Travel/Relocation Advances

Postal Bulletin 21868, 5–26–94, announced that the Internal Revenue Service (IRS) regulations consider travel and relocation advances as compensation when the advance remains outstanding for 120 days after the end of the travel/relocation event. The Postal Service must report these amounts to the IRS and include such amounts in the employee's salary/wage W–2 form.

To comply with the IRS regulations, Postal Service-issued travel/relocation advances, outstanding for a period of 120 days or more as of August 15, 1994, were extracted from the San Mateo Accounts Payable System and will be included in employee's salary/wage W–2 form at calendar year-end. The advance amounts will be reported to the IRS as ordinary income and will be subject to federal and state income taxes. Advances reported as income must still be repaid to the Postal Service.

—Finance, 9–15–94

Energy Awareness Month

The Interagency Federal Energy Policy Committee designated the month of October as American Energy Awareness Month. As part of its contribution to the observance, the Postal Service will distribute energy posters with the message, Energy: Our Future Is Today.

Post this poster in a highly visible area to make employees aware of the Postal Service energy conservation efforts. Emphasize other conservation practices such as turning off the lights when not needed as demonstration of the facility's commitment to the energy conservation program.*—Maintenance Policies and Programs, 9–15–94*

NOTICE 123 REVISION

Rate Changes Approved by Board of Governors

Notice 123, *Ratefold*, is revised to reflect the changes in preferred rates approved by the Board of Governors. These changes take effect at 12:01 a.m., Sunday, October 2, 1994. These changes affect second-class in-county rates, nonadvertising pound rates and per piece rates for nonprofit second-class and classroom second-class publications, and the special bulk third-class rates for letter-shaped pieces.

The revised ratefold appears on pages 35 to 45 and may be pulled out for reference by removing the center staples. The affected rates are underlined in Notice 123 for ease of identification. Copies of the revised Notice 123 will be sent to each district in a few weeks. Those copies are in the traditional five-panel foldout form, and the revised rates are not underlined. After the distribution is made, a backup supply will be available from the materiel distribution centers.

HANDBOOK M–39 REVISION

Management of Delivery Services

Discussions between the National Association of Letter Carriers (NALC) and the United States Postal Service have resulted in changes to Handbook M–39, *Management of Delivery Services.* The changes, indicated below, are effective immediately and are in addition to revisions issued in *Postal Bulletin* 21864, March 31, 1994. Future editions of Handbook M–39 will include all revisions.

Chapter 1

* * * * *

116.4 Receipt of Morning Close-Out Dispatch. When mail is distributed elsewhere for a delivery unit, the morning close-out dispatch is typically very light and is received loose in trays or tied in bundles. If mail is trayed separately and is identified for each route, it should be taken to the carriers' cases. Otherwise, carriers may obtain it from a central point, except that Delivery Point Sequence mail will be handled in accordance with the DPS procedures established for the unit.

* * * * *

121.11 Casing Systems

a. On Non-Delivery Point Sequence (Non-DPS) Routes, there are three basic casing systems used for casing and preparing mail for delivery: One-Bundle, Two-Bundle, and Modified Two-Bundle. The system(s) that best meets the requirements of the unit should be used. However, for efficiency and economy, some degree of uniformity should be maintained. Use of the most advantageous system, including the proper use of all authorized equipment, is required.

b. On Delivery Point Sequence (DPS) Routes, the proper use of all authorized equipment is required. The local manager and union designee will jointly select the most efficient work method possible from the options listed and in accordance with the Memorandum of Understanding regarding this subject. Under Delivery Point Sequencing, the following are approved work methods for handling residual letter mail:

Case residual letters in the same separations with vertically cased flat mail, pull down and carry as a single bundle.

Case residual letter mail separately into delivery sequence order, pull down and carry as a composite (third) bundle.

* * * * *

Chapter 2

* * * * *

210 Advance Preparations

211.3 In selecting the count period, remember that all route adjustments must be placed in effect within 52 calendar days of the completion of the mail count, and no major scheme changes should be made between the period November 15 and January 1. Exceptions must be approved by the district manager in accordance with the Memorandum of Understanding dated July 21, 1987, related to Special Count and Inspection—City Delivery Routes. The local union will be notified promptly of any exception(s) granted.

