15-Cent Air Mail Postage Stamp

The current 15-cent International Air Mail stamp is being redesigned to match the 10- and 25-cent denominations, with a vertical gutter between the pictorial portion and the value tablet to aid in the printing on the Giori presses. The redesigned 15-cent air mail stamp is being issued through the Buffalo, N.Y., post office, on January 13, 1961.

POSTMASTERS SHALL NOT PLACE THIS STAMP ON SALE BEFORE JANUARY 14, 1961

Size: 0.84" x 1.44"
Color: Black and orange
Unlimited printing

ISSUED IN SHEETS OF 50

To obtain first-day cancellations, collectors may submit requisitions to the Postmaster, Buffalo 5, N.Y. See Postal Manual 145.3. Selected mint stamps will be available at the Philatelic Sales Agency, Post Office Department, Washington 25, D.C., on and after January 14, 1961.

Requisitions for the new design 15-cent International Air Mail stamp should be submitted in the regular manner (USE ITEM 179); however, the Bureau of Engraving and Printing has been authorized to substitute the 15-cent International Air Mail stamp currently in use until the stock is depleted.—Office of the Special Assistant to the Postmaster General, 12-15-60.

All Postal Installations

Loss of Commission

Commission No. 1555. Dated 5-28-58. Issued to Arthur H. Adams, Field Services Officer.—Bureau of the Chief Postal Inspector, 12-15-60.

All Postal Personnel

Christmas—Happiness With Safety

This greatest holiday period of our year involves increased hazards to our safety to an appreciable degree. Postal employees with the increased workload and temporary personnel are particularly vulnerable during this period. Increased holiday traffic on our streets and highways, including more numerous pedestrians, makes motor vehicle safety highly significant at this time. Postal drivers can make an important contribution to the happiness of this holiday period if they not only cause no accidents but, by defensive driving, avoid accidents that would be the fault of others.

Let us each acknowledge that we are a part of the present state of safety and driving problems, both during work and off the job, and resolve to do our part to correct these conditions. Practice courtesy and join in making it contagious on our streets and roads. May we all work safely to make this a happy holiday for ourselves, families, and others in the true spirit of the season of Christmas and New Year.

The Postmaster General

1st- and 2d-Class Post Offices

Holiday Safety Poster

First- and second-class post offices will be furnished quantities of POD Poster 39, December 1960, HOLIDAY SAFETY. Immediately upon receipt, these posters should be placed on bulletin boards located in workrooms and swing rooms of the main office, stations, branches, and garages. Posters should be displayed during the entire Christmas and New Year's holiday period. Requests for additional posters will not be accepted.—Bureau of Operations, 12-15-60.

All Post Offices

Stolen Canadian Money Order Forms

The following blank Canadian money order forms have been reported stolen:

A-88,689,984 to A-88,689,999 inclusive

A-92,306,501 to A-92,306,700 inclusive

Notice of this theft must be added to the list of stolen Canadian forms at all points of payment.

If any of these forms are presented, the postmaster will refuse payment and notify the postal inspector in charge of his district.—Bureau of Finance, 12-15-60.

*All Postal Installations***Republic of the Congo—Parcel Post**

The Republic of the Congo (formerly Belgian Congo) is again in position to accept parcel post for all destinations in that country.

Surface and air parcels may therefore be accepted for mailing, effective at once, under the conditions prescribed under **Belgian Congo—Parcel Post** in the Directory of International Mail.—*Bureau of Transportation, 12-15-60.*

*All Postmasters***Retention and Disposition of Surplus Equipment Following Holiday Period**

In the special POSTAL BULLETIN of October 4, 1960, all postmasters were requested to withhold dispatches of surplus equipment until instructions are received for its disposition.

To insure an orderly return of empty mail bag equipment to depositories after the holiday season, the following instructions will govern:

Postmasters at offices of the 1st and 2d classes will withhold dispatches until January 31, 1961, when one-third of the accumulation of No. 1 sacks then on hand will be dispatched; on February 28 one-third of the quantity then on hand should be dispatched; and on March 31 the quantity then remaining should be dispatched; and on March 31 the quantity then remaining should be dispatched in small lots at weekly intervals. All surplus equipment other than No. 1 sacks should be released on December 31.

