## 25-Cent Paul Revere Postage Stamp in Coils

The 25-cent Paul Revere regular postage stamp in coil form will be first placed on sale on February 25, 1965, at Wheaton, Md., the site of the Nation's first self-service post office.

**POSTMASTERS SHALL NOT PLACE THIS STAMP ON SALE BEFORE FEBRUARY 26, 1965**

Size: 0.75" x 0.87" (Perforated to the left and right of the portrait)  
Color: Green

ISSUED IN COILS OF 100 AND 3,000

Design identical to the 25-cent Revere stamp in sheet form.

To obtain first-day cancellations, collectors may submit requests to the Postmaster, Silver Spring, Md. 20907. See Postal Manual section 145.3. All covers will be canceled at the Wheaton classified station and will bear the Wheaton, Md., postmark.

These stamps are being provided in rolls of 100 and 3,000, primarily for use in vending machines, and will be sold only in full rolls at post offices where there is a local demand. However, collectors may obtain the 25-cent coil stamp in any quantity de-

All Regional Offices, Postal Data Centers, and Postal Installations Except Fourth-Class Post Offices.

## Restrictions on Office Furniture, Typewriters, and Filing Cabinets

A. **PURPOSE:** This notice implements a Presidential directive to reduce Federal expenditures for acquisition of office furniture and typewriters and to impose a moratorium on purchase of filing cabinets.

B. **AUTHORITY:** The General Services Administration has issued Temporary Regulation No. A-2 to the Federal Property Management Regulations implementing the President's directive. GSA Temporary Regulation A-2 will be codified within 90 days in the permanent regulations of GSA appearing in Title 41 CFR, Public Contracts and Property Management.

C. **RESTRICTION ON OFFICE FURNITURE AND TYPEWRITERS:** Effective immediately, no new office furniture or manual or electric typewriters shall be acquired for other than absolutely essential purposes. Upgrading for the purposes of improvement in appearance, office decor, status elevation, or desire

for the latest design or more expensive lines are not to be construed as essential purposes. All Forms 73, Equipment Requisition, shall contain a statement certifying that the requisition is submitted in compliance with the provisions of this directive.

D. **NEW CRITERIA:** Acquisitions from any source shall be limited to essential requirements arising only from quantitative increases in on-board employment which results in a total installation requirement for additional furniture or typewriters

(Continued on p. 2)

sired from the Philatelic Sales Agency, Post Office Department, Washington, D.C. 20260, on and after February 26, 1965.

First- and second-class post offices may requisition a minimum of 100 coils of 100 stamps each (USE ITEM NO. 771) and a minimum of 8 coils of 3,000 stamps each (USE ITEM NO. 773). Such requisitions shall be submitted to the Bureau of Engraving and Printing on Form 3356. Quantities larger than those specified above must be ordered in the multiples listed in Postal Manual, section 422.32.

Offices requiring lesser quantities shall submit requisitions on Form 017 to their RDPO. Do not include stamps other than the 25-cent Paul Revere on the initial request.—Office of the Special Assistant to the Postmaster General, 1-28-65.

(Continued from p. 1)

### Restrictions on Office Furniture, Typewriters, and Filing Cabinets

and will be limited to the least expensive lines. The criteria set forth in paragraph 2.113, Facilities Handbook, S-8 (Rev.), Equipment Requirements for Post Offices, will be strictly observed, except that no (REPEAT NO) Interim Federal Specification Furniture (Class 4) carried on Federal Supply Schedules, Group 71, Part XII, will be authorized for procurement. Sections 2.113a(4), 2.113b(3), and 2.113b(4)(b) will be amended accordingly.

#### E. NEW PROCEDURES FOR OFFICE FURNITURE:

##### 1. Property on Hand

Heads of all postal installations shall initiate prompt action to determine whether full utilization is being made of available office furniture and typewriters and refrain from submitting requisitions for additional equipment until full utilization is assured.

##### 2. Excess

Requisitions meeting the new criteria stated in paragraph D shall be filled first by excess in accordance with Part 665, Postal Manual.

