5-Cent Regular Postage Stamp in Coils

The 5-cent Washington stamp of the new "Prominent Americans" series, in coil form, will be issued through the Cincinnati, Ohio, post office, on September 8, 1966, during the American Philatelic Society convention.

POSTMASTERS SHALL NOT PLACE THIS STAMP ON SALE BEFORE SEPTEMBER 9, 1966

Size: 0.75" x 0.87" (perforated to left and right of design) Color: Blue

ISSUED IN COILS OF 100, 500 and 3,000

The design is identical to the 5-cent Washington stamp in sheet form, which was based on a Rembrandt Peale portrait. All of this issue will be phosphor-coated.

To obtain first day cancellations, collectors may submit requests to the Postmaster, Cincinnati, Ohio 45202. See Postal Manual, section 145.2. The stamp will be sold at post offices in full coils of 100, 500 and 3,000 only. However, collectors may obtain the 5-cent Washington coil stamp in any quantity desired from the Philatelic

All Postal Installations

Free Mailing for Certain Military Mail to Canada

Since March 1, 1966, letters and cards mailed by U.S. servicemen in Vietnam have been mailable free of postage to addressees in Canada.

Reports show that this *Free* mail is sometimes regarded as requiring postage, and has been rated for collection of postage due from the addressees in Canada.

All concerned with processing of military mail addressed for delivery in Canada are requested to see that letters and cards endorsed *Free* are allowed to go to Canada without being rated for postage due collection.—*Bureau of Transportation, and International Services, 8-18-66.*

Sales Unit, City Post Office, Washington, D.C. 20013, on and after September 9, 1966.

First- and second-class post offices requiring this issue in minimum bulk lots should requisition one of the quantities shown in section 422.325 a, b, and c, Postal Manual, by submitting Form 3356, to the Bureau of Engraving and Printing. Use Item 732 for coils of 100; Item 733 for 500 and 734 for coils of 3,000.

Offices requiring less-than-bulk quantities (section 422.53a of the Postal Manual) should submit a separate requisition on Form 17 to the accountable paper depository. Do not include items other than the new 5-cent Washington coil on Form 17.

All requisitions should be restricted to such quantities as are required to meet the philatelic demand as stocks of the 1962 series of 5-cent Washington coils should be depleted before placing the new 1966 series on general sale.—*Office of the Special Assistant to the Postmaster General, 8-18-66.*

Postmasters, First-, Second-, and Third-Class Offices

Poster—Foreign Policy Briefs

Postmasters of first-, second-, and third-class offices will be furnished in the near future with a poster announcing Foreign Policy Briefs issued by the Department of State. Display the poster in a prominent location in the lobby as outlined in section 612.233 of the Postal Manual for 90 days, beginning September 1.

Postmasters in buildings operated by General Services Administration should submit the posters upon their receipt to the superintendent of the building.—*Bureau of Facilities, 8-18-66.*

*All Offices With Rural Routes***INSPECTION OF RURAL ROUTES****I. Introduction**

The Postal Manual, section 353.161, requires an annual inspection of all rural routes during the month of September. The following instructions supplement the provisions of that Manual section, which must be carefully read by postmasters and supervisors. A complete understanding of the inspection purposes and procedures will insure proper completion of necessary reports and accurate route information.

II. Purpose of Inspection

Personal observation of route conditions is intended to make certain:

- A. The route is traveled according to the official description,
- B. The patrons' mailboxes conform to the requirements, and
- C. The service provided is adequate within the established standards for rural delivery service.

III. Inspection Period

Each rural route will be inspected on one service day during the month of September 1966. The inspection must not be made during annual mail count and route evaluation period.

IV. Responsibility

The postmaster, assistant postmaster, route examiner, or another responsible employee shall make the inspection, and the trip over each route will be made at no additional expense. Postmasters or supervisors will be held responsible for the accuracy and completeness of all route data entered on the inspection reports.

V. Form 4003, Official Rural Route Description

The current official description (Form 4003) must be carried during the inspection and compared with the actual line of travel to determine whether or not the route is being served in accordance with the description. Where the route line of travel does not agree with the description, the proper box on Form 4248, *Rural Route—Annual Inspection Report*, must be checked, and a list of the deviations and reasons must be shown on the reverse of the form. This requirement does not apply to routes specifically exempted by 353.134, Postal Manual.

