1977 NATIONAL ZIP CODE DIRECTORY

Free Exchange

Distribution of the 1977 *National ZIP Code Directory*, Publication 65, is expected to be completed by the end of March. The quantity shipped to each post office was determined by the survey announced in POSTAL BULLETIN 21090, 8-12-76, and includes directories to support the *Free Exchange Program* described in PB 21102, 12-30-76.

Several private publications have erroneously distributed information that the U.S. Postal Service had discontinued the Free Exchange Program. The Free Exchange Program continues in operation.

Customers known to hold outdated

copies of the *National ZIP Code Directory* should be contacted and encouraged to exchange them on a one-for-one basis. In view of the changes reflected in the new directory, recovery of the outdated editions is considered essential.

Each post office should maintain a record of all customers known to hold directories subject to exchange under this program. In the absence of an otherwise adequate local record, when making exchange request each customer to enter his/her address on the front of a Form 1585, *Request To Call*. If Form 1585 is not available, use Label 41, *Penalty Address Label*. The number of directories held by

the customer should be noted on one side of the label or form. These labels and forms can then be used both to determine requirements in response to a forthcoming survey and to ultimately notify customers of the availability of future editions for exchange.

Caution. Regarding the free exchange policy, only the official U.S. Postal Service *National ZIP Code Directory*, Publication 65, may be exchanged free of charge, **not** those published by private firms. The U.S. Postal Service directory will have the USPS Logo on the front cover and the words *Publication 65* printed on the back cover.—*Customer Services Dept., 3-10-77.*

Rural Carrier Pay System

The new Rural Carrier Agreement was implemented on November 20, 1976. The Postal Service payroll system did not contain the necessary procedures needed to process payroll adjustments. As a result, any pay adjustment subsequent to pay period 25-76 has not yet been processed.

An adjustment system will be implemented beginning pay period 06-77. The Postal Data Centers (PDC's) will start to process the adjustments on hand at that time.

Questions have been raised as to the most common adjustment problems and the method to be used for correction. A list of adjustment problems that have been encountered thus far, and the corrective action that will be taken by the PDC is as follows:

1. *No pay in a particular pay period.* Some substitute rural carriers have not been paid for all time worked. These carriers will be paid during PP 06-77 or 07-77.
2. *Incorrect route evaluations.* All routes have been reevaluated and the results have been mailed to the postmasters for review. Where errors were

discovered, specific procedures were provided to postmasters to correct these errors.

3. *Incorrect route classifications.* The route classification adjustments are in the same category as the route evaluation adjustments. The rerun of the evaluation using the new classification criteria approved by the Labor Relations Department and the rural carrier officials should eliminate these deficiencies.

4. *Pay for an incorrect number of days where sick leave was involved or errors in the crediting and charging of annual leave.* Pay period 25-76 thru pay period 05-77 will be reprocessed and the leave condition corrected. The PDC should be notified concerning any individual leave problem not corrected by pay period 07-77.

5. *Routes erroneously classified as RCS that should have been classified heavy duty, Type J or K.* This may have resulted in the rural carrier being charged annual leave or leave without pay (LWOP) on his/her proposed relief day. The annual leave charge will be restored and the

Consumer Service Cards

To avoid possible violation of the Privacy Act of 1974, postal facilities must not file *Consumer Service Cards* alphabetically by name.

Files of *Consumer Service Cards* (Forms 4314, 4314-A, and 4314-X) may be maintained chronologically by subject matter pending resolution of complaints.—*Customer Services Dept.*, 3-10-77.

LWOP removed. The employee who worked his proposed relief day is entitled to a day off. Upon receipt of a Form 1303, *Salary Change Notice*, the postmaster and the employee will have to determine when the time is to be taken. A collection will be made for payment received for working the original relief day.

There are other pay or route change situations that have been sent to the PDC for adjustment. These adjustments should be processed not later than pay period 08-77. If a particular adjustment has not been corrected by pay period 08-77, a reminder should be forwarded to the PDC.—*Finance Dept.*, 3-10-77.

International Inaugural Service

Cover Preparation Instructions

Official cachets and philatelic treatment for the inaugural services described in A and B below are authorized as outlined in section 257.33, *POSTAL SERVICE MANUAL*. **Aerogrammes and Postal Cards will not be accepted.** A clear space, 2½ by 2½ inches on the lower portion of the envelope and to the left of the address, must be allowed for the cachet. An additional 1½ inches to the left of the innermost stamp must be provided to permit a clear postmark. If a clear space is not provided, a cachet will not be applied. Mail covers to reach the office applying the cachet no later than three days prior to the scheduled date of the flight.

