UNITED STATES POSTAL SERVICE®

Dear Fellow Postal Employee:

Recent alarming swings in the stock markets have taught us all a valuable lesson — no matter how profitable any such investment may appear, it does not guarantee us a secure future.

Purchasing U.S. Savings Bonds through payroll deduction does guarantee the start of a personal savings program for you and your family. A personal savings program that includes Savings Bonds is a smart addition to retirement programs like Thrift Savings Plans and individual retirement accounts, and it can be an excellent way to save for your child's or grandchild's college education.

There is even more good news: The interest rate on Savings Bonds just jumped from 5.19 percent to 5.73 percent for the next six months. You pay no state or local income taxes on Savings Bond interest — and no federal tax until you cash the Bonds. And saving through payroll deductions makes saving easier.

More than 240,000 postal employees enjoy these advantages and more because they invest in U.S. Savings Bonds regularly through payroll savings programs. If you are not already enrolled, take a moment to read the information on pages 76–77 of this *Postal Bulletin* and return your completed authorization form before July 4. If you already are enrolled, this is the time to consider increasing the amount you save.

You can get more Savings Bond information on the Internet at *http://www.savingsbonds.gov* or by calling 1-888-588-BOND. Please take time now to consider this savings program for life.

Sincerely,

WILLIAM J. HENDERSON
POSTMASTER GENERAL, CEO

Domestic Mail

DMM REMINDER

Standard Mail (A) Rate Marking Requirements

Mailers and employees are reminded that effective January 10, 2001, all regular rate Presorted and Enhanced Carrier Route (ECR) Standard Mail (A) must bear the "Presorted Standard" rate marking (or the authorized abbreviation "PRSRT STD") and may no longer use "Bulk Rate" (or "Blk. Rt."). Additional required markings used to identify automation or specific carrier route rates are not affected by this change.

There are no changes to the marking requirements for Nonprofit and Nonprofit ECR Standard Mail (A) mailings. Those mailings must continue to bear the marking "Nonprofit Organization" or one of the two authorized abbreviations ("Nonprofit Org." or "Nonprofit").

The marking change was part of the R97-1 omnibus rate case. This standard was first published on July 14, 1998, in the *Federal Register* and again on July 30, 1998, and November 12, 1998, in the *Postal Bulletin*. All of the notices explained the reason for the change, notified mailers that they could begin using the new marking immediately, and announced a two-year transition period beginning January 10, 1999, to comply with the requirement.

All employees who accept Standard Mail (A) mailings should remind mailers who have not already made the change about the approaching deadline. The standards for all rate markings can be found in *Domestic Mail Manual* (DMM) M012.

Questions regarding this rate marking change should be directed to the district manager, business mail entry.

NEW BARCODED LABELS

Special Services Information Package

New efforts are under way to increase the awareness and use of the new barcoded special services labels. Use of the new labels is the final key that will enable the Postal Service to start electronically storing and retrieving delivery and signature records. As of May 15, the saturation survey shows we are at 44.2% nationally. In an effort to further encourage customers to begin using the new barcoded special services labels, an information package was provided to postmasters, station and branch managers, district managers, area retail managers, and district retail managers. The package included two lobby tent cards, a "New Label Alert" flyer for customers, a service talk to be delivered to all employees, and a swing/workroom poster. If you have not done so, please display the tent cards and the swing/workroom poster in their appropriate venues immediately.

REVISION

Special Services Barcoded Labels

The following forms have been redesigned to include barcodes: PS Form 3800, *Certified Mail Receipt;* PS Form 3813-P, *Receipt for Insured Mail — Domestic–International;* PS Form 8099, *Receipt for Recorded Delivery;* and PS Form 3804, *Return Receipt for Merchandise.*

Two versions of these forms have been issued: July 1999 and February 2000. The February version was designed to eliminate confusion over which name and address to insert in the address block. As it turns out, adding the words "Recipient's Name" has not cleared up the confusion. Some customers are still entering their own name and address in the address block. Also, the words "to be completed by the mailer," located on the first line of the address block, indicates to some customers that they should enter their own address instead of the recipient's. To eliminate this confusion, the entire first line of the address block, "Recipient's Name (Please Print Clearly) (To be completed by mailer)," is being eliminated from all four forms and replaced by the words "Sent To." (See example of changes below.)

May 2000

This entire first line will be deleted and replaced by the words "Sent To."

Note: The May 2000 version of these special services forms will not be issued by the material distribution centers until the current inventory of the July 1999 and February 2000 forms is exhausted. *The July 1999 and February 2000 forms are still valid.* Offices should continue to use these versions until their supplies are depleted.