VI. Form 4056, Your Mailbox Needs Attention

Form 4056 must be left where mailboxes are in need of improvement. It is the responsibility of the rural carrier to inform the inspection official of mailbox deficiencies which should be called to the attention of the patron on Form 4056. Confine the use of Form 4053, *Notification to Mailbox Owner*, to informing patrons later where deficiencies have been corrected, that their mailboxes are now acceptable. (See 353.212, Postal Manual.)

VII. Count of Vehicle Stops

An accurate count of the number of possible stops required to serve all boxes on the route must be made on the day of inspection. Where several boxes grouped together can be served in the manner which the carrier regularly serves the boxes without moving the vehicle, the stop will be counted as one vehicle stop. Changes will be authorized in amount of equipment allowance for carriers serving heavy duty routes based on the number of vehicles stops established by the count. The number of vehicle stops under Item 8 of the Annual Inspection Report must agree with the figure shown in Column V of Form 4241, *Rural Delivery Statistics Report*, for the current mail count period, except where changes have occurred. (See 755.413b, Postal Manual.)

VIII. Count of Boxes

An accurate count must be made of the number of boxes presently being served on the route. Count boxes for temporarily vacant dwellings and places of business as being served, but do not include abandoned boxes or those for permanently vacant buildings. The number of boxes served, shown under Item 7, Form 4248, must agree with the figure at the top of Form 4241 covering the current count period, except where changes have occurred.

IX. Road Conditions

Observe and note road conditions which hamper rural service and take prompt action with the appropriate authorities where necessary. (See 353.452, Postal Manual.)

X. Adequacy of Service

Without leaving the line of travel, observe and note location of residences not presently being served to

*All Postal Installations***Checking Postage on International Airmail**

As an aid in training new employees and in assisting distributors in checking postage on international mail (see 223.21 Postal Manual), the following employee suggestion has servicewide applicability:

Place on distribution cases used for outgoing international mail the postage rates to the different countries. The rate can be shown after the name of the country on the case so that the employee working the mail will see at a glance the correct rate of postage for each of the countries.

Another method of denoting the postage rates is to attach colored tabs to the cases using the same color to identify countries having the same postage rates.—*Bureau of Transportation and International Services, 8-18-66.*

*All Postal Installations***Methods Handbook, M-1**

A revised Methods Handbook, M-1, Packing and Handling Untied Mail, is now available.

Do not request revised Handbook M-1 unless you have been using the untied mail system, or the Regional Director agrees that you have sufficient mail volume to install the system.

Request copies from your supply centers during regularly authorized requisition periods.—*Bureau of Operations, 8-18-66.*

insure that all qualified route extensions have been submitted to the regional office.

XI. Form 4248, Rural Route—Annual Inspection Report

Postmasters will be furnished a necessary supply of Form 4248 to be completed in duplicate for each rural route. Each item on the form must be filled in accurately and completely. Send the original copy to the regional office (Attention: Chief, delivery Services Branch) within 10 days after the date of inspection; keep the second copy on file.—*Bureau of Operations, 8-18-66.*

All Postal Installations

Street Letter Box Painting Specification—POD Notice 52

POD Notice 52, July 1959 has been superseded by POD Notice 52 (Revised) August 1966 which is now available through the supply centers. Offices scheduled to requisition at this time shall include the notice on Form 1580, *Requisition for Supplies*. All other offices needing the notice before their next requisitioning period shall submit Form 4750, *Special Requisition for Supplies*.

The revised specification contains new procedures and specified materials for the refinishing of street letterboxes by private contractors. POD Notice 52 (Rev.) will be made a portion of the bid specifications when postmasters solicit competitive bids for street letterbox refinishing.

Postmasters, regional plant maintenance branches and procurement and supply officers please note the following instruction: Authority is hereby granted to disregard paragraph E of POD Notice 52 (Rev.) for an indefinite period of time. This authorization is to utilize and expend existing stocks of Post Office Supply Item D-1173 (a) and (b) Enamel, Olive Green, which is currently available through the supply centers. Postmasters will be notified by POSTAL BULLETIN notice when the existing supply of Item D-1173 has been exhausted and at that time the painting procedure specified in paragraph E, POD Notice 52 (Rev.) will become effective.

Postmasters will note the revised painting specification stipulates that the postmaster will furnish the specified modified acrylic enamel paint materials to the successful contractors. Upon completion of the painting contract, any excess material will be returned to the postmaster and stored in a suitable ventilated area until required for the next painting cycle.