##### 3. Rehabilitation

Property rehabilitation shall be the second source of supply. Except for emergency repairs, postal and maintenance personnel shall not rehabilitate or refurbish office furniture. Any postal activity performing such rehabilitation or refurbishing functions shall be discontinued immediately. The General Services Administration provides a nationwide service for personal property rehabilitation through their Regional Utilization and Disposal Service Schedule contracts. These schedule contracts are to be utilized wherever feasible. Each GSA regional office maintains contracts with commercial facilities and informal agreements with Federal Prison Industries, Inc., of the Department of Justice and National Industries for the Blind under which Post Office Department-owned furniture may be rehabilitated at a price substantially less than the cost of new items.

Postal installations contemplating acquisition of office furniture as replacement for equipment on hand shall take steps toward rehabilitation of present items by furnishing the regional procurement and supply of-

ficer with a list of such items including location, quantity, detailed description, and general condition of each item.

The procurement and supply officer will maintain liaison with the GSA regional property rehabilitation officer who will provide technical advice and administrative assistance regarding:

a. The economical feasibility of rehabilitating items;

b. Arrange for refinishing of in-use units to standardize furnishings with a given area;

c. Assist in obtaining items from excess for acquisition and subsequent rehabilitation;

d. Provide for renovation of furnishings to conform or make compatible with new space layout and decoration;

e. Provide assistance on documentation procedures; and

f. Price schedules which contain all necessary information regarding (i) ordering procedures; (ii) specifications; (iii) prices; and (iv) types of items being rehabilitated.

Use Standard Form 147, *Order for Supplies or Services*, for procurement of rehabilitation services and charge to accounts specified in F-8, *General Classification of Accounts*.

##### 4. Accountability

See section 665.52 for accountability of items released for repairs.

##### 5. Procurement

When a justified need cannot be satisfied by use of available property, excess, or rehabilitation, and the criteria in paragraph D has been met, then an order may be placed with the General Services Administration for new office furniture in accordance with procurement authority in section 652.2, Postal Manual.

**F. REPAIR AND REPLACEMENT OF TYPEWRITERS:** Follow instructions in Postal Manual, section 654.34.

#### G. MORATORIUM ON FILING CABINETS:

##### 1. Application

The moratorium applies to the purchase of all new correspondence filing cabinets for use in the 50 States and the District of Columbia. This does not apply to fire-resistant insulated file cabinets and tamper-resistant cabinets required for storage of classified records. The new

procedures in paragraph E are applicable for such items.

##### 2. Status of Current Orders

GSA will withdraw from Federal Supply Schedule contractors unshipped purchase orders for correspondence filing cabinets for delivery to consignees affected by the moratorium. Purchase orders withdrawn from FSS contractors and POD requisitions now on hand in regional offices are being returned to ordering activities in accordance with the intent of the President's moratorium. Contracting officers whose orders are canceled will notify the regional controller of the amount and identity of each order canceled so that deobligations can be effected.

##### 3. Utilization Review

Heads of all postal installations, including postal data centers, shall arrange for an immediate review of existing files to make certain that records eligible for disposal are destroyed and that records not yet eligible for disposal and not needed for active reference are transferred to less expensive equipment and space. The Postal Systems Division is responsible for regional office compliance.

Your attention is directed to Issue 810, dated November 5, 1964, of the Postal Manual, Part 846. This new records retention schedule calls for reduced retention periods in many cases. A number of postmasters have already reported the destruction of large volumes of records and the recovery of filing equipment as a result of implementing this schedule. Those who have not yet done so will promptly apply these new standards before even considering the requisition of new filing cabinets.

It should be noted that certain large series of actively used records such as official personnel files or supporting papers to postmaster's account may be more economically filed in and more efficiently serviced from open-shelf filing than from filing cabinets provided that the rooms where they are located can be locked.

##### 4. Source of Supply

If needs cannot be met by methods suggested in the preceding paragraph, requirements may be filled from excess (including rehabilitated), and if not so available, from GSA remaining warehouse stocks which are extremely limited and will be issued only under the most austere standards.