* * * * *

218 Estimating an Office Time for DPS Planning Purposes

When Delivery Point Sequencing is to be implemented in a delivery unit, the following methodology will be used to estimate the impact on the affected city delivery routes:

a. Determine the percentage of letter-sized mail targeted to be received in DPS order on the date when the adjustments will be implemented;

b. Multiply percentage determined in step "a" by the average letter-sized mail received during the week of count and inspection (from PS Form 1840, column 1) to determine the number of letters for each route, targeted to be received in DPS order;

c. Divide letters targeted to be received in DPS order (as determined in step "b") by 18;

d. Divide letters targeted to be received in DPS order (as determined in step "b") by 70;

e. Add results of steps "c" and "d" to determine estimated impact;

f. For routes where the carrier was under standard time during the week of count and inspection, multiply results of step "e" by percentage of standard office time used during the week of count and inspection; the result is the estimated impact.

* * * * *

242.3 Evaluating the Route
.31 Office Time

.311 Under normal conditions, the office time allowance for each letter route shall be fixed at the lesser of the carrier's average time used to perform office work during the count period, or the average standard allowable office time.

* * * * *

243.6 Evaluation of Adjustments

.61 General Requirements

.614 Under Delivery Point Sequencing (DPS), within 60 days of implementing the planned adjustments for future automated events, the parties will revisit those adjust-

The parties further agreed that all of the other provisions of the M–39 and M–41 effective March 8, 1994, would remain as published in the March 31, 1994, Postal Bulletin, except that as identified above, Section 242.311 has been changed back to the original language that existed prior to the March 31, Postal Bulletin and the new language that had been added to Section 242.311 is now included in a new Section 218.

Use and Disposal of Peak Season Mailbags

Three new types of disposable domestic mail sacks are being added to the USPS inventory. Designed for the exclusive use of major mailers, the sacks are made of lightweight polypropylene material, and are purchased for one-trip use. Once received, the opening units must locally dispose of the mail sacks. Reuse of peak season mailbags is not authorized for any reason.

Peak season sacks are to be delivered directly to mail transport equipment warehouses and then to designated mailers. They are made in number 1 and 3 sizes and are readily identifiable by the basic white color and alternating horizontal or vertical red and green stripes located on the body of the sack. EIRS Numbers 01D and 04D, respectively, are assigned to this equipment. Sack size is indicated by the circled numbers 1 or 3, also printed in red on one side of each sack. The number 1 size sack dimensions are 40″ H x 31.5″ W. The number 3 size sack is 25″ H x 24.5″ W.

The number 2 brown sack (EIRS No. 03D) is held in designated mail transport equipment warehouses for contingency use. This sack is readily identifiable by its basic brown color and alternating horizontal or vertical red and green stripes located on the sides of each sack. Size is indicated by the circled number 2, printed in red. Sack dimensions are 41″ H x 24″ W.

Each sack is equipped with a woven plastic drawstring without a label holder. Instead, the mailing label is placed into a clear plastic holder which has been sewn into the seam of the sack, near the neck.

The disposable sack is secured by pulling the drawstring tightly together and knotting it close enough to the sack to prevent loss of mail. Once the sack has reached the destinating office, the sack is opened by cutting the drawstring.

After the drawstring is cut, the sack cannot be used again. However, the sacks are made of recyclable material. After emptying the sack, turn it inside out to prevent inadvertent reuse and dispose of in a manner that permits recycling. Note that offices receiving this equipment are responsible for their local disposal. Transfer of used peak season sacks to other offices for disposal is prohibited.

DMM REVISION

Rate Eligibility of Palletized Second-Class Mail

Effective immediately, *Domestic Mail Manual* (DMM) E230.1.4 is added to restore information contained in former DMM 424.813 but inadvertently omitted when the DMM was reorganized in 1993. This notice adds no new eligibility requirements.

1.0 General Information

1.4 Palletized Mail. For purposes of 2.0 through 5.0, a bundle or unbundled package correctly prepared under M201 through M203 is the equivalent of a sack when palletized under M042 or M048. Individual pieces qualify for the presort level rate appropriate to the palletized bundle or unbundled package in which they are placed regardless of the destination of the pallet. Eligibility for destination entry or other zone-based rates remains dependent on the point of entry.*—Marketing Systems, 9–15–94*

Conditions Applied to Mail Addressed to Military Post Offices Overseas

Mail addressed to, from, or between military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The table below outlines these conditions by APO/FPO (army post office/fleet post office) ZIP Code through the use of footnoted mailing restriction codes, which appear on the last page of the table.