— Special Services, Core Business Marketing, 6-1-00

Carrier Release Program

The Carrier Release Program was designed to increase customer convenience and satisfaction surrounding the delivery of both Standard Mail (A) and Standard Mail (B) parcels. It allows letter carriers to leave uninsured parcels in a safe location protected from the weather when no one is available at the address to receive the parcel. There are no restrictions regarding size or sub-class of the parcel, only that the mail is not accountable.

This program is based on our assumption that carriers know their customers and their neighborhoods. We still believe this to be true, but we remind you that the mailer's choice, by requesting this service, is that we leave the parcel if at all possible. The recurring issue for the mailers who use this service is convenience to their addressees. Two Carrier Release customers, Amway and Omaha Steaks, have indicated that they can actually lose customers when PS Form 3849, *Delivery Notice/Reminder/Receipt,* is left instead of the parcel.

Carrier Release parcels are accompanied by an endorsement from the mailer that states "Carrier — Leave if No Response." The endorsement may be printed on the parcel by the mailer; or label 235, *Carrier Release,* may be applied at the retail counter.

Carriers are not liable for loss or damage under these circumstances. Mailers are aware that there are risks associated with this type of delivery but have accepted the risks as reasonable. Carriers use their judgment and experience to decide if an area is reasonably safe and protected to determine whether to leave the parcel.

Fraud Alert

Counterfeit United States Postal Money Orders

Recently, the United States Postal Service has been victimized by a number of individuals who presented counterfeit POS ONE–style postal money orders for cashing in various states, including New York, Virginia, North Carolina, and Florida. The counterfeit money orders were copied from original money orders purchased at post offices, stations, and branches in the greater New York metropolitan area. Several of the counterfeit money orders were recently seized, and several arrests were made.

Suspects were successful when window clerks did not follow proper authentication and cashing procedures. Window clerks should examine the document security features (see below) on every postal money order presented for cashing and also check that money orders do not appear on the list of "Missing, Lost, or Stolen U.S. Money Order Forms" published every two weeks in the *Postal Bulletin.* Additionally, proper positive identification must be obtained from customers before cashing any postal money order.

Document Security Features

Before cashing any postal money order, it must be examined for the following security features:

1. Check the most recent list of "Missing, Lost, or Stolen U.S. Money Order Forms" published in the *Postal Bulletin.* A text version can be viewed or downloaded from the St. Louis Accounting Service Center Web page, *http://blue.usps.gov/stasc.* You can also type "Postal Money Orders" in the search field of both the Postal Service's internal and external Web sites. The file is updated daily.
2. Check for altered dollar amounts by holding the postal money order up to the light.
3. A Ben Franklin watermark portrait appears on the left side of the money order.
4. A silver thread is woven into the paper on the left side of the document from top to bottom, containing "USPS" on the thread.
5. The United States Postal Service shield appears on the right side of the money order.
6. Any postal money order starting with the digit "6" will either look similar to the description of the money orders above or will feature the following:
   - The dollar and check writer amounts will appear in black instead of the violet to red coloration.
   - A wider silver thread will be woven into the paper, with "USPS" on the thread.
7. Any postal money order starting with the digit "3" or lower will be beige with a solid beige bar at the top (except for Military Postal Money Orders, which have a solid dark green bar on the top) and will not necessarily be the size of a personal check. The serial number, issue date, issue ID, and issue amount will appear in black.
8. Any postal money order that starts with the digit "4" will be a multicolor form, changing from beige to blue when reviewing from left to right, with a solid green bar at both the top and the bottom of the document. The serial number, issue date, and issue ID will appear in red, while the dollar amount and the check writer amount will be colored in violet to red (examining from left to right).
9. *The maximum issue amount for any postal money order is $700.00. Never cash a money order for a higher amount.*
10. Obtain at least two forms of positive identification, including at least one photo identification document such as a valid state driver's license.
11. If, after examining the postal money order, you are unsure as to whether or not to cash it, contact your supervisor.

When It Looks Like Fraud

If you suspect a postal money order may be counterfeit, missing, lost, stolen, or altered, *do nothing that would place yourself or others in jeopardy.* Ask the customer for two forms of positive identification, including one valid photo identification such as a state driver's license. If possible, retain the identification documents and the postal money order form(s) presented. *But return the items if necessary to ensure your personal safety.* Lock your cash drawer and advise the customer that you have to obtain the cash from the rear of the office. Immediately contact your local law enforcement agency and the nearest office of the Postal Inspection Service. Give a full description of the suspect(s) and of any suspect vehicle, particularly the license plate number, if possible. Do not return to the screenline area until the police or postal inspectors arrive and it is safe to do so.