Local procurement of paint materials is authorized in accordance with *Small Purchase* procedures outlined in section 652.24, Postal Manual and within each postmaster's local procurement authority as outlined in section 652.2 of the Postal Manual. If cost estimates for paint materials

All Post Offices

Posting Clearance Heights on Platform Canopies

Implementation of a recent employee suggestion should assist in preventing damage to platform canopies and vehicles. The suggestion calls for the posting of canopy heights in a conspicuous place near the lowest point of the canopy.

All postmasters should take immediate action to post clearance heights on the face of canopies having less than a 14'6" clearance.

The lettering should be 4 inches high in block style, either white on a black background, or black on a white background, so that it will be readily visible from the cab of trucks entering the maneuvering area.—*Bureau of Operations, 8-18-66.*

All Postal Installations

Lobby Poster

A lobby poster promoting the sale of the Register and Vote stamp has been shipped to all post offices. This poster should be displayed through the first week of November.—*Office of the Special Assistant to the Postmaster General, 8-18-66.*

exceed local procurement authority, forward a purchase request to the appropriate Regional Headquarters, attention: Procurement and Supply Officer.

The applicable Post Office Department specifications for modified acrylic enamel paint materials are: POD-P-171(RE) Paint, Primer Coating, Synthetic, Gray for Acrylic Modified Enamel, dated March 12, 1962, and POD-E-170(RE) Paint, Acrylic Modified Enamels, Red, White and Blue, dated March 12, 1962. These specifications are available upon request from the Director, Office of Research and Engineering, Post Office Department, Washington, D.C. 20260. The postmasters unfamiliar with a source of supply for modified acrylic enamel paint materials, which meet the specifications referenced above, should contact the nearest *vehicle maintenance facility* or the *regional plant maintenance branch*.—*Bureau of Facilities, 8-18-66.*

All Post Offices

Mailing List Cards Submitted for ZIP Coding

It is anticipated that for the balance of this year, a large number of mailing list cards will be received by post offices for sorting by ZIP Code areas, as provided by section 123.552, Postal Manual.

Arrangements must be made to keep this work current so that mailing lists are promptly returned to mailers to enable them to have sufficient time to add ZIP Codes in their files and prepare for the new presorting requirements for second-class, controlled-circulation, and third-class bulk-rate mail effective January 1. Section 337.724, Postal Manual, requires that post offices receiving mailing list cards should strive to sort and return them within 3 working days. When this is not possible, or if unusually large lists are involved, advise the firm or post office from which received as to when it is reasonably anticipated that sorting will be completed.

Damaged Cards

Complaints also continue to be received from mailers that data processing and nondata processing cards submitted for ZIP coding are returned in damaged or mutilated condition. Data processing cards received in such condition are unusable in automatic equipment.

Particular care is needed in tying such cards into bundles so that indentations, tears or other damage will not occur at the points where the twine is placed. The cards should be securely bundled but not too tight to cause damage.

All employees must exercise care in the handling of these cards to avoid damage.—*Bureau of Operations, 8-18-66.*

Folding Stand for Temporary Lettercases

Modification of Folding Stand for Temporary Lettercase, Item 75 to Provide Easier Access to Bottom Row of Separations

Easier access for distributing to and for sweeping from the bottom row of separations of the Temporary Corrugated Lettercases, Item 0-50, can be attained by placing a wooden slat 45 inches long, 2½ inches wide, and ¾ inch thick on the ledge of the Folding Stand adjacent to the case as shown in exhibit A. The slat will hold the working mail away from the case, thereby providing easier access to the bottom row.

EXHIBIT A

Use of the slat is optional; however, where use is contemplated, preparation should be made so that this modification can be made before the next Christmas season.—*Bureau of Research, Development and Engineering, 8-18-66.*

All Postal Installations

Holiday Service—Labor Day

Monday, September 5, 1966, shall be observed as a national legal holiday at all postal installations.

THE FOLLOWING INSTRUCTIONS ON PROVIDING POSTAL SERVICE ON THAT DAY MUST BE OBSERVED CLOSELY:

1. No window service will be provided, except that a general delivery or call window may be opened for a period of not more than 2 hours to hand out mail to business firms whose mail is regularly handled as "hold-outs" on primary or secondary distribution cases.

2. There will be no deliveries by city or rural carriers, and these employees will not be scheduled for duty to case mail for window delivery.