ACCEPTANCE CLERKS. Use this table in conjunction with the integrated retail terminal (IRT) to determine whether an APO/FPO ZIP Code is active and what conditions of mailing apply. For Express Mail Military Service availability, refer to Handbook PO–514, *Express Mail Military Service,* and the local EMMS directory.

The entire table appears in the second regularly scheduled *Postal Bulletin* of each month. Changes occurring between issues, as well as those that take effect with the monthly issuance, are highlighted in bold print.

Collection Box Security/Arrow Locks

Security of mail matter deposited in older collection boxes continues as a concern in some parts of the country. All standard style collection boxes manufactured in recent years are equipped with an improved three-point security lock mechanism that uses Arrow Lock #1035–Y (with extension and swivel plate) as one of its lock points.

To enhance security for older standard style collection boxes, order the same three-point security lock mechanism from the Topeka Materiel Distribution Center. Submit Form 7381, *Requisition for Supplies, Services, or Equipment,* for Letter Box Mod Kit, D 11708. Contact:

MAIL EQUIPMENT SHOP
2135 FIFTH STREET NE
WASHINGTON DC 20260–6224

to request the 1035–Y Arrow Lock.

All field managers should know that Arrow locks are the only locking mechanism authorized for use on collection boxes, mail chutes, receiving boxes, relay boxes, neighborhood delivery and collection box units, cluster box units, etc. No other locks may be used without individual authorization from the manager of Delivery Policies and Programs and the Postal Inspection Service at Headquarters. —*Delivery Policies and Programs, 9–15–94*

1995 Year Type for Hand Stamp and Canceling Machines

An automatic distribution of 1995 year type for hand stamp and canceling machines will be made to all postal facilities that ordered 1994 year types for hand stamps and canceling machines. A confirmation letter will be mailed to each postal facility that ordered 1994 year types by October 1, 1994. If a quantity change or a change in the 1995 year types is needed, follow the instructions in the confirmation letter.

Any postal installation with a need for 1995 year type for hand stamp or canceling machines and which does not receive a confirmation letter by October 1, 1994, must contact the Somerville Materiel Distribution Center at (908) 707–4203 no later than November 10, 1994. Postal installations ordering should give the customer service representative the PSIN number for the item ordered, the quantity, and the FEDSTRIP number for their facility.

The servicing materiel distribution center (MDC) will ship the year type no later than December 14, 1994. Allow 10 to 14 days for delivery.

To determine the proper year type for canceling machines, postmasters must check the model number on the machine nameplate. Use Postal Service drawing 14–340, Year Types for Hand Stamps and Canceling Machines, revised May 21, 1971, in Publication 247, *US Material Management Equipment Supply Catalog,* page 2–23, as a guide for ordering the correct type.

UNITED STATES POSTAL SERVICE.

NOTIFICATION LETTER

This court order or other process in the nature of a garnishment is being returned and is not considered effectively served or constructively received by the US Postal Service for the following reasons:

Effective October 1, 1994, the Postal Service designated one Authorized Agent to receive employee wage garnishment orders under section 9 of Public Law 103-94. This federal law supersedes state law with regard to service of garnishment process. Accordingly, regardless of state law, legal process must be sent directly to, or served in person upon, the Authorized Agent named in these regulations. There will be only one agent for receipt of process for all garnishments of an employee's pay arising under state law. Other Postal Service employees are not authorized to receive process nor are they permitted to transmit process to the Authorized Agent.

This is also a change in the agent for service of process for child support garnishments pursuant to 42 U.S.C. 659, and supersedes the designations at 5 CFR 581 Appendix A, III of agents to accept service of process on behalf of the United States Postal Service and the Postal Rate Commission in child support and/or alimony garnishments.

