation of the publisher's payments is strictly for accounting purposes, and does not constitute a granting or denial of second-class privileges. No record is kept on Form 3503 if postage is paid at First-Class rates or if postage is not paid through an advance deposit account.

DMM 423.164a, 423.244a, 423.344a, 423.454a, 423.544a, and 423.644a are amended to read as follows:

If an authorization for second-class mail privileges is granted, the postmaster of the original entry post office is instructed to issue a refund to the applicant. The amount of the refund is the amount remaining in the publication's advance deposit account. Refunds are granted only for mailings made on or after the effective date of the authorization and only if postage was paid through an advance deposit account for which a Form 3503 was maintained.

Transferring Accountability

The following section of Handbook F–1, *Post Office Accounting Procedures,* is published to emphasize the procedures for transferring accountability. It is important to adhere to these procedures whenever the conditions specified in section 414.3 exist. This publication does not change or alter existing policies or procedures.

414.3 Transfer of Accountability

414.31 Main Stock. The Main Stock must be counted and verified whenever the accountability is transferred to or from someone other than the Main Stock custodian. These transfers must be made when the Main Stock custodian is replaced or is scheduled to be absent for a period during which access to the Main Stock may be necessary (see section 433.2).

414.32 Reserve Stock. The Reserve Stock must be counted and verified whenever the accountability must be transferred to or from someone other than the Reserve Stock custodian. These transfers must be made when the Reserve Stock custodian is replaced or is scheduled to be absent for a period during which access to the Reserve Stock may be necessary (see section 433.2)

MACHINABLE PARCELS—SORTATION AND LABELING

Effective with *Domestic Mail Manual* (DMM) Issue 44 (9–20–92), DMM 641.2, 644.2, and 644.3 are amended to make the preparation requirements for mailings of machinable third-class parcels and combined mailings of machinable third- and fourth-class parcels consistent with the requirements for the destination bulk mail center (DBMC) rate. In general, the revisions specify that preparation of BMC sacks and pallets must include auxiliary service facility (ASF) sacks and pallets for mailings claimed at the DBMC rate. These sacks and pallets must be prepared to meet existing volume and labeling requirements and deposited by the mailer as specified for the DBMC rate, if claimed.

Concurrently, DMM 641.223, 641.232c, and 767.323 are revised to require that the second (contents) line of labels on mixed BMC sacks or pallets include the words Mixed BMC so that they may be distinguished from other sacks for the same facility that contain only destinating mail.

DMM 624.72 is also amended to clarify that presorted sacks or pallets of third-class machinable parcels may contain both pieces eligible for and claimed at the DBMC rate and others not eligible for or claimed at that rate.

Mailers may prepare their mailings to meet the revised requirements immediately, but such preparation is mandatory on September 20, 1992.

To facilitate such preparation and as advance notice to customers, the amended regulations appear below:

DMM Notice

SPECIAL BULK THIRD-CLASS RATES—ADDITIONAL MAILING OFFICE

Effective with *Domestic Mail Manual* (DMM) Issue 44 (9–20–92), DMM 626.21, 626.23, 626.24, and 626.25 are revised to clarify and expedite the application process for organizations already authorized to mail at the special bulk third-class rates and wanting to mail at those rates at an additional post office.

To obtain authorization to mail at the special bulk third-class rates at an additional mailing office, the organization (not its agent) must file Form 3623, *Application for Special Bulk Third-Class Rates at Additional Mailing Office,* at the post office where its original authorization is held. (Currently the application is submitted to the requested additional mailing office.) This procedure should reduce the number of applications received at the

SPECIAL BULK THIRD-CLASS RATES—ADDITIONAL MAILING OFFICE—Continued

rates and classification center (RCC) that cannot be matched to original applications because of organizational name changes.

When an organization submits Form 3623, the postmaster must make sure that the name of the organization on the application matches exactly the name under which the original authorization is held. If the name on Form 3623 is different, the applicant must first revise its original application to reflect a name change by providing documentation showing that the organization's name was officially changed. Examples of acceptable evidence are an official amendment to the organization's Articles of Incorporation stating the former name and the new name and a letter issued by the Internal Revenue Service recognizing the name change. Any difference in the organization's name must be resolved by the postmaster accepting the application to mail at an additional mailing office before it is forwarded to the RCC.

If the applicant is unable to complete item 6 on Form 3623 (the organization's original authorization number issued by the RCC), the postmaster should complete that item number by checking his or her office's copy of the original authorization letter. If the original authorization number cannot be found, send a copy of the approved Form 3624, *Application to Mail at Special Bulk Third-Class Rates,* with the Form 3623 and the organization's letter, to the RCC.