Covers already postmarked, those not properly prepared, and those posted in the usual manner will not receive cachets.

A. American Airlines

On or after April 1, 1977, American Airlines will inaugurate service from New York to Fort de France, Martinique and Point a Pitre, Guadeloupe. To send covers by this service, prepare them in the usual manner addressed for delivery in Martinique, Guadeloupe, the United States and Canada, affixing postage at 25 cents per half ounce. Enclose covers in another envelope addressed as follows:

<i>Cachets to be applied by:</i>	<i>Send covers to:</i>
Kennedy International Airport Mail Facility.	Philatelic Mail Clerk Airport Mail Facility Building 179 Kennedy International Airport Jamaica, NY 11430
New York City Post Office.	Postmaster General Post Office New York, NY 10001

Energy Conservation

Energy Document Control No. R-77-320

The most economical operation of the heating and cooling plant at Postal facilities depends greatly upon the skill of the individual or individuals charged with that responsibility.

Heating should not be introduced into interior zones of buildings for the sole purpose of raising the operating temperature to 65° F. At the same time, the amount of outside air should not be increased nor refrigeration introduced for the sole purpose of lowering the temperature which may otherwise exceed 65° F. due to heat build-up during the heating season. Interior temperatures should be allowed to build up to 78° F. to 80° F. Temperatures exceeding 80° F. are considered excessive.

When heat build-up is excessive and when refrigeration would normally be used to remove the excessive heat from interior zones, the use of the ventilation system is generally more economical to remove excessive heat. If a facility is not capable of using this technique, outside air should be introduced to remove the excessive heat build-up in lieu of refrigeration.—*Mail Processing Dept., 3-10-77.*

B. Lufthansa Airlines

On or after April 3, 1977, Lufthansa German Airlines will inaugurate B747 equipment from Los Angeles to Amsterdam, Netherlands and Frankfurt, Germany. To send covers by this service, prepare them in the usual manner addressed for delivery in the Netherlands, Germany, the United States and Canada, affixing postage at 31 cents per half ounce. Enclose covers in another envelope addressed as follows:

<i>Cachets to be applied by:</i>	<i>Send covers to:</i>
Worldway Postal Center.	Operations Manager Worldway Postal Center U.S. Postal Service Los Angeles, CA 90009
Los Angeles City Post Office.	Postmaster Attn: Manager, Terminal Annex U.S. Postal Service Los Angeles, CA 90052

Indicate at which of the destination offices backstamping is desired. Endorse the lower left corner of the envelope containing the cover with the words, *LHD Inaugural Covers*, for easy identification.—*Mail Processing Dept., 3-10-77.*

Authorized Postage Meter Manufacturers

The Singer Mailing Equipment Division, previously authorized to manufacture and distribute postage meters, has been sold to the F.M.E. Corporation (FME) located in California. FME has been authorized to enforce all of the Singer rental/maintenance contracts currently in effect and to manufacture and distribute postage meters in the future. The address is as follows:

F.M.E. Corporation
7901 Oakport Street
Oakland, CA 94621

ADS-Postalia has moved its headquarters to the following new address:

ADS-Postalia, Inc.
1423 Centre Circle Drive
Downers Grove, IL 60515

Section 144.13, *POSTAL SERVICE MANUAL*, will be revised to reflect these changes.

The addresses of the other two authorized postage meter manufacturers (NCR and Pitney Bowes) remain unchanged.—*Rates & Classification Dept., 3-10-77.*

Combination Mailings

Sections 139.312 and 145.71, *POSTAL SERVICE MANUAL* will be amended to provide for the prepayment of postage on enclosures by permit imprint as well as by precanceled stamps or meter stamps. Additional care must be exercised to insure that combination mailings bear the proper rate of postage and that the prescribed minimum number of pieces are being mailed as specified in section 145.51, *POSTAL SERVICE MANUAL*.

Section 139.23, *POSTAL SERVICE MANUAL*, will be amended to provide for the mailing of attachments at the bulk third-class rate, providing that all of the qualifications for bulk mailings are fulfilled (payment of bulk fee, minimum quantities, proper ZIP Code sorting, etc.). This amendment brings section 139.23, covering combination mailing pieces comprising a parcel or envelope and an attached envelope into line with procedures regarding the mailing of combination mailing pieces containing enclosures of different classes in a single mailing piece.—*Rates & Classification Dept., 3-10-77.*