The Authorized Agent for service of garnishment process directed to the pay of Postal Service employees and employees of the Postal Rate Commission (employees) is:

MANAGER
PAYROLL PROCESSING BRANCH
1 FEDERAL DR
FT SNELLING MN 55111-9650

The Authorized Agent shall have sole authority to receive service of legal process in the nature of garnishment (hereinafter sometimes referred to as process) arising under the law of any state, territory, or possession, or the order of a court of competent jurisdiction of any state, territory, or possession (including any order for child support and alimony). No process shall be effectively served until it is received by the office of the Authorized Agent. No other employee shall have the authority to accept service of such process. Service of process in conformity with Rule 4(i) of the Federal Rules of Civil Procedure is not waived for any suit or action wherein the Postal Service, its officers, or employees are parties.

Service of process on the Authorized Agent may be made in person or by certified or registered mail, with return receipt requested, at the address of the Authorized Agent. Service may also be made on the Authorized Agent by means of any private delivery service pursuant to its authority for the private carriage of letters under an exception to the Private Express Statutes, 39 U.S.C. 601-606, provided that the private delivery organization issues a receipt bearing the name and address of both the addressee and sender, as well as the date of delivery and the signature of the receiving agent. No garnishment is effectively served until it is received by the Authorized Agent regardless of the chosen mode of delivery. Process addressed to, delivered to, or in any manner given to any employee, other than the Authorized Agent, may, at the sole discretion of the employee, be returned to the issuing court marked Not Effectively Served. A copy of or reference to these regulations may be included. Employees are not authorized to redirect or forward garnishment process to the Authorized Agent. In the event that the address of the Authorized Agent is changed, mail may be forwarded from his last published address to his new official address until such time as these regulations are amended to reflect the new address.

See Federal Register 59 F.R. 45625-45626 (09/02/94) for further information.

Change in Involuntary Deduction Procedures

With the passage of the Hatch Act of 1993, the Postal Service will centralize processing of involuntary deductions at the Minneapolis Accounting Service Center (ASC) effective October 1, 1994. These deductions include child support, commercial garnishments, and other agency indebtedness. The processing of Post Office (PO) Indebtedness, i.e., salary and travel advances, will remain at the field sites.

As of October 1, 1994, the courts/agents must send their orders directly to:

MANAGER
PAYROLL PROCESSING BRANCH
1 FEDERAL DR
FT SNELLING MN 55111–9650

The regulations establishing the procedures were published in the *Federal Register* on September 2, 1994.

Do not forward any order received after September 30, 1994, to the Minneapolis ASC. Detailed instructions to transition the processing of child support, commercial garnishments, and other agency indebtedness from the field to Minneapolis are included in this article. Effective October 1, 1994, return to sender all court orders received at any postal site with a copy of the notification letter on page 51 of this *Postal Bulletin.*

Access to the Distributed Data Entry/Distributed Reporting (DDE/DR) transaction ID D221 will be discontinued to the field on October 1, 1994. Obtain information on involuntary deductions for employees through the transaction ID U01A. Field offices will continue to be responsible for processing Post Office (PO) Indebtedness as usual under the transaction ID D21M.

Transition of Involuntary Deduction Processing

Continue to input through the local Distributed Data Entry/Distributed Reporting (DDE/DR) system *all* involuntary deductions received through September 28, 1994.

For September 29 and 30, 1994, forward all child support, commercial garnishments, and other agency indebtedness orders received at each site to the Minneapolis Accounting Service Center (ASC) address listed below. For orders received these 2 days, open the mail received and review. Date and time stamp all correspondence and attach the envelope for future reference. If the correspondence is an inquiry, determine if it is in reference to a court order received by any postal site before September 29, 1994, and respond accordingly. Forward new court orders received on September 29 and 30 only to the Minneapolis ASC.

Field offices will continue to be responsible for processing Post Office (PO) Indebtedness, such as salary advances and travel advances.

For all orders received on or after October 1, 1994, return to sender with a copy of the attached notification letter. Do not process the order. Do not forward the order to the Minneapolis ASC.

Each site remains responsible for *inactive* child support order files maintained at that site and any inquiries that arise from these orders.

Pack all *active* child support files in Social Security number order. Send these files to the Minneapolis ASC by November 1, 1994. A list of all active child support files will be sent to each input site to expedite this process. If the site does not receive a copy of this list by October 14, 1994, contact the ASC.

Retain all files maintained at each input site (child support, commercial garnishments, and other agency indebtedness) for 3 years after the expiration date of the involuntary deduction.