An Important Partnership

For over 200 years, the United States Postal Service has continued its proud tradition of protecting postal employees, postal property, and postal revenue. Most importantly, the Postal Inspection Service works to protect all postal employees so they can continue to perform their jobs without the fear of coming under criminal attack. Postal employees complete the partnership by helping us apprehend those individuals who seek to harm them or the Postal Service.

The United States Postal Service offers a reward up to $10,000 for information and services leading to the arrest and conviction of any person for offenses involving postal money orders. These offenses include theft or possession of stolen money orders or any Postal Service equipment used to imprint money orders and altering, counterfeiting, forging, unlawful uttering, or passing of postal money orders.

If you have any questions, contact the nearest office of the Postal Inspection Service.

REMINDER

International Mail — Customs Forms Usage

Canada Post Corporation (CPC) continues to receive significant numbers of United States–originating packages that do not bear the required customs form information. This situation is seriously impeding the ability of Canadian customs authorities to determine whether individual mailpieces are compatible with Canadian import regulations and whether mailpieces are susceptible to duty assessment. It is also causing delayed delivery of the affected items. See page 50 of *Postal Bulletin* 21972 (5-21-98) and page 37 of *Postal Bulletin* 21991 (2-11-99) for previous customs forms reminders.

Postal customers tendering packages for delivery in Canada must adhere to the customs form requirements that are specified in section 123.6 of the *International Mail Manual* (IMM). Accordingly, when a potentially dutiable article is presented for mailing, the USPS acceptance employee must make certain that the sender has fully complied with the regulations by affixing a properly completed customs form to the mailpiece (either PS Form 2976, *Customs — CN 22 (Old C1) and Sender's Declaration*, or PS Form 2976-A, *Customs Declaration and Dispatch Note CP 72).* Any package lacking the required customs form may be subject to return by Canadian customs authorities.

See section 123.7 of the IMM for a detailed description of the sender preparation, employee acceptance, and enveloping procedures that govern the use of PS Forms 2976 and 2976-A on international mailpieces.

STAMP ANNOUNCEMENT 00-31

Legends of Baseball Commemorative Stamps

Copyright USPS 2000

The Postal Service will issue the $6.60 *Legends of Baseball* Classic Collection pane of twenty 33-cent commemorative stamps (Item Number 560300) in Atlanta, GA, on July 6, 2000. The stamps, designed by Phil Jordan of Falls Church, VA, and illustrated by Joseph Saffold of Savannah, GA, go on sale nationwide July 7, 2000. Working from historic baseball photographs, Joseph Saffold created the stamp art with Prismacolor pencils and airbrushed acrylic and oil paints. Verso text, describing significant achievements in the baseball careers of each player, appears on the back of the stamp pane liner.

With the issuance of this Classic Collection stamp pane, the Postal Service, in partnership with Major League Baseball, honors 20 legendary baseball stars. Taken from Major League Baseball's 100 nominees for the All-Century Team, they occupy a unique and important place in the history of our national pastime. Ten players appearing on this pane went on to become members of the All-Century Team: Ty Cobb, Lou Gehrig, Lefty Grove, Rogers Hornsby, Walter Johnson, Christy Mathewson, Jackie Robinson, Babe Ruth, Honus Wagner, and Cy Young.

All of the individuals pictured on the stamp pane are members of the Baseball Hall of Fame. Two Negro Leagues greats are included, Josh Gibson and Satchel Paige, who had brief Major League Baseball careers. Also appearing on the stamp pane are Roberto Clemente, Mickey Cochrane, Eddie Collins, Dizzy Dean, Jimmie Foxx, George Sisler, Tris Speaker, and Pie Traynor.

Four of the players have appeared on previous postage stamps: Jackie Robinson (1982 and *Celebrate The Century 1940s*), Babe Ruth (1983 and *Celebrate The Century 1920s*), Roberto Clemente (1984), and Lou Gehrig (1989).

Migratory Bird Hunting and Conservation Stamps

The $15 Migratory Bird Hunting and Conservation stamp for the 2000–2001 hunting season goes on sale nationwide July 1, 2000, and will remain on sale through June 30, 2001. The Department of the Interior will formally issue the stamp at the National Postal Museum in Washington, DC, on June 30, 2000.