Postmasters at offices of the 3d and 4th classes will withhold dispatches of No. 1 sacks until January 15 if storage space is available; otherwise, the entire quantity on hand December 31 may be dispatched. All surplus equipment other than No. 1 sacks should be released on December 31.

Postmasters at offices where doubt exists as to the point to which the equipment should be dispatched or concerning the transportation media to be used, should contact their Mail Equipment Officers for instructions.—*Bureau of Transportation, 12-15-60.*

*1st-, 2d-, and 3d-Class Post Offices***Time Card Entries for Service Performed on Christmas Day**

Christmas Day (December 25) falls on Sunday this year. Eligible employees in PFS-7, or below, who are required to perform service on Christmas Day will be paid at overtime rates. See Postal Manual 755.135b. Accordingly, this service will be recorded in the *Overtime* and *Work Hours* columns on Form 1230, *Time Card* only.

Only in this one specific instance will the instructions concerning holiday service in Chapter V, *Timekeepers Instructions, Handbook Series F-21*, be disregarded. The *Other Leave* column on Form 1230 **must not** contain the customary "H-8" entry for Sunday, December 25.

An "H-8" entry **will** be made in the *Other Leave* column for Monday, December 26, for annual rate and hourly rate regular employees entitled to payment for this day. Service performed at premium rates by eligible employees on this holiday (December 26) will be reported on Form 1640, *Certificate For Additional Salary Payment*, in the same manner as is required for any other legal holiday falling on Monday through Friday. See 755.135b and 755.132, *Postal Manual*, and Chapter V, *Timekeepers Instructions, Handbook Series F-21*.—*Bureau of Finance, 12-15-60.*

*International Money Order Offices***Money Orders for Payment in Iraq**

The Department has been advised that the maximum amount of money orders purchased on any one day by the same person for payment in Iraq through the intermediary of the Postal Administration of Great Britain has been increased from 10 to 40 pounds. Postmasters and all employees concerned are cautioned, however, that when the amount to be transmitted exceeds \$100 two orders will have to be drawn.—*Bureau of Finance, 12-15-60.*

*All Postal Installations***Keys for Patrons Lock Boxes**

We have received information that in many instances box or drawer numbers have been stamped on keys for patrons lock boxes. In some cases, the numbers have been placed on the keys by the manufacturer of the lock box fronts. Lost keys bearing a box or drawer number are an aid to pilfering.

Effective immediately postmasters shall take steps to see that lock box keys bearing box or drawer numbers are removed from service **and at no cost to the boxholder**. The following procedures should be followed:

Section 351.261 of the *Postal Manual* requires all offices to keep one (1) spare key on hand at all times for immediate issuance to patrons. Check all spare keys on hand. If any of these keys have box or drawer numbers thereon it should be assumed that the keys held by the patron also have box numbers thereon. In these cases, first request replacement keys from the Mail Equipment Shops on POD Form 3915, *Lock Box Key Requisition*. When keys are received contact the patron by means of a *Request To Call* card (POD Form 1585), placed in his box, and thereafter effectuate the necessary exchange of keys. All keys with box numbers thereon should be sent to the Mail Equipment Shops for disposal. Transmit the keys by means of a Form 31 memorandum. In cases where boxes are not presently rented, keys therefor having box numbers thereon should be replaced by new keys requisitioned from the Shops, before renting the boxes. A constant watch should be maintained for the future on boxes surrendered by patrons to assure that any keys therefor having box numbers thereon are replaced. Offices receiving new equipment should check the keys before renting the boxes to assure that box numbers do not appear thereon. If replacement keys are needed request them from the Mail Equipment Shops.—*Bureau of Facilities, 12-15-60.*

