### COD Money Orders

The Money Order Center, Kansas City, Mo., has reported that frequent errors are being made by postmasters in preparing money orders in payment for COD shipments of Fashion Frocks, Inc., Cincinnati, Ohio, and Florida Fashions, Orlando, Fla. The irregularities, which caused considerable confusion when not detected by the firms, are:

1. Money orders, while drawn in favor of the proper firm, are sent to the other mailer.
2. Money orders are improperly drawn in favor of the firm which is not the mailer of the COD package, but are sent to the mailer.

Particular care must be taken to assure that all COD money orders are correctly drawn and sent to the proper payees. In addition to the two firms named above, there may be other instances where COD mailers' names are somewhat similar, a condition which could lead to the type of irregularity described unless the employees concerned exercise caution.—Bureau of Operations, 12-3-59.

### Christmas Manpower Utilization

The condition of our appropriated funds makes it imperative that we operate as economically as possible.

Unless absolutely necessary to avoid delays to mail, seasonal assistants or overtime should not be used prior to **Monday, December 14**, and thereafter only when fully justified. Also, care should be exercised not to extend window service until public need is fully demonstrated.

It is hoped that increased effort and close supervision will result in at least a 2 percent efficiency gain over last year in all man-hour expenditures for the month of December.—Bureau of Operations 12-3-59.

### Gross Postal Receipts for Calendar Year 1959

#### I. Introduction

Postmasters will submit again this year a special statement of account using Form 1555, *Statement of Account—First-Class Post Office (RS-FI-12)*, or Form 1553, *Statement of Account—2d-, 3d-, and 4th-Class Offices (RS-FI-24)*, as applicable, showing the actual cumulative amounts in their cash books for all accounts as of the close of business December 31, 1959. Regional controllers will use these amounts together with authorized deductions for outside sales in adjusting gross postal receipts for calendar year 1959 to exclude the effect of rate increases as required by Public Law 85-426.

## Gross Postal Receipts for Calendar Year 1959

(Continued from p. 1)

### II. Special Statement of Account for Computing Gross Postal Receipts

A. Prepare special statement of account as indicated and mail to reach regional controller not later than January 6, 1960.

Class of office	Use Form No.	Period covered
1.....	1555.....	12/12/59-12/31/59.
2-3-4.....	1553.....	10/17/59-12/31/59.

Complete front of statement of account and sign certification on reverse. Do not attach any supporting papers to the special statement; these will be submitted as usual with the regular statement of account covering the full period (1st-class offices) or quarters (2d-, 3-, and 4th-class offices) ending January 8, 1960. Follow instructions in Postal Manual 425.3 regarding inventory of stamp stock. First class offices that have taken an inventory within 5 days of December 31, may determine total stamp stock by running totals of Forms 3295 and 3367 instead of actually counting the main stock.

B. Postmasters are also reminded to prepare Form 1568, *Outside Sales Report* (RS-OP-30) where required and submit to regional postal installations manager as prescribed in Postal Manual 321.75.

### III. Adjustment to Gross Postal Receipts

A. For information of postmasters, the basis on which gross postal receipts for calendar year 1959 will be adjusted by regional controllers to eliminate the effect of rate increases is as follows:

Class of office	Adjusted receipts will be:
First.....	82% of actual receipts.
Second and third.....	81% of actual receipts.
Fourth.....	82% of actual receipts.

B. The above adjustment factors that will be used to exclude the effect of the new postal rates in computing 1959 gross receipts, are averages developed on a national basis for the groups of offices. Where the revenue at an office is derived predominantly from a class or type of mail which would produce more or less than the