If the postmaster cannot find either the authorization number or the approved Form 3624, the organization should be advised of its three options:

1. Submit Form 3624, with supporting documentation, directly to the requested additional mailing office.

2. Submit both Forms 3624 and 3623, with supporting documentation, to that post office to obtain authorizations at both offices.

3. Submit Form 3623 to another post office where an approved Form 3624 for the organization is held.

With Form 3623, the organization must submit a letter in duplicate signed by an official of the organization. The letter must include both the name of the organization and a statement that the organization is requesting authorization to mail at the special bulk third-class rates of postage at an additional office. The postmaster sends one copy of the letter to the postmaster of the requested additional mailing office as information. Both postmasters are then notified by the RCC when the requested authorization is granted. Form 3623 will be revised to reflect the changes in the application procedures.

626.2 Authorization at Additional Offices

626.21 Application. Organizations already granted an original authorization to mail at the special bulk third-class rates at one post office under 626.1 may obtain an authorization to mail at those rates at an additional post office. The organization (not its agent) must file Form 3623, *Application for Special Third-Class Rates at Additional Mailing Office,* at the post office where its original authorization is held (see Exhibit 626.21). When an organization applies for an additional mailing office authorization under this section, it is not required to submit the evidence of qualification required to accompany original applications on Form 3624 filed under 626.1.

* * * * *

626.23 Letter. The Form 3623 must be accompanied by a letter in duplicate from the organization on its official letterhead and signed by an official of the organization. The letter must include the following information:

a. Name of the organization, and

b. Statement that the organization is requesting authorization to mail at the special bulk third-class rates of postage at an additional office.

626.24 Application Review. If the name of the organization on Form 3623 is different from the one postal records show, the applicant must first revise the organization's original application to reflect a name change by providing documentation showing that the organization's name was officially changed. Examples of acceptable evidence are an official amendment to the organization's Articles of Incorporation stating the former name and the new name and a letter issued by the Internal Revenue Service recognizing the name change. Any difference in the organization's name must be resolved by the postmaster accepting the application to mail at an additional office before it is forwarded to the rates and classification center.

626.25 Action on Application. The postmaster must forward valid applications to the rates and classification center for approval. In addition, the postmaster must send one copy of the organization's letter, which accompanied Form 3623, to the postmaster of the requested additional mailing office. Applicants should allow 30 days for application processing. The applications will be acted on under 626.33. The applicant may appeal a denial under 626.4. In no event is an authorization made effective prior to the date of the application. Any mailings made prior to the issuance of the authorization must be made under 626.5

(*Renumber current sections 626.25 and 626.26 as 626.26 and 626.27, respectively.*)

Americans With Disabilities Envelope

Forty-three million disabled American men, women, and children will be recognized by the Postal Service on July 22 with the issuance of a new 29-cent stamped envelope in Washington, DC.

Veteran stamp designer Richard D. Sheaff of Needham Heights, Massachusetts, created the indicium design for the envelope. A silhouette of a woman in a wheelchair and the words 43 million people with disabilities and For a stronger America, count us in! are emblazoned in the upper right-hand corner of the envelope. This envelope meets all Environmental Protection Agency recyclability standards for paper, inks, and adhesives.

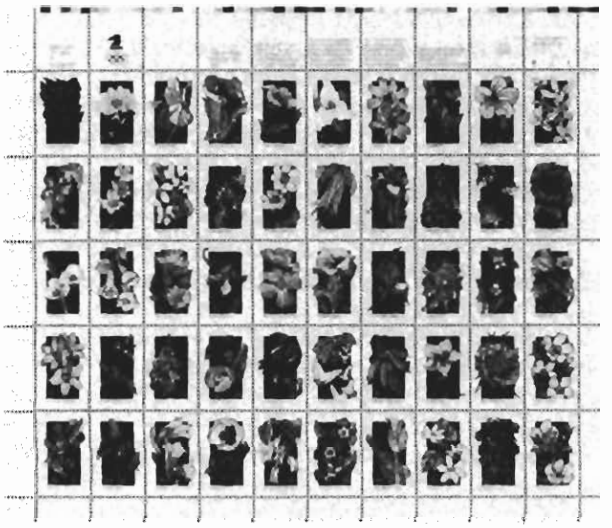

On July 26, 1990, President George Bush signed the Americans With Disabilities Act into law. It is a comprehensive affirmation of equality for people with physical or mental disabilities and a giant step forward in incorporating disabled people into the economic, cultural, and social mainstream of life.