The Migratory Bird Hunting and Conservation stamp will be issued in two formats — the traditional gummed version and a self-adhesive federal duck stamp single. The stamp size of the self-adhesive version is the same size as the gummed version and can be peeled from its carrier sheet, which is the size of U.S. paper currency and fits easily in cash drawers. *Postmasters should order enough of Item Number 332300 and 332400 to meet the expected appreciable demand for this item by stamp collectors and the general public.*

Distribution

Post Offices. To allow postmasters to order the 2000–2001 Migratory Bird Hunting and Conservation stamps in quantities approximating customer demand, the minimum ordering quantity for both formats is five stamps. However, when practical, postmasters should order full panes of 20 stamps for the gummed version. Postmasters should review their records to determine the average number of Migratory Bird Hunting and Conservation stamps previously sold and use this information to determine the appropriate number of the 2000–2001 stamps to requisition, rounded up to multiples of five or 20 stamps.

Postmasters must immediately send a separate PS Form 17, *Stamp Requisition,* to their stamp distribution offices (SDOs) for enough Migratory Bird Hunting and Conservation stamps (self-adhesive version, Item Number 332400, and/or gummed version, Item Number 332300) to last until February 29, 2001. If the initial supply is exhausted before February 29, 2001, postmasters must requisition an additional supply. Postmasters with philatelic centers should order both formats and have them available to meet philatelic demand. Postmasters must ensure that Migratory Bird Hunting and Conservation stamps are available to meet public demand.

Stamp Distribution Offices. SDOs must review their inventory records for past issues and postmaster requisitions records for the 1999–2000 Migratory Bird Hunting and Conservation stamps to determine the quantity of the 2000–2001 Migratory Bird Hunting and Conservation stamps needed.

SDOs requiring gummed stamps (Item Number 332300) or self-adhesive stamps (Item Number 332400) in bulk quantities should requisition them from the Bureau of Engraving and Printing using PS Form 3356, *Stamp Requisition — Bulk Quantities.* Order Item Number 332300, gummed stamps, in quantities of 2,000, 4,000, 6,000, 8,000, 16,000, 24,000, and 32,000 stamps and in multiples of 48,000, to a maximum of 432,000 stamps per requisition. Order Item Number 332400, self-adhesive stamps, in quantities of 1,000, 2,000, 3,000, 4,000, and 8,400 stamps and in multiples of 8,400, to a maximum of 42,000 stamps per requisition.

SDOs requiring fewer than 2,000 gummed or 1,000 self-adhesive stamps must send PS Form 17 to their accountable paper depository.

Hunting Regulations Pamphlets

The Department of the Interior does not automatically distribute pamphlets on hunting regulations because migratory game bird laws vary by state. Direct inquiries about hunting regulations to the state fish and wildlife agency or state department of natural resources. Do not forward to the federal U.S. Fish and Wildlife Service. Poster 3-124, *Waterfowlers Attention* (July 1992), is no longer available.

Pictorial Cancellations Announcement

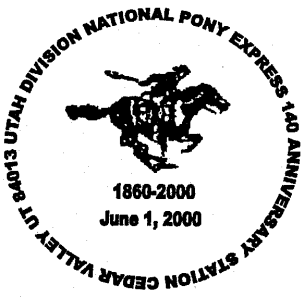

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary post office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial cancellation date*.

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage (33 cents per envelope or 20 cents per postcard). Items submitted for cancellation may not include postage issued after the date of the requested cancellation. Such items will be returned unserviced.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

After applying the pictorial cancellation, the Postal Service returns the envelope or postcard through the mail. Customers who want their serviced item returned under protected cover should include a larger, stamped, self-addressed envelope.

RIF Competitive Areas for the U.S. Postal Service

Federal regulations and guidance from the Office of Personnel Management require agencies covered by reduction-in-force (RIF) procedures to establish Competitive Areas and to publish a list of those Competitive Areas for their employees. Competitive Areas are organizational units under separate management authority within which preference-eligible employees compete during a reduction in force. Savings Bonds Campaign Focuses on Security, Saving for the Future

The 2000 U.S. Savings Bonds Campaign, which runs through July 4, offers postal employees a safe and secure way to establish a personal savings program while helping their country.

The Savings Bonds interest rate has just been increased from 5.19 percent to 5.73 percent through October. The interest on Savings Bonds is not subject to state or local income taxes and is subject to federal taxes only when Savings Bonds are cashed. And there are methods that allow Bonds purchasers to save on behalf of their children or grandchildren, tax-free.

Payroll deduction provides an easy, disciplined way to acquire Savings Bonds. Allotments can be as small as $3.75 per pay period on Savings Bonds with face values as low as $100. Savings Bonds can be cashed anytime after six months from their issue date.

