REVISION

POM Revision: Marital Status Relative to Eligibility for Delivery of Federal Benefits Checks

Practices regarding the use of surnames upon a change in marital status are increasingly varied because of cultural changes and the diversity of our population. To avoid inappropriate judgments and possible improper treatment of mail, employees should *not* rely on surnames to determine a customer's marital status relative to eligibility for delivery of federal benefits checks.

Effective August 26, 1999, the *Postal Operations Manual* (POM) is revised as follows concerning the return of checks issued by the federal government. This revision will be reflected in the printed version of POM 9 and in the online version, which is accessible on the Corporate Intranet at *http://blue.usps.gov* (click on "Information," then "Policies and Procedures," then "Manuals," and then scroll down to the POM).

NEW FORM

PS Form 8125-WS, *DDU Appointment Worksheet for PVDS Mailings*

As a result of the implementation of the R-97 rate case on January 10, 1999, a growing number of parcels are dropped directly at delivery units. These offices do not traditionally receive drop shipment parcel mailings. They are unfamiliar with the information exchange that normally occurs between the mailer and the Postal Service. This exchange of information needs to take place and requires postal verification.

There are two points in the drop shipment process when it is absolutely critical for the delivery unit to have accurate information. The first is at the time the appointment is made so that management has the necessary information to schedule and secure adequate space for mailer arrival. The second critical point is when the mailer/agent arrives. Delivery units (DDUs) must know what paperwork to expect, the verification procedures for which they are responsible, mailer/agents responsibilities and, most importantly, DDU responsibilities should the appointment and/or verification information prove inaccurate.

The two-page PS Form 8125-WS, *DDU Appointment Worksheet for PVDS Mailings*, has been developed to assist delivery offices with the receipt of DDU entry mail. The form, which appears on pages 3–4 of this *Postal Bulletin,* is divided into two columns. The left column is completed at the time the appointment is made and provides the DDU with all necessary information for planning and scheduling. In addition, the form reminds the DDU employee to advise the mailer/agent of any facility restrictions so that they may plan their transportation accordingly. The right column is a "check-off" list that is completed by associate office (AO) employees as they verify the accuracy of PS Form 8125, *Drop Shipment Clearance Document,* against the mail received after the mailer/agent unloads their vehicle.

Instructions

This form is not a clearance document.

Delivery units: Complete and use this form to assist in making and administering drop ship appointments for destination rate mailings. Proper completion of this form will help you plan by knowing what mailings to expect and when to expect them.

Left Column: Complete when you are contacted by the mailer, 24 to 48 hours prior to arrival of their mail, as required for Plant Verified Drop Shipment (PVDS) mailings. The information to be recorded is self-explanatory, e.g., Name of Mailer, Number of Pieces, Type/Number of Containers, etc.

Restrictions: At the time the appointment is being made, the postal employee recording the information must remind the mailer or their agent about any and all applicable facility restrictions, such as the following:

* No trailers over 40 feet.

* ZIP Codes that are delivered through that location.

* Any low overhangs.

* Parking lot construction, etc.

Right Column: Enter acceptance information when the mailer arrives to deposit the mail and match it to the information in the left column. Destination Delivery Units (DDUs) should retain copies of this form with the PS Form 8125 submitted by the mailer. These forms will then be used to document continuing problems or situations that will require corrective action on the part of the mailer.

Refusal of Mailings: Do not use discrepancies between the two columns for justification to refuse the mailing. Refuse mailings only (1) when the you cannot reconcile the volume or postage on the Form 8125 that is presented with the mailing or, (2) if the mail is received in damaged or unsafe condition.

Specific instructions regarding handling and receiving of PVDS mailings that contain errors are found in Publication 804, *Drop Shipment Guidelines for Destination Entry*. Your local BMEU manager may also be of assistance.

Domestic Mail

REMINDER

Periodicals Postage Statements

Effective September 11, 1999, all Periodicals mailings must be reported on the May 1999 editions of PS Forms 3541, as appropriate:

- Form 3541-R, *Postage Statement — Periodicals Regular and Science-of-Agriculture Rates.*
- Form 3541-N, *Postage Statement — Periodicals Nonprofit Rates.*
- Form 3541-NC, *Postage Statement — Periodicals Classroom Rates.*

This requirement was announced originally in *Postal Bulletin* 22000 (6-17-99).

These forms reflect the reporting of international postage under a separate account identifier code (AIC) 238. Domestic Outside-County postage continues to be reported in AIC 135, and domestic In-County postage continues to be reported in AIC 224. The permit system automatically reports Periodicals postage to the correct AIC. Post offices not supported by the permit system must be careful to report postage into the correct AIC as indicated on the postage statements.

