Armed Forces Day

The tenth annual observance of Armed Forces Day will be celebrated on Saturday, May 21, 1960.

During the period May 14-22, 1960, "open house" will be observed at many military installations throughout the Nation. These events will give every American the opportunity to visit and inspect units of the Army, Navy, Air Force, Marine Corps, Coast Guard, and Reserve components.

I urge all postal employees to join in this annual tribute to the men and women of the Armed Forces.

Arthur E. Hummer, Jr.

The Postmaster General.

Erroneous Use of LA Locks on Dispatches To Canada

Canadian postal authorities continue to report receipt of sacks and pouches locked with LA locks. Since the Canadian exchange offices are unable to open U.S. locks, it is necessary for them to cut the seams of locked bags to remove the mail.

All pouches and sacks made up for dispatch to Canada must be closed with tin-band or lead-cord seals in the case of surface mail, and the domestic airmail seal in the case of airmail. Instructions on the use of seals are published in regional General Orders and airmail bulletins.

Postmasters and mobile unit supervisors making dispatches to Canada will take necessary steps to assure that locks are not used for such dispatches.—*Bureau of Transportation, 5-5-60.*

*All Post Offices***International Mail—Export License Requirements**

The Department of Commerce advises that many packages are being mailed to other countries in violation of Part 252, Postal Manual, which relates to the licensing of mail shipments by the Bureau of Foreign Commerce. Widespread disregard of these regulations by mailers and by post offices is resulting in unlawful exportations of electronic equipment and other restricted commodities, and in the mishandling of validated licenses.

All parcel post and postal union mail packages, except those addressed to Canada to which export controls do not apply and those containing only printed matter under general license, are required to bear export-control markings applied by the mailers, as follows:

(1) Each package containing merchandise mailed under a general license must bear the general license symbol and the words *Export license not required* (see 252.2).

(2) Each package mailed under a validated license must be marked with the license number, and in addition the mailer must surrender the license or an authenticated export declaration in lieu thereof at the time of mailing (see 252.3).

It is the duty of window clerks and employees who process platform mailings to examine for export-control indicia all parcel post and postal union mail packages addressed to countries other than Canada. If the package does not bear indicia and contains merchandise other than printed matter, the mailer should be informed of his obligation to ascertain the type of license applicable to his shipment (see 252.1), and the package should not be accepted until he marks the wrapper appropriately. However, packages in transit are not to be withheld from dispatch for lack of export-control markings.

Postmasters will see that employees concerned are familiar with the foregoing regulations and apply them without exception.—*Bureau of Transportation, 5-5-60.*

Postmasters at postal installations where maintenance contracts are necessary must secure contracts for the 1961 fiscal year on the new forms.

An initial supply of the revised forms should be requisitioned from area supply centers on Form 4750, *Special Requisition for Supplies*, using titles listed below:

Standard Forms 33 and 36, *Invitation, Bid and Award, Overprinted for Servicing and Maintenance of Government-Owned 3-Wheeled Vehicles.*

Form 4525-C, *Abstract of Bids—Servicing and Maintenance of Government-Owned 3-Wheeled Vehicles.*

Cash Receipt Forms

The employee in charge of the office in absence of the postmaster may requisition receipt Forms 3544, 3603, and 1538 from supply centers.

This amendment does not change control of and accounting for the forms once they are received by the requisitioning post office. Section 431.21, Postal Manual is being amended.—*Bureau of Finance, 5-5-60.*

*All Post Offices***Counterfeit Currency**

The United States Secret Service, Treasury Department, has announced the appearance of the following new counterfeits:

A \$10 note on the Federal Reserve Bank of New York, series 1950B, check letter and face plate No. F 397, back plate No. 1602.

This note is printed on one sheet of paper that is approximately the same thickness as genuine distinctive paper. No attempt was made to simulate the red and blue fibers. The lettering and details of the Treasury Seal and the serial numbers are very poorly reproduced. The back is printed in a favorable shade of green. The shading lines on the Treasury Building, in the sky effect and in the foreground area are all reproduced as green dots.