All postal employees have been mailed Savings Bonds applications and information. Persons who have not received their mailing or desire more information may consult their district Savings Bonds coordinator, log on to the Internet Web site *http://www.savingsbonds.gov,* or call 1-888-588-BOND.

— Pricing and Product Design, 6-1-00

It's tough to have anything left over from your paycheck. Saving money is difficult. That's why you should look into the Payroll Savings Plan for U.S. Savings Bonds. Pay yourself first and earn competitive interest rates.

Look for the enrollment form in the mail or call toll-free 1-888-588-BOND, or visit the Postal Service Intranet <http://blue.usps.gov>.

Vending Machines Removed From Service

Effective immediately, the following vending machines are *obsolete.* This means they will not receive any support from maintenance support organizations. This action is taken because these machines operate with coins only, and they have exceeded their expected life cycle. The machines are:

- PS-53C Stamp Vendor
- PBM-2 Booklet Vendor

When a PS-53C or PBM-2 is removed from service, the site must remove all parts listed below. The maintenance stockroom then must evaluate usage of these parts and retain sufficient stock on hand to cover local demand. Once the maintenance stockroom determines it has sufficient inventory to cover local demand, the stockroom must complete and submit a return authorization (RA) request (see Repair Parts Bulletin 1M-011-98 for guidelines) to the Topeka material distribution center.

The following parts from the PS-53C may be used in the PS-53Cmod and the PS-53D, and the parts from the PBM-2 may be used in the PBM-2A and the PBM-6.

When the RA is received in Topeka, it will be evaluated and a determination made whether additional float stock is required for the national inventory. Each line item on an RA will be evaluated.

Once a reply is received from Topeka regarding the disposition of available parts, the PS-53C and PBM-2 machines are to be disposed of using a local recycling company. Each office should negotiate reasonable fees with the recycling firm.

In addition, Small Currency Changer SCC-3 is declared obsolete and will not receive any support from inventory control or maintenance support organizations. The elimination of these three pieces of equipment will remove all coin-only operated equipment from our inventory.

Customer sweepstakes

Gear up

Postal customers get a chance to win sports gear or possibly a trip to France in the *VISA/USPS Tour de France Sweepstakes* promotion beginning this month. VISA® is also a sponsor of the USPS Pro Cycling team.

The objectives of the promotion are to encourage the sale of postal products and to increase credit card usage for postal retail transactions. Credit card transactions are processed at about half the cost of cash transactions.

During the sweepstakes, which begins June 19 and ends September 15, each customer is automatically entered whenever a postal purchase is made with a VISA credit card. However, no purchase is necessary since customers can also enter by calling a toll-free number – 1-877-578-8683.

All retail units that accept credit cards must post sweepstakes information and official rules.

Look for more information in the spring and summer/fall 90-Day Retail Calendar, the new *Ready, Set, Retail* Guide for managers, kit packs, and employee publications.

Prizes and promotional material for the sweepstakes are being provided by sponsors of the USPS Pro Cycling Team at no cost to the United States Postal Service.

CPSC Recall product notices

Look for notice

A new product recall notice will be inserted in the summer/fall drive period kit for placement in the box lobby zone on June 19. In a continuing effort with the Consumer Product Safety Commission, Retail Marketing will serve as the messaging vehicle for these important consumer updates on unsafe products. Any questions or concerns should be directed to Maria Pell via CC:mail.

PMGG expanded

More countries, new rates

On May 28 *Priority Mail Global Guaranteed*™ (PMGG) international expedited service was expanded to more than 200 countries from approximately 10,000 postal retail offices. Additionally, there are new multiple rate groups based on weight and destination. A half-pound package can now be sent to Canada or Mexico for as little as $20 or to Singapore for $24. PMGG is an international expedited document service designed to meet customer needs for guaranteed day-certain delivery with tracking and tracing capability. It provides market-tested value in terms of both price and service.

The same PMGG label will be used, and the new *Service Guide* provides reference for countries and cities served and for allowable contents. There may be variations as to what other countries classify as documents, and other countries may have different weekend days or holidays. Acceptance clerks must remember that PMGG is transported out of the United States, cleared through commercial customs at destinations, and delivered by DHL Worldwide Express. Customers should be informed of the guaranteed delivery day and price.

You'll find more information about this expansion of delivery in the May 18 *Postal Bulletin*. Plans for further enhancements to PMGG service are forthcoming. If you have questions, refer to the PMGG *Service Guide* or your district coordinator, and check the Web site at: *www.pmgg.usps.com*.