The latest editions of all domestic postage statements are available in both "print-on-demand" and "Postage Statement Wizard" formats on the Postal Service web site at *www.usps.com* (select "business" and then "business forms"). Wherever possible, postmasters and managers of business mail entry should encourage their customers and staff to use the Postal Service web site to obtain postage statements. Postal Explorer Version 8.0 also contains all of the current postage statements.

REMINDER

Evidence of the Total Number of Pieces in a Postage Affixed Mailing

Some mailers are completing PS Form 3600-P, *Postage Statement — First-Class Mail — Postage Affixed,* to report single-piece rate First-Class mailings with the assumption that PS Form 3600-P provides evidence (proof) of the total number of pieces, total weight, and total postage for the mailing.

Unlike mailings with postage paid using permit imprint, postage affixed mailings do not receive verification of the total pieces, total weight, and total postage. Mailers requiring such evidence (proof) must present a properly completed PS Form 3606, *Certificate of Bulk Mailing,* and pay the applicable fee(s). If the mailing is of single-piece rate First-Class Mail only, no other form is necessary. If the mailing consists of presorted or automation-rate First-Class Mail or Standard Mail (A), then PS form 3606 must be accompanied by the appropriate postage affixed postage statement.

Lines for single-piece rates appear on the reverse of PS Form 3600-P to allow reporting of single-piece rate pieces presented with an automation or presorted rate mailing, or for reporting pieces from a Standard Mail (A) mailing in accordance with *Domestic Mail Manual* (DMM) P100.2.6.

PS Form 3606 can be used only for postage-affixed mailings of identical-weight pieces of First-Class Mail and Standard Mail presented at a business mail entry unit or detached mail unit.

Certificates of mailing are described in DMM S914; applicable fees are listed in DMM R900.4.2. PS Form 3606, *Certificate of Bulk Mailing,* should not be confused with PS Form 3817, C*ertificate of Mailing,* or PS Form 3877, *Firm Mailing Book for Accountable Mail,* which are used for listing individual pieces of mail.

PS Form 3606 is available on the Postal Service web site at *www.usps.com* (select "Business" and then "Business Forms").

Questions regarding these procedures should be directed to the district manager, Business Mail Entry.

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service employees responsible for accepting and cashing Postal money orders. Destroy any interim notices when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first nine digits. The 10th digit is a check digit only.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

International Mail — Handling of Customs Mail

Effective August 26, 1999, sections 711.5 and 711.6 of the *International Mail Manual* (IMM) are revised to reflect the fact that U.S. Customs is no longer applying a diamond-shaped "Passed Free U.S. Customs" stamp to inbound international mail that is determined to be *exempt* from duty assessment. f. Worksharing: The mailer has agreed to:

REMINDER

International Mail — Customs Form Usage

Postal Bulletin 21995 (4-8-99) amended various portions of section 123 of the *International Mail Manual* (IMM) that pertain to mailer use of PS Form 2976, *Customs — CN 22 (Old C1) and Sender's Declaration.* The purpose of this reminder announcement is to reiterate some of the key procedural instructions that were contained in that directive. To that end, the following guidelines should once again be disseminated to USPS personnel who accept and handle international mailpieces that have customs forms affixed.