## H. PROCEDURES FOR SPECIAL REQUIREMENTS:

### 1. Prerequisite Actions

Orders for filing cabinets may not be issued unless the actions prerequisite to requesting excess, rehabilitated, or new correspondence filing cabinets, listed below, have been taken:

a. Records have been disposed of in accordance with authorized schedules (PM 846, RM 184);

b. Records have been retired in accordance with procedures to post office inactive storage rooms or holding areas or other space where records can be stored economically in cartons on shelves or in other low-cost equipment.

c. Contents of filing cabinets have been rehoused in more economical equipment where appropriate. (For example, shelf filing should be considered for records; and shelving, storage cabinets, and similar equipment should be used for stocks of forms, publications, and office supplies.)

d. Filing cabinets are being fully utilized, including top and bottom drawers. (Fill cabinet drawers to the optimum extent to still permit ready filing and finding (usually  $\frac{3}{4}$  full). Consolidate contents of cabinets that are less than half full.)

e. Filing cabinets have been redistributed within the postal service to meet needs for special types and sizes of cabinets.

f. Stocks of filing cabinets have been reduced to immediate needs, and any unneeded cabinets have been reassigned to points of shortage within the office.

g. Advice and assistance, as needed, have been requested from Post Office Department records officers, the regional postal systems divisions, and from records management specialists in GSA regional offices and Federal Records Centers.

### 2. Request to GSA

Requirements for additional filing cabinets which cannot be met by taking such actions should be made the subject of a letter from the Regional Director to the GSA Regional Administrator, specifying the least expensive, the stock numbers and quantities required by consignee points and stating that the prerequisite actions have been taken but have not produced the needed filing cabinets. These requests will be reviewed by GSA for conformance with

## All Offices Using Government-Owned Vehicles

### Form 4541, Contract Work Order—Invoice for Vehicle Repair

The November 1964 edition of Form 4541, *Contract Work Order—Invoice for Vehicle Repair*, is to be used only in connection with new accounts payable system which is currently being implemented at the New York Postal Data Center. The new system is scheduled for implementation at the San Francisco Postal Data Center in February 1965.

Post offices serviced by the New York and San Francisco Postal Data Centers, which do not already have a supply of the November 1964 edition of Form 4541, shall submit Form 4750, *Special Requisition for Supplies*, to the supply center for their requirements. Upon receipt of the November 1964 edition of Form 4541, the December 1963 edition shall be carefully wrapped and immediately returned to the supply centers.

Until advised otherwise, all other post offices will continue to use the December 1963 edition of Form 4541.—*Bureau of Finance and Administration, 1-28-65.*

the intent of the President's directive and, if approved, will be filled to the maximum possible extent with excess filing cabinets, included rehabilitated. Efforts will be made to furnish items of the type requested. However, when necessary, agencies will be issued serviceable substitutions irrespective of composition (wood or metal), number of drawers, or finish. Approved requisitions which cannot be filled from excess will be returned to originator with a clearance document authorizing submission of a FEDSTRIP requisition on GSA depot stocks.

#### I. FORMAT

Requisitions shall be submitted in FEDSTRIP format in accordance with Facilities Handbook, S-21, FEDSTRIP. (Postal installations that are not authorized to submit FEDSTRIP requisitions to GSA will forward their requisitions and clearance document to the regional procurement and supply officer.) The clearance number shall be entered in the block located in the lower left corner of GSA Form 1348-4, entitled

## All Postal Installations

### SF 1103—U.S. Government Bill of Lading

All blank Government bills of lading on hand beginning with Prefix *PO* or *A* are obsolete and are to be mailed to the Traffic Section, Procurement Division, Bureau of Facilities, Post Office Department, Washington, D.C. 20260 for cancellation.

These bills of lading are not to be used for any future shipments.

Government bills of lading bearing Prefix B or C only are to be currently used and may be obtained as outlined in Postal Manual, section 653.41.—*Bureau of Facilities, 1-28-65.*

## All Postal Installations

### Distribution Control Cards

Postal Manual section 333.321c, contains instructions concerning the use of distribution control cards for regulating priority of distribution of first-class letter mail.

Item O-1246, Distribution Control Card, is now available from supply centers. This item is available in four colors: A—Blue, B—Pink, C—Salmon, and D—Yellow.