How to Order First Day of Issue Postmark

Customers have 30 days to obtain the first day of issue postmark by mail. The easiest way is to purchase the new envelopes at a philatelic center or via mail order, address the envelopes (to one's self or others), insert a card of postcard thickness, tuck in the flap, and place the envelopes in a larger envelope addressed to: CUSTOMER SUPPLIED ENVELOPES, AMERICANS WITH DISABILITIES ENVELOPE, POSTMASTER, 900 BRENTWOOD RD NE, WASHINGTON DC 20066-9991.

Once the first day of issue postmark is applied, the envelopes will be returned through the mail. There is no charge for the postmark. All orders must be postmarked by August 21.

World War II Stamp Miniature Sheet

The World War II miniature sheet of ten 29-cent stamps goes on sale August 17 in Indianapolis, Indiana. This miniature sheet is the second in a series of World War II 50th anniversary stamp sheets being issued by the U.S. Postal Service from 1991 through 1995.

Each full pane of stamps yields two identical miniature sheets when torn along the perforations dividing them. Each miniature sheet features 10 individual commemorative stamps recalling a series of key events from America's second year into the war. The stamps are positioned horizontally in two rows of five, one above and below a Mercator-projection world map entitled 1942: *Into the Battle.* The map has text, arrows, and color shadings to depict theaters of war and historical World War II events of 1942.

Do Not Place on Sale Before August 18, 1992

New Postal Police Officer Shoulder Patch

The postal police officer uniform shoulder patch has been redesigned. The patch is completely solid embroidered and retains the same colors as the former security force shoulder patch. The words Security Force are deleted. The patch is imprinted with the words Postal Police Officer.

The patch bears the new USPS eagle and bar logo. The finished dimensions are 5 by 3⅞ inches.

The uniform industry has been advised that current emblems may be used until the supplies are exhausted. Postal police officers and security supervisors may wear either the old patch or the new patch during the 1-year transition period from July 1, 1992 to July 1, 1993.

*Through 1990 the F Fund was invested in the Wells Fargo Bond Index Fund.

The C Fund is invested in the Wells Fargo Equity Index Fund, which tracks the S&P 500 stock index. The F Fund is invested in the Wells Fargo U.S. Debt Index Fund, which tracks the Shearson Lehman Brothers Aggregate bond index. The G Fund is invested in special issues of U.S. Treasury securities.

The monthly C, F, and G Fund returns represent net earnings for the month, after deduction of accrued administrative expenses. The C and F Fund returns also reflect the deduction of trading costs and accrued investment management fees.

The C, F, and G Fund monthly returns are dollar-weighted: they reflect net earnings on the changing balances invested during the month. The C, F, and G Fund returns for the last 12 months assume, except for the crediting of earnings, unchanging balances (time-weighting) from month to month and assume earnings are compounded on a monthly basis.

The C and F Fund returns vary from the Wells Fargo returns because of C and F Fund expenses and changing balances in the C and F Funds. The Wells Fargo returns are time-weighted: they assume constant dollar balances invested during each month and throughout the period.

Future performance of the three funds will vary and may be significantly different from the returns shown above. See the "Summary of the Thrift Savings Plan" for detailed information about the funds and their investment risks.

CONDITIONS APPLIED TO MAIL ADDRESSED TO MILITARY POST OFFICES OVERSEAS

Mail addressed to, from, or between military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The table below outlines these conditions by APO/FPO (army post office/fleet post office) ZIP Code through the use of footnoted mailing restriction codes, which appear on the last page of the table.

Acceptance clerks: Use this table in conjunction with the integrated retail terminal (IRT) to determine whether an APO/FPO ZIP Code is active and what conditions of mailing apply. For Express Mail Military Service availability, refer to Handbook PO-514, *Express Mail Military Service*, and the local EMMS directory.

The entire table appears in the second regularly scheduled *Postal Bulletin* of each month. Changes occurring between issues, as well as those that take effect with the monthly issuance, are highlighted in bold print.

Special COLA Roll-In Election Period

Based on an agreement between the Postal Service and the various union organizations, a decision has been made to extend the COLA roll-in option provided under Article 9 of the 1990/1991 collective-bargaining agreements to those employees who meet the eligibility criteria for a reduced optional retirement under the Federal Employees Retirement System (FERS), that is, minimum retirement age (MRA) and 10 years of creditable service, 5 years of which must be creditable civilian service. This special COLA roll-in election period applies to all bargaining-unit employees who are subject to FERS and meet the MRA and 10 criteria, and who were not eligible to elect COLA roll-in during the regular election period provided under their 1990/1991 collective bargaining agreements. Bargaining-unit employees subject to the 1990 District of Columbia Nurses Association Agreement are not eligible for this special COLA roll-in option.