A \$10 silver certificate, series 1934C, serial number B 37291085A, check letter and face plate No. E 218, back plate No. 1629.

This note is printed on one sheet of paper that is slightly thicker than genuine distinctive paper. No attempt was made to simulate the red and blue fibers.

The face of the note is too dark. Many of the shading lines are missing in Hamilton's portrait, particularly on his forehead and in his hair. The shading above his eyes is solid black. His coat collar is almost solid black. The serial numbers and Treasury Seal are printed in dark blue and are well executed.

A \$10 note on the Federal Reserve Bank of San Francisco, Series 1950 A, serial number L 91197498 A, check letter and face plate No. M 201, back plate No. 1604.

The lathework and Hamilton's portrait have an overall dark appearance. There are irregular spots on his lower lip. The detail lines beneath his chin have merged into a black area and blend into the coat collar. On the back of the note very little of the sky effect is reproduced.

A \$20 note on the Federal Reserve Bank of New York, Series 1950 A, serial number B 85143670 B, check letter and face plate No. A 108, back plate No. 889.

Jackson's portrait is very poorly reproduced. Many of the shading lines are missing and those reproduced are ragged irregular dots or

*All Post Offices***General Delivery Service**

It has come to our attention that travelling businessmen are experiencing difficulty with general delivery service at post offices throughout the country. When these men call for mail, clerks inform them, without checking the case, that no mail has been received when, in fact, the mail has been on hand for several days; later the mail is returned to the company. General delivery forwarding orders are not being observed and postal employees are indifferent to the problems of these travelling men.

Postmasters are requested to take the necessary action to assure themselves that general delivery mail is being handled properly and to impress upon all employees their obligation to provide efficient, prompt and courteous service to all patrons.—*Bureau of Operations, 5-5-60.*

*All Post Offices Maintaining Philatelic Sales Windows***Commemorative Stamps Removed From Sale**

The following commemorative stamps were removed from sale in the Philatelic Sales Agency at the close of business May 4, 1960:

- 4¢ Lincoln-Douglas
- 4¢ Noah Webster
- 4¢ San Martin

Any stock remaining on hand of these items will be handled in accordance with Part 145.13a of the Postal Manual.—*Bureau of Finance, 5-5-60.*

lines. The numerals in the serial numbers are poorly formed and are not in alignment. Many of the points on the Treasury Seal are broken or missing.

A \$20 note on the Federal Reserve Bank of Chicago, series 1950 B, serial number G 47723073 A, check letter and face plate No. P 151, back plate No. 917.

Jackson's portrait is poorly reproduced and is very dark. His hair and face to the observer's right are solid black; also, the shading above his eyes and below his nose. The serial numbers and Treasury Seal are printed in a dark green. Many of the points on the seal are blunt or broken.—*Bureau of Finance, 5-5-60.*

*All Post Offices Selling Migratory Bird Hunting Stamps***Migratory Bird Hunting Stamps**

Postmasters at offices of the 1st and 2d classes as well as 3d- and 4th-class offices having a demand for the \$3 migratory bird hunting stamps shall submit requisition on Form 17, *Stamp Requisition*, to their regional distributing post office on or before May 15 for stamps of the 1960-61 series, to last until June 30, 1961.

Postmasters should order the new series stamp in sheets of 30, except that offices requiring lesser quantity may order 15 stamps.

The subject featured on the 1960-61 bird stamp is "Redhead Ducks"—a drake, hen, and four ducklings swimming in the reeds.—*Bureau of Facilities, 5-5-60.*

*All Post Offices and Postal Officials***Tort Claims—Standard Form 95**

It has been brought to the attention of the Department that postmasters and other postal officials are furnishing to potential claimants Standard Form 95 of the December 1947 series. Since this series of Form 95 does not provide for insurance information on the reverse side, all postal officials in charge are directed to discontinue the use of such series or any other series which does not provide for insurance information. Any of these forms presently on hand should be destroyed and a supply of the latest Standard Form 95 (June 1953) should be ordered from the supply center.—*Office of the General Counsel, 5-5-60.*