Offices requiring the use of these cards shall order requirements on Form 1580, *Requisition for Supplies*, during regularly scheduled requisitioning periods. This is an expendable item not to be reused.—*Bureau of Operations, 1-28-65.*

“Exception Data.” As an exception to normal requisitioning procedure, enter the code AØE in columns 1-3 of the FEDSTRIP format. Attach a copy of the clearance document to the copy of the GSA Form 1348-4 sent to GSA. Requirements for use outside the 50 States and the District of Columbia are exempt from this special procedure.

J. *SUPERSESSION*: Affected portions of the Postal Manual, Regional Manual, Regional Letters, and the S-8 Handbook will be revised accordingly.

K. *HANDBOOK DISTRIBUTION*: Handbooks S-8 (Rev.), S-21, and F-8 have limited distribution. Those offices not on regular distribution lists should not make requests for copies of these publications.—*Bureau of Facilities, 1-28-65.*

All Postal Employees

## Monthly Labor-Management Meeting

During the January 1965 Labor-Management Meeting with the seven employee organizations having exclusive recognition at the national level, the following items requiring immediate attention in the field were discussed and disposed of as indicated. The disposition represents the current departmental policy with regard to the subject matter and is to be observed by all field employees:

(1) During the September 1964 Labor-Management meeting the Department announced proposed revision in attendance, timekeeping, and leave procedures with a pilot study being conducted in the Atlanta, Ga., and Cleveland, Ohio, post offices. It is our understanding from the offices involved in this program that the studies have gone far afield from the original purpose and intent as explained in the Labor-Management meeting. We request copies and a review of Forms 3972-x, 3973-x, 3974-x, 3976-x, 3979-x, 3981-x, and any other forms being used in this study.

*Disposition.*—It was agreed that the portion of the form relating to recording instances of counseling would be eliminated.

(2) Interpretation Postal Bulletin of December 24, 1964, Article 15-C-1.

*Disposition.*—With reference to Interpretation of the National Agreement (Article XV, C1, Scheduling of Substitutes) appearing in POSTAL BULLETIN No. 20453, dated December 24, 1964, while the passage which states, "It is conceivable that he could end a tour of duty at midnight and be instructed to report at 7 a.m. the following day" was intended to show that such was not without the realm of possibility, it was not intended that such should become policy and it is not anticipated that any such scheduling should occur except in extreme emergent conditions.

### ANNOUNCEMENTS

I. Consolidation of Regional Distributing Post Offices.

The Department discussed with the Organizations the proposed consolidated Accountable Paper Depository

Postmasters at Single ZIP Coded Post Offices

## Requisitioning Postmarking Equipment

Effective immediately all postmasters at post offices which are assigned only one ZIP Code will include their ZIP Code on requisitions for new or replacement postmarking equipment. No requisition shall be placed by any office for postmarking equipment for the sole purpose of including its ZIP Code.

The Department will automatically furnish a new rubber postmarking and canceling stamp, Item 550, to each third- and fourth-class office before July 1, 1965. Therefore no third- or fourth-class office shall requisition an Item 550 stamp during that period except in an emergency.

Instructions with respect to furnishing rubber and steel postmarking equipment (including ring dies) to first- and second-class offices will be furnished at a later date.—*Bureau of Operations, 1-28-65.*

tory (Regional Distributing Post Office) at Cincinnati, Ohio.

The proposed APD will furnish less than bulk quantities of accountable paper to offices in the Cincinnati, Memphis, and St. Louis Postal Regions. It will entail discontinuance of RDPO St. Louis and some adjustment in the clerical staff at RDPO Atlanta.

The Departmental study indicates that the proposal would result in savings in transportation costs, conform accounting to postal data center lines and permit a substantial manpower reduction (33½ percent).

Employees declared excess as a result of this proposal will be reassigned in accordance with the provisions of Article XII of the National Agreement.