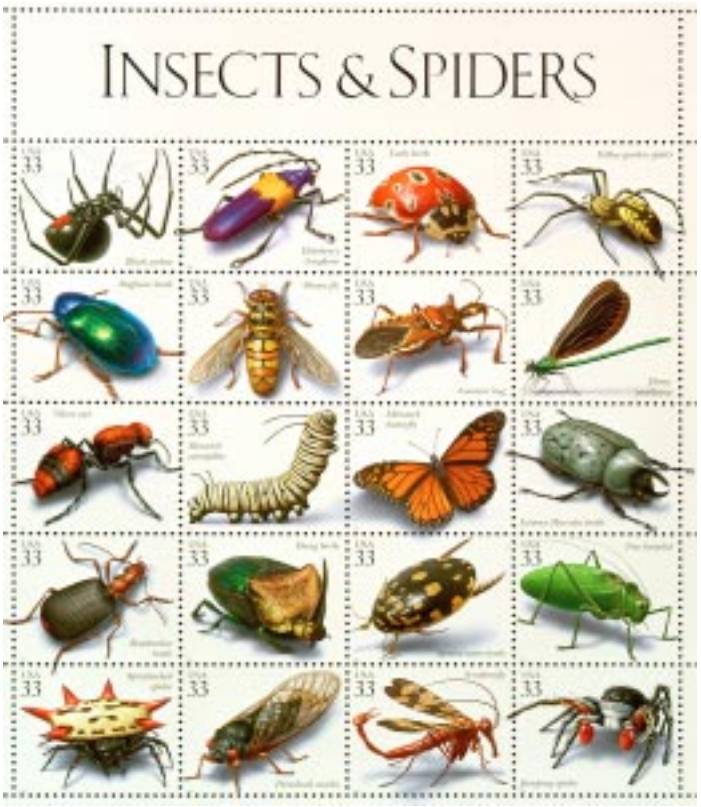

- The old C1 version of PS Form 2976 (including customer-produced facsimiles), which predates the May 1996 change in that form's design, is *obsolete* and must not be affixed to international mail or domestic mail that is sent to and from U.S. overseas military (APO/FPO) locations.
- Military personnel who enter mail at U.S. overseas military (APO/FPO) locations are already *required* to use the June 1997 version of PS Form 2976. At all other mailing locations, the May 1996 and the December 1996 versions may continue to be used only until October 2, 1999, if copies of those earlier versions of PS Form 2976 are still locally available.
- *As of October 3, 1999, the two 1996 versions of PS Form 2976 will no longer be usable.* From that date forward, only the June 1997 version (or a later version) of that customs form may be used by postal customers who affix PS Form 2976 to Express Mail International Service (EMS) shipments, letter packages, printed matter items, or small packets.
- The June 1997 version differs from its two 1996 predecessors in that the white "Sender's Declaration" portion has separate blocks for both the "Sender's Name & Address" and the "Addressee's Name & Address." Accordingly, when the use of that version becomes mandatory on October 3, 1999, postal customers *must* complete both name and address blocks whenever they must affix a green *Customs — CN 22* label to an outbound mailpiece.
- In lieu of completing a "Sender's Declaration" for each mailpiece that requires a customs form, business customers who are authorized to privately print PS Form 2976 (see IMM 123.3) must provide the post office of entry with a manifest that reflects the sender's name and address; the sender's print authorization number (i.e., bar code); the edition date of the privately printed PS Form 2976 that is replicated on the mailpiece; a signed and dated reproduction of the certification statement that is printed on the USPS "Sender's Declaration"; and a list of the foreign recipients' names and delivery addresses.
- EMS shipments that contain correspondence, documents, or commercial papers are subject to the following custom form requirements:
  a. When an EMS shipment with those categories of contents weighs less than 16 ounces, the determination as to whether or not to affix PS Form 2976 is dependent on the conditions of mailing that are applicable to a particular destination country. Some countries require that a customs form be affixed to EMS shipments in that situation. Others require only that the "BUSINESS PAPERS" endorsement be placed on the wrapper. See the Individual Country Listings in the IMM for each destination country's specification in that connection.
  b. When an EMS shipment with correspondence, documents, or commercial papers weighs 16 ounces or more, PS Form 2976 is required.
- *The facsimile version of PS Form 2976, which is printed on the back of USPS Tyvek envelope (EP 13-E), must no longer be used.* In mailing situations where an EMS shipment is enclosed in that wrapper and a completed PS Form 2976 is required, the customer must cover over the facsimile with a copy of the actual printed form. The customer must also complete the "Sender's Declaration" portion of the customs form and tender it, along with the mailpiece, to a USPS employee at a post office or other location as designated by the postmaster.

Pictorial Cancellations Announcement

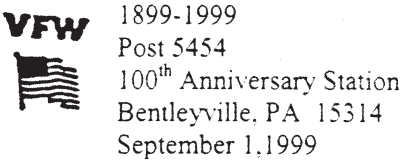

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary post office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial cancellation date*.

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage (33 cents per envelope or 20 cents per postcard). Items submitted for cancellation may not include postage issued after the date of the requested cancellation. Such items will be returned unserviced.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

After applying the pictorial cancellation, the Postal Service returns the envelope or postcard through the mail. Customers who want their serviced item returned under protected cover should include a larger, stamped, self-addressed envelope.

NEW PUBLICATIONS

Handbook AS-551 and Management Instruction AS-550-1999-4

Handbook AS-551, *Clean Air Act Compliance Guide,* and Management Instruction AS-550-1999-4, *Alternative Fuel Vehicle Program,* are now available at the material distribution centers (MDCs). These documents have been distributed to alternative fuel vehicle task force members and area environmental compliance coordinators (AECCs).

