6-CENT CHRISTMAS POSTAGE STAMPS

The five 6-cent Christmas postage stamps will be first placed on sale at Washington, DC on November 5, 1970.

POSTMASTERS SHALL NOT PLACE THESE STAMPS ON SALE BEFORE NOVEMBER 6, 1970

Size: 0.84" x 1.44" (horizontal)

ISSUED IN PANES OF 50 (4 stamps different designs)

Color: Red, yellow, blue, and black

Initial printing: 875 million

Designer: Stevan Dohanos

To obtain first-day cancellations, collectors may submit requests to the Postmaster, Washington, DC 20013. See Postal Manual, section 145.3. Requests for all positions or combinations will be honored. The conventional policy on plate blocks will remain in effect. Selected mint stamps will be available at the Philatelic Sales Unit, City Post Office, Washington, DC 20013 on and after November 5, 1970. All of these issues will be tagged.

The Christmas stamps will be sold only to persons who specifically request them. At such time as it appears that as a result of this practice you may have an excess of Christmas stamps, the stamps may be placed on general sale, withholding other 6-cent

denomination sheet postage stamps unless specifically requested.

I. Automatic Distribution

All classes of post offices will receive an initial supply of each stamp under the automatic distribution schedule. **The quantity to be automatically supplied each post office will be approximately 10 times the amount (five times for Toys, item 570 and five times for Nativity, item 571) that is being furnished in the automatic distribution of a 50-subject commemorative postage stamp.**

II. Bulk Requisitioning

Postmasters at first- and second-class post offices requiring additional

Size: 0.84" x 1.44" (vertical)

ISSUED IN PANES OF 50

Color: Brownish tones, red, blue, yellow, and black

Initial printing: 875 million

Designer: Howard C. Mildner

bulk quantities of Christmas stamps, items 570 or 571 shall immediately submit requisitions on Form 3356, *Stamp Requisition—Bulk Quantities* to the Bureau of Engraving and Printing. **Any requisition for special issue Christmas stamps received after October 15, 1970 will be filled only if stock is available.** Bulk quantity requisitions must be prepared for quantities of 5,000, 10,000, 15,000,

Continued on p. 2, col. 1

Continued from p. 1, col. 3

20,000, 25,000, 50,000, 75,000, 100,000, 125,000, and multiples of 125,000. Do not order more than 5 million stamps on a single requisition.

III. Less-Than-Bulk Requisitions

Postmasters at first- and second-class post offices requiring less-than-bulk quantities of stamps and postmasters at all third- and fourth-class offices requiring additional stocks of the special issue Christmas stamps shall submit a separate requisition Form 17, *Stamp Requisition* to their accountable paper depository by no later than October 8, 1970.

IV. Offices Designated to Use Precanceled Christmas Stamps

All postmasters in postal region 1 will be supplied precanceled Christmas stamps equaling 10 times the quantity supplied on a 50-subject commemorative stamp. Postmasters at the 68 major cities in other regions who were previously notified concerning the use of precanceled Christmas stamps will be supplied the same quantity as the total quantity furnished their office last year. The quantity furnished will, insofar as possible, be equally divided between the two designs.

In the event additional quantities of precanceled stamps are required these may be requisitioned from regular suppliers. Bulk quantity requisitions must be accompanied by a letter stating that precanceled stamps are needed. Requisitions for less-than-bulk quantities must be endorsed "Precanceled." Regular Christmas stamps will be substituted if precanceled stocks are depleted.

All post offices engaged in the sale of precanceled Christmas stamps should requisition a supply of plain (nonprecanceled) special issue Christmas stamps (Toys and Nativity) for sale to those patrons who request the plain designs. Post offices which engaged in the experiment last year reported that less than 10 percent of the Christmas stamps sold were plain. Requisitions for both bulk quantities and less-than-bulk quantities must be accompanied by a letter or endorsement, as appropriate, to assure receipt of plain stock.—*Office of the Special Assistant to the Postmaster General, 10-1-70.*

All Postal Installations

National Employ the Physically Handicapped Week

The week of October 4-10, 1970 has been designated as National Employ the Physically Handicapped Week.

Thousands of handicapped men and women are at work at jobs they can do—and do well—in spite of their disabilities. But thousands more—with both will and skill—are not at work. Why not? The curtain of prejudice against the handicapped denied them the opportunity to work.

Even though there were gains last year in the employment of the handicapped in the Postal Service, there is still room for more. The handicapped—both civilians and veterans—need a still greater share of opportunity to become equal partners in this country's production efforts.