II. Proposed Probability Sampling Procedures for Cost Ascertainment.

A booklet entitled "Probability Sampling for Cost Ascertainment," describing a new method being developed for collecting cost ascertainment data on revenue, pieces, and weight of mail at delivery points, was furnished to the Organizations for review and submission of comments by January 22, 1965.—*Bureau of Personnel, 1-28-65.*

All Part I Offices Where Individual Measurement Is Authorized

## Week of Individual Measurement for A/P No. 9, PFY 65

The designated week of individual measurement under the Work Measurement System is the second week of Accounting Period No. 9, PFY 65, February 6-12, 1965.—*Bureau of Operations, 1-28-65.*

*All Postal Drivers*

**Damage to Automatic Transmissions**

Automatic transmissions properly and carefully operated will give many thousands of miles of dependable service. Poor driving practices can quickly and severely damage the best transmissions made. Examination of automatic transmissions being repaired indicates many instances of damage due to improper operation. Observe the following "DO's" and "DON'T's." This will demonstrate your professional skill and prevent most premature transmission failures:

1. *DO*—Use neutral or park position when idling for periods of a minute or more.

*DON'T*—Leave selector in drive while idling except for very short periods. This causes transmission to overheat.

2.a. *DO*—Keep engine idling if you are in drive with brakes on and it is necessary to have engine running.

*DON'T*—Accelerate engine while in drive or reverse while brakes are on.

b. *DO*—Hold vehicle stopped on steep grade with brakes.

*DON'T*—Hold vehicle stopped on steep grade by accelerating in drive position. The "don'ts" in a or b place undue strain on the transmission and create excessive heat.

3. *DO*—Come to a full stop before shifting from drive to reverse or reverse to drive. This applies to rocking back and forth in mud or snow as well as to other situations.

*DON'T*—Shift to changed direction until vehicle is completely stopped. This may shear transmission bolts or pins, damage transmission and differential gears, or break universal joints.

4. *DO*—Stop completely before shifting into "park" position.

*DON'T*—Shift to "park" until you come to a dead stop. This can damage the parking pawl in the transmission.

5. *DO*—Start gently—Stop smoothly.

*DON'T*—Make "Jack Rabbit" starts or panic stops. This places undue strain on the transmission and the transmission clutches. It also causes excess tire and brake wear.

6. *DO*—Know your vehicle. Pick

*All Post Offices*

**Customs Declaration Form 2966 Needed on Parcels for Canada**

Many parcel post packages for Canada are reaching exchange offices without Form 2966, *Customs Declaration*, being attached. This results in delayed dispatch to destination, and often necessitates returning parcels long distances to have senders complete and attach the form.

Please impress upon patrons, as well as upon employees accepting international mail, that section 231.6, Postal Manual, and the Directory of International Mail require that customs declaration tags accompany parcel post to Canada, the same as to all other countries. If parcels are observed at the mailing office without the required tags, see that they are affixed before the parcels are dispatched.

Tags sometimes become detached after the parcels are mailed if not securely attached. Therefore, senders must tie the tags on the parcels carefully, using strong cord.—*Bureau of Transportation and International Services, 1-28-65.*

the right range for your load and terrain.

*DON'T*—Start off on a hill in high range loaded or empty or don't start off on level in a high range when half or more loaded. Some vehicles shift down to the lowest gear while in drive. Others, in normal drive range do not shift down to the lowest gear. Under hard pull, using higher ranges can burn out transmission clutches or damage the converter unit.

7. *DO*—Be sure your transmission fluid is at the right level.

*DON'T*—Operate below the "add" or above the "full" level on the dip stick. Operating a transmission below the "add" mark results in improper torque, and strains the entire transmission. Excessive heat also develops. Operating above the "full" mark causes foaming and loss of fluid through the breather.

Keeping the fluid at a proper level is the responsibility of maintenance employees where vehicles are regularly serviced in a postal maintenance facility. At perimeter offices, with contract maintenance, postal drivers

*All Post Offices*

**Sale of Commemorative and Christmas Postage Stamps**

**Commemorative Stamps**

Effective immediately postmasters shall place commemorative postage stamps on general sale at all stamp windows. These stamps are to be sold in lieu of regular 5-cent George Washington and 5-cent American Flag sheet stamps until stocks of commemorative postage stamps are exhausted. The 5-cent George Washington and 5-cent American Flag postage stamps may be sold only when specifically requested until stocks of past-issue commemorative stamps are depleted.

Regional distributing post offices are hereby authorized to substitute commemorative stamps on postmasters' requisitions for regular 5-cent Washington stamps, the quantity to be substituted not to exceed 25 percent of a postmaster's requisitions for regular 5-cent stamps. This policy will continue until RDPO stocks of past-issue commemorative postage stamps are depleted.