All Post Offices

Counterfeit Currency

The United States Secret Service, Treasury Department has announced discovery of the following counterfeit notes bearing the facsimile signatures of Ivy Baker Priest and Robert B. Anderson:

Denomination	Federal Reserve Bank	Series	Serial No.	Check letter and face plate No.	Back plate No.
\$100	San Francisco	1950B	L04031277 A	R 26	137

The paper on which this note is printed is approximately the same thickness as genuine distinctive paper. There are red and blue fibers distributed throughout the paper. Franklin's portrait is fairly well executed. The shading lines are thin and are not as sharp and clean cut as the genuine. There are solid black areas above his right eye, at the outer edge and in the inner corner where the shading lines have merged. There is also an irregular black spot on the point of his nose where the lines have merged. Many of the shading lines in the ribbon background for "FRANKLIN", below the portrait, are missing. On the specimen examined there is a fine line extending at an angle from the base of the "A" to the top of the "S" in "FEDERAL RESERVE NOTE." The letters "N" and "D" in "TENDER" in the legal tender phrase are joined together. The fine outer border line along the top of the note is wavy and broken at the corner to the observer's right. This is a deceptive note.

Denomination	Federal Reserve Bank	Series	Serial No.	Check letter and face plate No.	Back plate No.
\$20	Chicago	1950B	G61824129 B	Q 175	895

No attempt was made to simulate the red and blue fibers of this note. Many of the shading lines are missing in the portrait. There are white areas in the hair at the top and to the observer's left where the lines representing the hair are not reproduced. The back of the note is very poorly reproduced in a dull light green. The windows and doors of the White House, as well as the trees and shrubbery, are solid green instead of alternate fine green and white lines. The obverse of this note is deceptive but the back is poor.—*Bureau of Finance, 12-15-60.*

All Post Offices

Israel—Prohibitions

The Postal Administration of Israel has removed its prohibition against coins and banknotes not of

Israeli issue. Israeli banknotes and securities are prohibited.

The Directory of International Mail will be amended.—*Bureau of Transportation, 12-15-60.*

All Post Offices With Special Alien Registration Die Hubs

Special Cancellation Alien Registration

Postmasters who have special cancelling machine die hubs reading "ALIENS MUST REPORT THEIR ADDRESSES DURING JANUARY" shall use them during the period December 26, 1960, through January 31, 1961. After that time they shall be withdrawn and retained for future use.

These special hubs were bought by the sponsors and furnished to post offices designated by them. Postmasters at offices which do not have the hubs shall not request them. Applications for special cancellations are made by the sponsors in accordance with 146.5, Postal Manual.—*Bureau of Operations, 12-15-60.*

All Post Offices

Seals or Stickers on Mail

In some cases private seals, stickers, or foreign stamps have been placed on the address side of mail instead of using U.S. postage stamps, and such mail has been processed and delivered without collection of the lawful postage.

The law in section 1725 of Title 18, United States Code, provides a fine of \$300 for knowingly or willfully depositing matter without postage in a letter box with intent to avoid payment of lawful postage.

Postmasters shall promptly take the necessary action to see that all employees engaged in the acceptance, collection, distribution, dispatch and delivery of mail are alerted to detect any instance where private stickers, seals, or any types of stamps are used on mail in such manner as to avoid payment of postage. Such short paid mail shall be handled in accordance with Part 147.12, Postal Manual.

It should be borne in mind that articles such as Christmas seals and other private stickers are permissible on mail if placed on the back of envelopes or outside the postage and address area on parcels. Foreign postage stamps may not be placed on the outside of articles mailed in this country.—*Bureau of Operations, 12-15-60.*

*All Post Offices***Excess Equipment**

Approximately 2,500 mailing cases and tables, Item 15-C, will become excess and available for transfer to other post offices shortly after the first of the year. These items have been replaced by mechanized equipment at large post offices. They can be used at large offices needing more separations in their mailing schemes or at smaller offices for a variety of uses, including mail separation, general delivery, forms storage, star route assistance, held matter or a combination of any of these uses. A description of the item is given below.