More than 18,500 handicapped individuals have been added to the postal rolls in the past 8 years. During the past 12 months, there was an 11 percent increase in appointments of handicapped persons over the previous 12 months.

With the current emphasis on the use of deaf persons for certain automated jobs, 292 persons who cannot speak or hear have been hired in the past 12 months. This represents a 114 percent increase in this category over the previous year.

There are definite "mutual benefits" derived from employing the handicapped. National Employ the Physically Handicapped Week provides an opportunity time for each of us to review our past efforts in support of the program and to establish new goals in selective placement for the future.

Postmaster General.

All Post Offices Using Motor Vehicles

Delegation of Authority

Evaluating Driving Techniques

Postmasters are hereby delegated authority to determine which employees of their office need periodic evaluation of their driving techniques based on the employee's driving record, work performance, patron complaints, or other factors that should be considered by the postmaster. Use Form 1543, *On-The-Job Driving Evaluation*, to evaluate driving techniques. Postmasters are encouraged to further delegate this authority and responsibility downward to postal supervisors having vehicle drivers under their direction.

Section 762.363, requiring annual evaluation of driver performance, will be rescinded in a forthcoming revision of the Postal Manual.—*Bureau of Operations, 10-1-70.*

All City Delivery Postmasters

Delegations of Authority

Section 352.63, Postal Manual, provides that postmasters submit narrative reports to the Regional Director for determination of need for providing collection service at airports.

Authority is hereby delegated to postmasters to provide collection service at airports, where needed, without prior referral to Regional Directors.

Appropriate permanent instructions will be amended.—*Bureau of Operations, 10-1-70.*

*All Postal Installations***SECOND-CLASS POSTAGE COMPUTATIONS****All Post Offices Having Second-Class Entries**

Reports continue to be received from the Inspection Service describing irregularities in the computation of postage on second-class mailings which are resulting in significant revenue deficiencies.

Postmasters having second-class entries must immediately make a thorough review of procedures in their offices to determine if any of the irregularities cited below are occurring. If your review determines that postage is not being computed and charged correctly, the postage must be recomputed and the appropriate adjustments made.

If questions arise which cannot be resolved, or if you determine that assistance is needed in making the recomputations and adjustments, a report containing all of the facts should be submitted to the Director, Office of Mail Classification, Bureau of Finance and Administration. Additionally, each postmaster should submit to that office a brief summary outlining any deficiencies found and the disposition made of each case. If none of the conditions cited is found by your review, prepare a memorandum stating that you have made the required review and retain it in your files. Do not submit reports to Headquarters if no irregularities are found.

(1) Sample Copy Mailings

Sample copies in excess of the allowable 10 percent of the total estimated weight of copies to be mailed to subscribers during a calendar year, provided for in section 132.461b, Postal Manual, have been accepted at the second-class rates of postage provided by sections 132.11 and 132.12 rather than at the applicable second-class transient rate in section 132.13, Postal Manual. See section 132.461e, Postal Manual.

Postmasters at offices having original second-class entries must maintain adequate records for each publication mailing sample copies to assure collection of postage at the correct rate at both the office of original entry and at additional entry post offices, as provided in section 132.461b, Postal Manual.

(2) Second-Class Mail Incorrectly Mailed at Third-Class Rates

Bulk quantities of second-class pub-

lications not properly acceptable at the second-class rates provided by sections 132.11 and 132.12, such as copies purchased by advertisers and other nonsubscribers, and sample copies in excess of the 10 percent allowable under section 132.461b have been incorrectly accepted at the regular bulk third-class rates or the non-profit bulk third-class rates. The correct rate for these mailings is the applicable second-class transient rate in section 132.13, Postal Manual.

(3) Unauthorized Enclosures in Second-Class Publications

Publications are being improperly accepted with enclosures that are marked as supplements but which do not meet the requirements in section 132.44, Postal Manual, and with enclosures or attachments prohibited under sections 132.47 and 132.48, Postal Manual, without prepayment of postage on the enclosures at the higher rates required by section 139.31, Postal Manual.

(4) Improper Use of Special Second-Class Rates

Publications are being accepted with postage computed at the special second-class rates in section 132.122, Postal Manual, although authorization to mail at the special rates has not been granted in accordance with section 132.33a, Postal Manual.

Each postmaster should have on file a Headquarters authorization for every publication being mailed at the special rates in section 132.122, Postal Manual. Review the appropriate section of either Form 3510, 3512, 3524, 3525, 3531, or other authorization for each publication being mailed at these special rates. If an authorization is not on file or the authorization for the publication does not indicate the special rates in section 132.122, Postal Manual, are authorized, and it is believed the publication is one that has qualified or may qualify under section 132.122c, Postal Manual, a report should be submitted to Headquarters furnishing the name of the publication, publisher and frequency for additional attention.