The special COLA roll-in election period will run from June 29 to July 10, 1992. To exercise their COLA roll-in option during this special election period, eligible employees must complete an election form and return it to their personnel office *by July 10, 1992.* Instructions implementing this special COLA roll-in option have been mailed directly to all field divisions, management sectional centers, bulk mail centers, and the Headquarters (HQ) Personnel Division for distribution to HQ field units. In addition, a four-page COLA Roll-In Election Package was mailed the week of June 22 to eligible employees who can be identified in the personnel/payroll system as qualifying for a reduced annuity under FERS. Information in the system may not be sufficient to correctly determine the eligibility of employees who retired from the military.

The notice that appears on page 33 notifies eligible employees who may not have received an election package to contact their personnel office immediately. This notice must be posted on all employee bulletin boards until July 15, 1992.

Firm Packages

Due to reports that firm packages are being opened prior to delivery, all mail processing and delivery employees must understand the importance of recognizing and properly handling firm packages.

By definition these packages are groups of individual mailpieces that a mailer presorts to the same delivery address. The top piece in a firm package must bear a blue F label or the Firm, optional endorsement line in the delivery address. This signifies that the pieces in the package must not be separated before delivery to the address appearing on the top piece.

DMM Notice

Mailability of Cigarette Lighters

Effective with *Domestic Mail Manual* (DMM) Issue 44 (9–20–92), DMM 124.336 is added to specify procedures for obtaining authorization to mail cigarette lighters. Because these lighters have both a fuel and ignition element, they constitute hazardous matter and would be nonmailable unless the elements for such authorization were satisfied.

The new DMM section will assist prospective mailers by restating the relevant requirements of existing postal regulations in one identified provision, and by specifying the method of complying with those requirements.

The authorization procedure first requires obtaining approval from the Department of Transportation for shipping the lighters. Prospective mailers should consult:

ASSOCIATE ADMINISTRATOR FOR
HAZARDOUS MATERIALS SAFETY
RESEARCH AND SPECIAL PROGRAMS
ADMINISTRATION
US DEPARTMENT OF TRANSPORTATION
400 SEVENTH ST SW
WASHINGTON DC 20590–0001

about obtaining such approval.

Domestic Mail Manual

124.336 Cigarette Lighters. A lighter equipped with an ignition element and containing fuel is nonmailable, except when all the following requirements are satisfied:

a. The design of the lighter and its packaging are specifically approved by the Associate Administrator for Hazardous Material Safety, Research and Special Programs Administration, US Department of Transportation (DOT), pursuant to DOT regulations (49 CFR 173.21(i)), and, as a result of that approval, a DOT Approval Number (also called a T-Number) is issued.

b. The prospective mailer of the lighter submitted to the General Manager, Business Requirements Division, Office of Classification and Rates Administration, a written request for authorization to mail the lighter, accompanied by a legible photocopy of the official notice conveying the DOT approval described in l24.336a, a specimen of the actual lighter and the packaging in which it will be mailed, and received, in response from the General Manager, a letter granting the requested authorization.

c. When presented for acceptance in the mail, the shipping package containing the lighter prominently displays the DOT Approval Number (T-Number) and the shipping name Lighter for Cigarettes (Lighters for Cigarettes if the package contains more than one of the lighters), meets all the preparation and packaging requirements cited in the General Manager's letter, and is accompanied by a legible photocopy of that letter.

SPECIAL COLA ROLL-IN ELECTION PERIOD

NOTICE TO ALL CAREER BARGAINING-UNIT EMPLOYEES COVERED BY THE FEDERAL EMPLOYEES RETIREMENT SYSTEM (FERS)

- If you are a career bargaining-unit employee covered by FERS and meet the eligibility criteria for a "reduced" optional retirement (i.e., minimum retirement age or over with 10 or more years of creditable service), you may be eligible to convert the COLA accumulated under your previous collective bargaining agreement into your basic pay. See the table below to determine if you are eligible.

- During the week of June 22, 1992, a 4-page COLA Roll-In Election package was mailed to all employees that Postal Service records identify as being eligible for this special COLA roll-in option.

- IF YOU BELIEVE YOU MEET THE REQUIREMENTS FOR THIS SPECIAL COLA ROLL-IN OPTION AND DO NOT RECEIVE THE ELECTION PACKAGE BY JULY 1, 1992, CONTACT YOUR PERSONNEL OFFICE IMMEDIATELY.

- If you are receiving military retired pay and believe the additional military service would qualify you for this special COLA roll-in option, see your employing office for additional information on waiving military retired pay.

- You must complete your election form and submit it to your personnel office no later than July 10, 1992. No response is considered a NO election.