Mailing Letter Case and Table No. 15-C, 84 pigeon holes, 12 wide by 7 high; separations $4\frac{3}{4}$ " wide, $5\frac{1}{2}$ " high, 10" deep; closed back; overall dimensions $5' 1\frac{3}{16}$ " wide, $23\frac{1}{4}$ " deep, $5' 10\frac{1}{8}$ " high; the table ledge is 12" deep with linoleum top and end curbs. Most of the items are constructed of wood, finished in modern colors and are in good, serviceable condition.

Before requesting this item postmasters, especially those at the smaller offices, should carefully survey their space to make sure the case and table can be accommodated. Requisition should be made on Form 73 and sent to the postal installations manager for approval and reference to the Bureau of Facilities, Supplies Division, Property Disposal Specialist. Mention should be made on the requisition of this notice.—*Bureau of Facilities, 12-15-60.*

*All Postal Installations***Procedures for Establishing, Discontinuing and Changing Pouches, and Maintaining Records**

The following new system for establishment, change, and discontinuance of surface pouches and the maintenance of records is being inaugurated. The advantages are:

- A. Reduction in clerical operations from five to two.
- B. Elimination of four forms.
- C. Elimination of backlog of record maintenance in regional offices.
- D. Elimination of pouch orders.

E. Elimination of time lag between time of establishment of a pouch and the entering of such pouch in the records.

Explanation of New Procedure

A. A facsimile of a new Form 2346 is shown in this bulletin with detailed instructions for proper execution.

B. The general procedures for the use of the new form are:

1. The new form may be used as a request for pouch authorization (present Form 1634) or an authorization for a pouch. In the former case, for example, a postmaster may desire a new pouch to be established in which case he executes the form showing the office of origin (his own), the media by which the first dispatch will be made (SR, RPO, etc.) and its destination (labeled TO). Other data on the card will be completed as required listing the reason (establish, change frequency, or discontinue, or other).

After completion all copies of the form are forwarded to the Distribution and Traffic Manager in Regional Headquarters.

The Distribution and Traffic Manager on approving this pouch then tears the four copies apart sending the top, or white, copy to the office of origin the second, or pink, copy to the addressee, and retains the green and yellow copies for completion of his files.

In the event the Distribution and Traffic Manager initiates the pouch he then will execute the form and make the same distribution of the various copies as was explained above.

2. The two copies retained by the Distribution and Traffic Manager then become his pouch records. He will file the Alpha File (green copy) in his office of origin and the Media File (yellow copy) in his Transportation File.

3. Procedure for discontinuance or change. A change or discontinuance may be initiated by the originating postmaster or the Distribution and Traffic Manager. The change may be accomplished by completing the new form showing the new data and distributing the forms just as for a newly established pouch. The postmasters at office of origin and office of address will remove and destroy

the original order and replace it with the changed copy.

Receiving postmasters from both outside and inside the region of origin who desire to suggest an establishment, discontinuance or change of a pouch will complete the form for the suggested pouch and forward to the Distribution and Traffic Manager in their own region for proper handling. Distribution and Traffic Managers in receiving regions will forward forms to Distribution and Traffic Manager of region of origin for approval and issuance.

4. Procedures for the establishment, discontinuance, or change of pouches labeled TO and FROM Mobile Units—Postmasters having the administration of mobile units will upon receipt of a pouch change cause it to be printed in sufficient copies to assure all mobile crews will have a copy. (In many cases printing in order books will be sufficient.) Pouch orders will no longer be issued by regional headquarters.

Forms To Be Discontinued

A. Form 5351, *Record of Pouches Received* (other than local and accommodation).

B. Form 5352, *Record of Pouches Dispatched*.

C. Form 5353, *Record of Closed Pouches*.

D. Form 1634, *Request for Pouch Authorizations*.

E. Regional Pouch Order.

Implementation

Regional offices will, upon receipt of supplies of the form, forward a supply to each postmaster concerned within the region.