(5) Use of "Within County" Rates at Additional Entry Offices

Postmasters at additional entry post offices, located outside the county of original entry, have incorrectly ap-

plied the "within county" rates in section 132.11, Postal Manual, to local county mailings accepted at their offices. The zone rates in section 132.12, Postal Manual, must be used for all copies mailed at additional entry offices outside the county of original entry.

(6) Monthly Postage Computations for Second-Class Publications

Deficiencies in postage charges have been found where postage is computed at the end of the month on all issues mailed during the month based on the provisions of section 126.63, Postal Manual. The deficiencies occur when the postage on individual issues, if computed separately, would have been subject to the minimum per piece charge, but when combined with all issues for the month, is computed at the pound rates on the total weight.

The deficiency can also occur when individual issues are subject to the pound rates if computed separately, but when combined with all other issues for the month and computed on a monthly basis, the minimum per piece rate is used for the postage charge.

All issues may not be combined and postage computed at the end of the month if it is determined that some issues are subject to the minimum per piece charge and some issues are subject to postage at the pound rate. When some issues are subject to the minimum charge per piece and some to the pound rate, a Form 3542 should be obtained for each issue.

(7) Improper Use of "Within County" Rate for News Agent Mailings

Some offices with registered news agents (section 132.5, Postal Manual) are incorrectly charging "within county" rates on copies mailed for delivery in the county where the news agent is registered when the publication does not also have original entry in the same county. Only publications having original entry in the county where the news agent is registered may be mailed at "within county" rates. Other publications mailed by registered news agents must have postage computed at the zone rates in section 132.12, Postal Manual.

*All Post Offices***Second-Class Publishers' Ownership Statements**

As was noted in the September 10, 1970, *POSTAL BULLETIN*, a number of inaccuracies were found in the Statement of Ownership, Management, and Circulation (Form 3526) filed last year. Please review the *BULLETIN* notice to be sure that these inaccuracies do not occur at your office when you analyze this year's statements now being submitted by publishers.

In addition to the points stated in the previous *BULLETIN* notice, your review of each publisher's statement should also assure that the following points are covered:

1. Item 4, Location of Known Office of Publication, is located at the office where the publication has original entry.

2. Item 10 B 2 is in substantial agreement with the copies declared on Form 3542, Statement Showing Number of Copies of Second-Class or Controlled Circulation Publication Mailed, if the publication has no additional entry offices. If the publication does have additional entries, compare Item 10 B 2 with the findings of your verification of publisher records (P.M. 126.66). Determine the reason for any significant differences.

3. If the publication is required to have a legitimate list of subscribers it must have a paid circulation of at least 65 percent of the total dis-

tribution. Be particularly careful in reviewing statements of publications which have a significant percentage of the total copies reported in Item 10 F (Office Use, Left-Over, Unaccounted, Spoiled After Printing). Cases have been found where publishers are reporting copies distributed to news agents, but not sold, on line 10 F. Such copies must be counted as part of the total distribution and considered when you determine if the publication meets the 65 percent paid circulation requirement. For purposes of completing the form have the publisher enter copies distributed to news agents, but not sold, on line 10 D. The next edition of the form will have a separate line entry for this type of distribution. When you determine that the form is completed correctly, divide line C by line E. The result must be 65 percent or more.

4. Any publication mailing at the special rates in 132.122 and authorized to carry general advertising meets the paid circulation requirements discussed in 3 above.

In forwarding the forms to Headquarters after completing your analysis, separately group any with deficiencies and attach a memorandum explaining the deficiencies and actions you are taking to correct the deficiencies.—*Bureau of Finance and Administration, 10-1-70.*

*All Postmasters***Form 3570**

Use only the January 1970 edition of this form, if available. If a supply of this edition is not on hand, requisition on Form 1580, Notice of Attempt to Deliver Mail, from your supply center in accordance with the normal requisitioning cycle.

Upon receipt of the January 1970 edition, dispose of all previous editions as waste paper. *Bureau of Finance and Administration, 10-1-70.*

*All Post Offices***Number of Customers Served**

On request, postmasters will furnish without charge information as follows: Number of families served or number of business places served within the total delivery area or on particular carrier routes.

This change of section 123.43d, Postal Manual, will be included in the revision of Chapter 1, of the Postal Manual.—*Bureau of Finance and Administration, 10-1-70.*