The following items of commemorative postage stamps are available to first- and second-class post offices only from the Tabulating Machine Unit, Office of the Controller, Bureau of Engraving and Printing, Washington, D.C. 20226, on Form 3356, *Stamp Requisition-Bulk Quantities*, in lots of 5,000, 10,000, 15,000, 20,000, 25,000, 50,000, 75,000, 100,000, 125,000 and multiples thereof.

are responsible to see that fluid level is checked, in their presence, when vehicles are gassed. If it is necessary to add fluid frequently, there is a leak and it must be corrected.—*Bureau of Operations, 1-28-65.*

*(Continued from p. 5)*

## Sale of Commemorative and Christmas Postage Stamps

Stocks of the foregoing items remaining on hand at the Bureau of Engraving and Printing at the close of the third postal quarter, ending March 26, 1965, will be substituted in quantities not to exceed 25 percent of postmasters' requisitions for Item 035, 5-cent George Washington postage stamps, Item 169, 8-cent airmail stamps and Item 044, 8-cent regular postage stamps as appropriate, until stocks of the commemorative items at the Bureau of Engraving and Printing are exhausted.

## Christmas Stamps

Christmas stamps shall be withdrawn from sale and retained for supplementing the special issue of next Christmas season.—*Bureau of Facilities, 1-28-65.*

## All Postal Installations

### Recruitment for Overseas Positions

In line with President Johnson's desire for full participation in staffing international organizations in which the United States plays a role (See POSTAL BULLETIN 20448, p. 1) the following positions are announced:

1. Post Title: Postal Advisor.  
Duration: 18 months, starting July 1, 1965.  
Duty Station: Khatmandou, Nepal.  
Duties: To give advice to Nepal on all aspects of postal services.  
Qualifications: The candidate should have at least 15 years continuous service in the postal service field and have a knowledge of international postal service. English is essential. The candidate should not be more than 55 years of age.  
Salary: \$8,930 (U.S.) per annum.  
Allowances:

- (a) Post adjustments  
for expert *without* dependents: \$792 per annum  
for expert *with* dependents: \$1,188 per annum
- (b) Installation Grant (Daily subsistence allowance rate: \$13)

for expert *without* eligible dependents at the official duty station, 15 days' subsistence allowance

for expert *who is accompanied* by his dependents to the official duty station at the UPU's expense, 30 days' subsistence allowance for himself plus half of that amount in respect of each such dependent;

- (c) Dependency Allowances  
for a dependent spouse: \$400 per annum  
for a dependent child: \$300 per annum  
for a secondary dependent: \$200 per annum
- (d) Assignment Allocation  
for expert *without* dependents: \$950 per annum  
for expert *with* dependents: \$1,200 per annum
- (e) Education Grant  
Up to \$600 per annum in respect of each child in fulltime attendance at educational institutions.
- (f) Repatriation Grant  
for expert *without* dependents: 2 weeks salary  
for expert *with* dependents: 4 weeks salary

Item 1 on Standard Form 57 should be completed as follows: Postal Advisor, Nepal.

2. Post Title: Senior Expert in mechanical aids for Post and Railway Mail Service Offices.

Duration: Six months, starting as soon as possible in 1965.

Duty Station: New Delhi, India

Duties: The expert is expected:

1. To design indigenous mechanical aids for use in Post and Railway Mail Service Offices, and for setting up of a Departmental workshop for the manufacture of Post Office equipment.
2. To impart training to the postal and Railway Mail Service staff in the handling and maintenance of mechanical aids in the postal services.

Qualifications: Be able to undertake the planning and installation of mechanical devices and training of staff in handling and maintenance of such devices.

## All Postal Installations

### GSA Sampling Study of FTS Usage

Attention is invited to Postal Item dated 1-21-65 concerning GSA Sampling Study of FTS Usage beginning first week of February. It is important that each FTS user have a complete understanding of the procedures involved and comply with instructions contained therein.—*Office of Research and Engineering, 1-28-65.*

English is essential.

Salary: \$7,460 per annum

Allowances: Daily subsistence allowance:

71 rupees (about \$14.91) daily during first 60 days, thereafter 56 rupees (about \$11.76) daily.