Postmasters will execute a form for each pouch they make of which the region requires a record. In this initial recording of pouches previously established, postmasters need *not* fill in the following boxes: (a) "Received by Destination Office Via," (b) "Frequency Receipt," (c) "Reason," (d) "Request."

In box entitled "Approval, Distribution and Traffic Manager" postmasters will insert "P.E." which will stand for *Previously Established*. Postmasters will then make distribution as follows:

A. Retain first copy in office.

B. If pouch is labeled to a post office send second copy direct. If

(Continued on p. 5)

Procedures for Establishing, Discontinuing and Changing Pouches, and Maintaining Records

(Continued from p. 4)

pouch is labeled to a Mobile Unit send all three copies to the Distribution and Traffic Manager.

Distribution and Traffic Managers will upon receipt forward second copy to postmaster having administration of the Mobile Unit and file

the remaining two in (1) Office of Origin File, (2) Media File.

Regional Operations Directors will advise postmasters as to which pouches they desire records to be maintained at Regional Office. Records of pouches between sectional center offices and satellite offices should not be required.

Upon receipt of the new form from all offices concerned, the old file will be retained in storage for regular retention period. No attempt will

be made to compare the new record with the old.

Effective Date

A. Supply of the new forms will reach each regional office on or about January 1, 1961. Immediate distribution should be made to post offices as soon as the new forms have been received.

B. The new procedure is effective upon receipt of the new forms by the postmaster.—*Bureau of Operations, 12-15-60.*

PROCEDURE FOR INITIATING A POUCH CHANGE, ESTABLISHMENT OR DISCONTINUANCE

(1) When initiated by postmaster he will fill in blank indicated by arrows and forward to Distribution and Traffic Manager

(2) After Distribution & Traffic Manager completes form and approves he will separate set and send original to sending office; the second copy to addressee office and retain third and fourth copies as office files.

All WMS Offices

Activity Codes and Form 113 Entries

The second paragraph of the item on activity codes and Form 113 entries commencing on page 1 of POSTAL BULLETIN 20229 is amended to read, "WMS offices: Form 113, Daily Manhour Report (annual and

hourly rate), will be prepared in the manner described in POSTAL BULLETINS 20207, 20213, and 20222, except that: (1) all regular supervisor time card work hours will be recorded in either column A or column B to reflect the division of supervisor employment between "Mailing Division" and "All Others"; (2) work hours for acting supervisors (qualified under section 204 B, Public Law

68) in the mailing division (column A) will be obtained from entries in black opposite "Supervisory Time" at bottom of Form 2345, *Personnel Manpower* (new WMS Operation 51); and (3) work hours for acting supervisors (qualified under section 204 B, Public Law 68) in "All Other" (column B) will be obtained from Time Cards."—*Bureau of Finance, 12-15-60.*

*All Post Offices***"Fraudulent" Mail to Foreign Countries**

There will shortly be distributed to all postmasters POD Publication 43, *Foreign Fraud, Unlawful and Lottery Mail Orders*—a complete list of foreign "Fraudulent," "Lottery Mail," and "Unlawful" orders that have been issued by the Department through November 30, 1960. Instructions to postmasters and all personnel handling mail for dispatch abroad, for enforcement of the orders, will accompany the list.

Postmasters shall record any foreign orders published in the POSTAL BULLETIN after November 30, 1960, and incorporate them in the list after it is received.—*Office of the General Counsel, 12-15-60.*

*All Postal Installations Except 2d-, 3d-, and 4th-Class Post Offices***Reproduction of Record Copies**

The General Services Administration advises that as a result of studies conducted by the Bureau of Standards, the use of documents which are made on heat-sensitive paper by office copying machines for official records will not be satisfactory for records which ultimately will become a part of the National Archives. (This does not refer to Records to be transferred to Federal Records Centers.)

The use of office copying machines for reproduction of internal working papers, convenience copies, or for copies filed but a short period of time, should be continued.

Do not use copies prepared on heat-sensitive paper for records which have a retention period of more than 7 years.—*Bureau of Finance, 12-15-60.*