3. Normal holiday lockbox service must be maintained in all post offices and stations and branches.

4. Special delivery service will be provided.

5. Holiday schedules for the collection, receipt, and dispatch of mail shall be observed.

6. **Regular employees whose basic workweek includes September 5, 1966, as a scheduled workday:**

a. As many regular employees as can be spared will be excused from duty on September 5, 1966. Each eligible regular employee in or below salary level PFS-10 who is required to work on that day shall be paid extra compensation at the rate of 100 per centum of the hourly rate of his basic compensation for any service up to 8 hours. For service in excess of 8 hours, the employee will receive pay at the established overtime rate of 150 per centum of the hourly basic rate of compensation.

b. Eligible employees in salary levels PFS-11 through -14 who are required to work on September 5, shall be granted compensatory time in an amount equal to the time worked within 30 working days thereafter.

7. **Regular employees whose basic workweek does not include**

September 5, 1966, as a scheduled workday:

a. If Monday, September 5, is a scheduled day off for an annual rate regular employee, or for an hourly rate regular employee normally scheduled for service on 5 or 6 days a week, the first scheduled workday preceding September 5 is designated as the employee's holiday for pay and leave purposes. As many as can be spared will be excused from duty on their designated holiday. Eligible regular employees who cannot be excused from duty on their designated holiday shall be compensated for work performed as follows:

(1) Regular employees in PFS-10 and below shall receive extra pay at the rate of 100 per centum of the hourly rate of his basic compensation for each hour of service, up to 8 hours. For service in excess of 8 hours, the employee will receive pay at the established overtime rate of 150 per centum of the hourly basic rate of compensation.

(2) Eligible employees in PFS-11 through -14 who are required to work on their designated holiday shall be granted compensatory time in an amount equal to the time worked within 30 days.

b. Schedules of employees shall not be changed solely for the purpose of avoiding payment of holiday premium to employees for whom Monday is normally a scheduled day off.

c. The provisions of this paragraph are not applicable to postmasters or to rural carriers serving heavy-duty K routes for whom Monday is a regularly scheduled day off, or to hourly rate regular employees regularly scheduled for less than 5 days a week.

8. Substitute employees

Substitute employees shall be used to the maximum extent possible in covering required duty assignments on September 5.

Appropriate signs or notices should be placed in conspicuous places in lobbies or on doors advising patrons of the service to be provided.—*Bureau of Operations, 8-18-66.*

*All Postal Employees***Monthly Consultative Meeting**

During the July Consultative Meeting with the National Association of Postal Supervisors the following items were discussed and disposed of as indicated:

(1) *Travel Per Diem Regional Conferences.*—There have been several newspaper articles indicating the restrictions will be relaxed. We would appreciate information in this regard.

Disposition: A copy of proposed departmental instructions based on a recent Comptroller General's decision regarding this subject was reviewed with the NAPS. In general, the decision allows travel and per diem as heretofore.

(2) *Training—EO 10988 Program.*—Prospect of Basic Systems, Inc., program being implemented.

Disposition: This matter is still receiving attention in the Department. The NAPS will be consulted as soon as the Department is in a position to discuss implementation of this program.

(3) *Lists of Supervisors.*—When is it expected this data can be released?

Disposition: The matter is receiving attention in the Department.

(4) *Customer Relations Representative.*—This new position replacing that of Postal Service Representative based on criteria of 50 mailers with 150 revenue units and 100,000 population for PFS-6 and 50 mailers

*All Postmasters***Vice President's "Stay-in-School" Campaign Poster**

Postmasters will receive in the near future a poster issued by the Department of Labor on the Vice President's "Stay-in-School" campaign.

Display the poster in a prominent location in the lobby as outlined in section 612.233, Postal Manual, for 60 days from the date of receipt.

Postmasters in buildings operated by the General Services Administration should submit the posters upon their receipt to the superintendent of the building.—*Bureau of Facilities, 8-18-66.*

and 150 revenue units and 250,000 population for PFS-7 is satisfactory. However, we would like to explore this position in PFS-5 as relates to selection and training.

Disposition: Arrangements will be made to discuss this matter with representatives of NAPS as soon as possible.

(5) *Quality Step Increase.*—Is money available, and will notification be issued to postmasters to submit eligibles?