Item 1 on Standard Form 57 should be completed as follows: Senior Expert, India.

All applicants for any of the above positions must be in good health and pass a physical examination. Submit one copy of Standard Form 57 to the Assistant Postmaster General, Bureau of Personnel, Post Office Department, Washington, D.C. 20260, so as to be received by February 8, 1965. Applicants selected for interview will be notified by March 1, 1965.—*Bureau of Personnel, 1-28-65.*

## All Postmasters Using Vehicles Under Contract

### Emergency Vehicle Hire

When emergency vehicle hire is obtained under Postal Manual, section 343.83 send Form 1804, *Contract Vehicle Time Record* (Vehicle Hire), to the appropriate postal data center as soon as the emergency has ended. Do not wait until the end of the accounting period. This will enable postal data centers to process these forms during off-peak periods.—*Bureau of Operations, 1-28-65.*

## All Postal Installations

### Conversions Under Executive Order 11187

The table at the top of page 7, POSTAL BULLETIN of November 12, 1964, is supplemented by adding:

Substitute Special Delivery Messenger PFS-4----Clerk-Carrier  
—*Bureau of Personnel, 1-28-65.*

*To All Installations*  
**Uniform Shirts**

The Post Office Uniform Quality Control Office, U.S. Army Natick Laboratories, has issued to the uniform industry two new fabric specifications for optional use in the manufacture of uniform shirts. Specifications for men's long sleeve shirt with convertible collar and for wool serge cloth are also available. These items are authorized for wear and reimbursement on the dates specified below:

1. *Shirt fabrics*

a. Broadcloth, polyester/cotton.

Effective February 1, 1965, uniform shirts manufactured in broadcloth, polyester/cotton, conforming to PODUQC—No. 6, issued November 4, 1964, are authorized for wear. Reimbursement is authorized for purchases made on and after February 1, 1965.

b. Poplin, polyester/cotton.

Effective April 1, 1965, uniform shirts manufactured in poplin, polyester/cotton, conforming to PODUQC—No. 10, issued January 22, 1965, are authorized for wear. Reimbursement is authorized for purchases made on and after April 1, 1965.

2. *Shirt, Men's, Long Sleeve, Convertible Collar.*

Specification, PODUQC—No. 8, shirt, men's, long sleeve, convertible collar. The specification differs from PODUQC—No. 3, men's short sleeve shirt, only with respect to the sleeve. This issuance further clarifies the specifications announced in the POSTAL BULLETIN, November 12, 1964. Shirts manufactured in accordance with PODUQC—No. 8 are subject to reimbursement on and after February 1, 1965.

Shirts meeting these fabric and design specifications are authorized for the following categories of employees:

1. Male letter carriers.
2. Special delivery messengers.
3. Male window service personnel.
4. Guards and watchmen.
5. Male elevator operator or elevator starter.
6. Letter box mechanics.

Employees are reminded that the Quality Control Certificate number must be used on a label attached to each shirt. The label will indicate that the shirt has been produced in

*All Postal Installations Authorized To Procure Stores Stock Catalog Items from GSA*

**FEDSTRIP Requisitioning Authority**

POSTAL BULLETIN 20455, dated January 7, 1965, *Implementation of FEDSTRIP*, announced the limitation placed *initially* on offices and activities authorized to procure stores stock catalog items directly from GSA. The notice stated that exceptions to the limitation would require approval of the Bureau of Facilities. In lieu of the requirement for a case-by-case delegation from Headquarters for authority to order under the

accordance with requirements of the Post Office Department's fabric, color, and manufacturing specifications.

3. *Fabrics for Post Office Uniforms*

Specifications covering the requirements for wool serge cloth have been issued to the uniform industry as follows:

a. PODUQC—No. 5 issued October 26, 1964.

Class 1—14-ounce/linear yard, 60 inches width.

Class 2—16-ounce/linear yard, 60 inches width.

Class 3—18-ounce/linear yard, 60 inches width.

b. PODUQC—No. 5A issued November 18, 1964.

Class 4—24-ounce/linear yard, 60 inches width.