Handbook AS-551 provides general guidance for complying with applicable federal, state, local, and regional air quality regulations that address the Clean Air Act (CAA) Amendments of 1990. These regulations are aimed at reducing emissions from stationary sources. The Handbook is written primarily for the AECCs and the district managers and postmasters who have primary responsibility for ensuring compliance with the CAA Amendments.

Management Instruction AS-550-1999-4 describes Postal Service policies and strategies for the establishment and operation of the alternative fuel vehicle (AFV) program and delineates AFV program management responsibilities. It applies to all postal management and is intended to improve internal management of the AFV program. It includes policies on AFV procurements, leases, conversions, refueling infrastructure, and utilization rates.

Handbook AS-551 and Management Instruction AS-550-1999-4 are also accessible on the Corporate Intranet at *http://blue.usps.gov* (click on "Information," then "Policies and Procedures," then "Handbooks" or "Management Instructions," then either "By Document ID Number" or "By Title," and then scroll down to the desired publication). These documents can be accessed from the Alternative Fuel Vehicle Program web page at *blue.usps.gov/environmental/envstrat/altfuel/altfuel.htm* (under "Policy Documents").

Employees may requisition copies of Handbook AS-551 and Management Instruction AS-550-1999-4 as follows:

- Use Touch Tone Order Entry by calling 1-800-332-0317, option 1, then option 2.

Retrieval of Plastic Label Holders

The Mail Transport Equipment Office has been notified that postal facility opening units (LDC 010) are not saving the plastic label holders used to close and address plastic sacks destinating at their locations. It has also been noted that the national inventory of plastic label holders has fallen far below the inventory levels of sacks on which they are used.

Plastic label holders are reusable and must not be thrown away. They should never be intentionally removed from the draw tapes of sacks on which they are attached. After each plastic sack is emptied, the label should be removed from the label holder, and the sack/label holder combination should be prepared for return to the serving mail transport equipment service center.

Label holders found to be separated from their sacks should be consolidated for return to the mail transport equipment service center, along with the sacks. Please contact your serving area mail transport equipment specialist for more site-specific shipping information.

Preparation of Sacks, Mail Trays, Sleeves, and Lids for Reuse

Employees assigned to postal facility opening units (LDC 010) are reminded to look for and remove all ACT tags (air contract transportation tags) and tray labels from incoming sacks, mail trays, sleeves, and lids. Tag and label removal should occur immediately after emptying sack or tray contents into opening unit sorting and distribution equipment. Failure to remove used ACT tags and/or tray labels is causing large quantities of mail to be misrouted when the mail transport equipment is reused.

Pre-printed and print-on-demand ACT tags now use an adhesive that enables easier removal from sack label holders, tray lid, and sleeve surfaces. The new adhesive permits the tags to be pulled off the label holder, tray lid, or sleeve surface cleanly, without damaging the cardboard or corrugated plastic material in the process.

Opening unit supervisors should ensure that adequate trash receptacles are available within the opening unit work area to dispose of removed ACT tags and tray labels.

Damage to Mail Transport Equipment

Mail transport equipment service centers receive large numbers of flat tray lids and MM tray sleeves with severe razor knife damage. The damage takes place when banding straps are cut. The slashed tray lids and sleeves must be disposed of because they can no longer protect the mail from loss and/or damage. *The practice of cutting strapping with razor knives must end immediately.* Please take action to ensure it is discontinued at all opening units.

Headquarters Processing Operations has recommended two types of tools that work well in place of utility knives with straight edge blades for cutting plastic banding straps on incoming flats and MM trays:

- The first device is described as a hook-type blade that fits all standard utility knives. It is called the “American Line” utility knife blade, made by Personna. The retail package comes with five replacement blades and is available in most industrial supply and home supply stores.
- The second device is a curved-edge safety knife containing an exposed single-edge razor blade inside of the curve or hook, which is located above the knife handle. The plastic hook forces cords and strapping materials against the razor blade, which is cut by an upward or lateral tug of the knife. The particular blade safety knife described here is made by the Heritage Paper Company of Santa Ana, California. However, there are several knives of this same type made by other sources. We recommend that local industrial and home improvement supply sources be checked for availability of these knives.

*Through 1990 the F Fund was invested in the Wells Fargo Bond Index Fund.

The C Fund is invested in the Barclays Equity Index Fund, which tracks the S&P 500 stock index. The F Fund is invest-ed in the Barclays U.S. Debt Index Fund, which tracks the Leh-man Brothers Aggregate Bond index. Because of expenses and changing balances in the C and F Funds, their returns vary from Barclays' returns. The G Fund is invested in special issues of U.S. Treasury securities.