Disposition: The Department stated that funds are included and approved for fiscal year 1967 appropriation for this purpose. The procedure for submitting recommendations is being revised.—*Bureau of Personnel, 8-18-66.*

*All Postal Installations***Uniform Allowance Program**

This is to notify all concerned that the Department is in the process of considering the issuance of regulations which would implement the provisions of Public Law 89-504 governing the payment of uniform allowances.

Employees and all others concerned will be notified by an announcement in a forthcoming POSTAL BULLETIN of all new regulations and the method of implementation.

The present system is still in effect until further notice.—*Bureau of Personnel, 8-18-66.*

*All Postal Installations***Scheduled Changes in Class of Post Offices**

Welcome, Minn., did not advance from 3d to 2d class effective July 1, 1966. Zim, Minn., did not advance from 4th to 3d class effective July 1, 1966. Loving, N. Mex., did not advance from 3d to 2d class effective July 1, 1966. These offices should be deleted from the list of offices shown on page 6 of the POSTAL BULLETIN, May 19, 1966, *Scheduled Changes in Classes of Post Offices.*—*Bureau of Operations, 8-18-66.*

**REDUCE DAMAGE AND LOSSES—BE SURE THAT
ALL INSURED MAILINGS OF COINS ARE
SPECIALLY PREPARED TO WITHSTAND
MAIL HANDLING**

*All Post Offices***New-Style Money Order Forms****I. Domestic Money Orders**

The U.S. Postal Agency, and the Accountable Paper Depositories are in the process of making an automatic distribution of the *new-style (gray-tint) domestic* money order forms to all post offices. First- and second-class post offices using *more than 1,500 forms* in a 3-month period will receive a sufficient quantity to last from October 8, 1966, until 1 month after their next scheduled requisitioning date. First- and second-class post offices using *less than 1,500 forms* and all third- and fourth-class post offices will receive a 3-month supply.

Distribution of the new-style domestic money order forms is scheduled to be completed by September 15, 1966, and all post offices should receive an initial supply by September 23. Post offices that do not receive a supply by September 23 should submit Form 6055, *Requisition for Money Order Forms*, to either the U.S. Postal Agency, Stop 2, Washington, D.C. 20260, for *bulk quantities* (section 438.212, Postal Manual) or accountable paper depositories for *less-than-bulk quantities* (sections 438.211 and 422.54, Postal Manual). Endorse requisitions "New Style Domestic—Initial Supply Not Received."

Postmasters are again reminded that the current style (yellow-tint) domestic money order forms are to be used only through October 7, 1966. Requisitions for replenishment sup-

*All Post Offices***Improvement to Label Holders for Pouch and Sack Racks**

On older model pouch and sack racks, springs are sometimes accidentally lost from the reserve label holder. Offices having this problem should install a retaining stud in the pipe at the end of each reserve label holder. Each stud consists of one No. 10, round, fillister or pan head, self-tapping screw, ASA Type D, F, G, or T, 1 inch long and approximately 10- $\frac{1}{4}$ -inch plain washers. The number of washers may be varied to provide the desired height.

Drill pipe with No. 18 drill, approximately five-sixteenths inch from end and centered with label holder. Redesign has eliminated this problem on newer label holders.—*Bureau of Research, Development and Engineering, 8-18-66.*

plies of yellow-tint forms must be limited to expected usage through that date.

II. International Money Orders

A 6-month supply of *new-style international* money order forms is being distributed by the accountable paper depositories. Post offices that use international money order forms, but do not receive an initial supply by September 23 should submit Form 6055 in accordance with section 438.213, Postal Manual, to the appropriate APD. Endorse requisitions, "New Style International—Initial Supply Not Received."—*Bureau of Facilities, 8-18-66.*

*To All Installations***Motor Vehicle Uniform Insignia**

Since the announcement in the POSTAL BULLETIN of July 21, 1966, authorizing motor vehicle employees to purchase and wear shirts meeting the same color and fabric specifications worn by all uniformed employees, questions have arisen on the insignia to be worn on the shirts.

For the present time and until new specifications are announced, the old insignia will be worn above the pockets on the front of the shirt. The old circular emblem with the new arc on a blue background reading **Motor Vehicle Service** will be worn on the left shoulder.

Natick Laboratories are presently developing specifications for the new motor vehicle insignia. The new insignia will be on all authorized motor vehicle uniform items for purchase and wear, including shirts, when the new specifications for jackets and surcoats are announced.—*Bureau of Personnel, 8-18-66.*