Effective July 1, 1965, all garments in the above fabrics must be manufactured with certified fabrics conforming to specifications PODUQC—No. 5 and No. 5A.

Until November 1, 1965, Post Office Employees may continue to purchase and be reimbursed for garments which conform to fabric specifications in effect prior to issuance of the new specifications. These garments may continue to be worn until no longer serviceable.

The above fabrics are authorized for use in uniform garments for the following category of employees:

1. Letter Carriers.
2. Special Delivery Messengers.
3. Guards and Watchmen.
4. Elevator Operator or Elevator Starter.
5. Letter Box Mechanic.

*Bureau of Personnel, 1-28-65.*

**Corrections to 1964 Directory of Post Offices**

PENNSYLVANIA

*Change 1 Glen Riddle C S189 (Delaware County, p. 508) to 2 Glen Riddle S189. (This office is 2d class and does not have city delivery.)*

FEDSTRIP, Regional Directors are hereby authorized to delegate this authority to contracting officers listed in Postal Manual, section 652.2 under the following policies and procedures:

A. The Regional Director must be satisfied that ordering personnel have been adequately oriented in the techniques of FEDSTRIP requisitioning. As a means of insuring adequacy of orientation, a period of testing (*up to 30 days*) is recommended, during which time ordering offices will prepare FEDSTRIP requisitions on GSA Form 1348-4 and forward them to the regional procurement and supply officer for review prior to release to GSA.

B. Redlegation of ordering authority may be accomplished in accordance with the following time-phased schedule:

<i>Size of office</i>	<i>Not earlier than</i>
Vehicle Maintenance Facilities.	Feb. 15, 1965
\$5 million or more.....	Feb. 15, 1965
\$3 million or more.....	Mar. 15, 1965
\$1 million or more.....	Apr. 15, 1965
All other first-class offices.	July 1, 1965

C. Instructions to regional controllers for fiscal control of FEDSTRIP transactions will be issued separately.

D. Regional procurement and supply officers will notify the Procurement Division, Bureau of Facilities (Attention: Chief, Procurement Policy and Management Staff) by memorandum, in duplicate, of delegations made and the effective date of such delegations.

E. Facilities Handbook, S-21, FEDSTRIP, is now being printed and will be available for distribution early in February 1965. Do not requisition this handbook at this time. Copies of the draft handbook have been distributed to regional procurement and supply officers which may be used for guidance until receipt of the published handbook.—*Bureau of Facilities, 1-28-65.*

**Arrest of Postal Offenders**

The following postal offenders have been apprehended:

- Darrell Allen Connell
- Charles Arley Hervey

Destroy the wanted circular concerning them.—*Bureau of the Chief Postal Inspector, 1-28-65.*

*All Group I NIMS Offices*

**NIMS Test, Postal Quarter III**

No NIMS test will be held during A/P 8.

Only one test will be conducted during Postal Quarter III and it will be for a 5-day period. The test will cover first-class mail only.

A revised reporting form, Form 2368-FX, *Analysis of Originating*

*First-Class Mail Deposits*, with space for recording scheduled and presorted mail will be supplied automatically to all Group I NIMS offices under cover of an explanatory memorandum. All personnel concerned with NIMS tests should carefully review the form and accompanying instructions in advance of the test in order to assure that accurate counting and recording procedures are followed.—*Bureau of Operations, 1-28-65.*

*All Post Offices*

**Warning Notice—Unrecovered Stolen Canadian Money Order Forms**

This current list is to be posted and used by window clerks. Destroy all previous notices. Interim notices of individual series received from the Inspection Service should be inserted in proper sequence pending publication of a new consolidated listing.

**THE CANADIAN POSTAL ADMINISTRATION HAS DECLARED THE FOLLOWING ORDERS VOID: ORDERS WITHOUT LETTER PREFIX AND ORDERS WITH PREFIX "A". ORDERS WITH PREFIX "B" WHICH ARE IN A SERIES BELOW THIRTY-THREE MILLION. THESE ORDERS SHOULD NOT BE CASHED; HOLDERS THEREOF SHOULD BE ADVISED TO SEND THEM TO THE POST OFFICE DEPARTMENT AT OTTAWA, CANADA, FOR RE-VALIDATION.**