Future performance of the three funds will vary and may dif-fer significantly from the returns shown above. See the "Summary of the Thrift Savings Plan" for detailed information about the funds and their investment risks.

The monthly C, F, and G Fund returns represent net earnings after deduction of accrued administrative expenses. The C and F Fund returns also reflect the deduction of trading costs and accrued investment management fees.

The C, F, and G Fund monthly returns are dollar-weighted: they reflect net earnings on the changing balances invested during the month. The C, F, and G Fund returns for the last 12 months assume, except for the crediting of earnings, un-changing balances (time-weighting) from month to month and that earnings are compounded on a monthly basis.

Orders for direct delivery to mailers cannot be placed by the Touch Tone Order Entry (TTOE) system.

When the standing order has been processed, a stamped card will be mailed to the FEDSTRIP address with the following message: "Item no. _____ Qty. _____ will be shipped every _____ days." The maximum number of periods an item will be shipped is one year from the date of the first order.

If a mailer wishes to change an existing order (quantity, frequency, address), the ordering postal facility must contact Materials Customer Service to make the change. Do not direct mailers to call Materials Customer Service to place orders or to change existing orders.

Disposal of Sensitive Property — Sale of Security Containers, PSINs 293–299

All postal installations are reminded that Postal Service items (PSINs) 293–299, security containers, must be controlled, and their disposition must be directed by the Inspection Service. For reference, see Handbook AS-701, *Material Management,* chapter 6.

Sales of security containers outside the Postal Service must not be made. A security container that has been determined to be unserviceable must have its door taken off and the lock removed, and the door must be cut up. The whole unit is then sold as scrap. The local postal inspector in charge must approve any exceptions.

REVISED RETAIL PUBLICATION

Retail Vending Operational and Marketing Program

In June, the revised Handbook PO-102, *Self Service Vending Operational and Marketing Program,* was distributed to all SSPC technicians, SSPC tech unit supervisors, area and district retail managers, retail specialists, and to the material distribution center (MDC). This revised handbook provides policy and guidance on day-to-day vending operations management. Developed by field and headquarters personnel, this manual helps to serve the more than 13,000 servicing employees nationwide. This handbook is one of Retail's "MarketBasket" tools to help you serve the 7 million retail customers each day.

Major changes in the handbook include updated forms, clear and concise instructions, and an easier to read format. The handbook also provides policy and guidance in conducting credit examination, equipment placement, and procedures for handling customer responses. The handbook will assist in managing the nearly 23,000 vending locations nationwide.

Handbook PO-102 is accessible on the Corporate Intranet at *http://blue.usps.gov* (click on "Information," then "Policies and Procedures," then "Handbooks," then either "By Document ID Number" or "By Title," and then scroll down to the desired publication). It is also available on the Retail Internet at *http://retail.usps.gov* (click on "MarketBasket," then "MarketBasket Tools Matrix").

Employees may requisition copies of this handbook as follows:

REVISION

Instructions for the PBSM-624 and Revision to Handbook MS-139

This article provides important information and instructions about the PBSM-624 vending machine and how to properly close the coin distribution chute door before closing the door assembly.

When the PBSM-624 door assembly is open, the technician accesses the coin hoppers for servicing by opening the coin distribution chute door and pulling out the coin hoppers. When service has been completed, the technician must return the coin distribution chute door to the up and latched position. If this is not done, the following problems can occur:

a. The coin distribution chute door can be bent and damaged when the door assembly is closed.

b. Coins will not be routed to the coin cup but will fall to the bottom of the vending machine.

c. Loose coins in the machine may fall or bounce into various electronic assemblies and cause electrical shorts, damaging the machine and possibly injuring customers.

Effective August 26, 1999 Handbook MS-139, *Postal Booklet and Stamp Machine PBSM-624*, is therefore revised as follows:

Handbook MS-139, *Postal Booklet and Stamp Machine PBSM-624*

6	• Ensure that the Coin Distribution Chute Door is up and latched in the proper position before closing the PBSM-624 door assembly to lock the machine.
	• Turn T-handle counter clockwise (to the left).
	• Close door, and turn T-handle clockwise (to the right).
	• Push the T-handle into its recessed area.

Future editions of Handbook MS-139 will include this revision.

Also, Maintenance Management Order # MMO-042-99 was distributed June 1, 1999, inclusive of but not limited to area retail managers, district retail managers, and retail specialists/ vending coordinators. Please ensure that all self service postal center technicians (SSPC techs), servicing personnel, and area maintenance technicians (AMT) receive this notice.
